Pakistan And China Pledge To Safeguard CPEC Against Critics And Opposition

BEIJING: Pakistan and China have vowed to protect the China-Pakistan Economic Corridor (CPEC) from its detractors and adversaries as Prime Minister Shehbaz Sharif assured Beijing of providing complete security to personnel working on multi-billion projects.

PM Shehbaz is visiting China from June 4 to 8 at the invitation of President Xi Jinping, seeking to upgrade cooperation under the multi-billion dollar China-Pakistan Economic Corridor (CPEC), a key part of Beijing's Belt and Road Initiative.

In a statement, the PM's Office said during the meeting, the two sides discussed the significance of Gwadar as an important pillar of CPEC and agreed to expedite the timely completion of all related infrastructure projects to transform Gwadar into a regional economic hub.

"They also expressed their firm commitment to protect CPEC from its detractors and adversaries and to upgrade CPEC in the form of enhanced cooperation," the statement said.

The prime minister also reaffirmed Pakistan's unflinching resolve to ensure the safety and security of Chinese personnel and projects in Pakistan.

Chinese investment and financial support since 2013 have been key for the South Asian nation's struggling economy, including the rolling over of loans so that

Islamabad is able to meet external financing needs at a time when foreign reserves are critically low.

China has also invested billions in various power projects and road networks in Pakistan under the \$65 billion CPEC plan, but the implementation of various projects has slowed in recent months.

During the talks, the two leaders discussed the entire spectrum of bilateral relations and discussed regional and global developments of mutual interest.

The two sides agreed to

maintain high-level exchanging institutional linkages at all tiers and in all spheres of bilateral cooperation.

Pakistan and China will also continue to consult closely on issues of regional and global significance and multilateral fora, especially during the two-year tenure of Pakistan as a non-member of the UNSC.

The delegation-level talks were followed by an MoU signing ceremony, witnessed by Prime Minister Shehbaz and Premier Qiang, where both signed 23 MoUs and agreements deepening cooperation in transport infrastructure, industry, energy, agriculture, media, health, water, socio-economic development and others of mutual interest.

The meeting was followed by an official banquet hosted by Premier Li Qiang in honour of the prime minister.—RT/Agency

PTI Criticizes FIA For Issuing Notice In Imran's Tweet Controversy

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) Secretary-General Omar Ayub Khan has launched sharp criticism of the Federal Investigation Agency (FIA) for serving him a call-up notice in the party founder Imran Khan's controversial tweet case.

Ayub, speaking on the floor of the National Assembly on Friday, slammed the probe agency's notices to him and other PTI leaders — including the party's Chairman Barrister Gohar Ali Khan and Central Information Secretary Raouf Hasan — in the controversial X post case.

Ayub, who is also the Leader of the Opposition in the lower house of parliament, stressed that the parliamentarians were part of the state as per the Constitution. "Parliament is superior than to any other institutions in the country."

The politico questioned higher authorities about the jurisdiction of a probe agency's sub-inspector which allowed him to issue a call-up notice to the parliamentarians.

He demanded the House summon the FIA's director general to question his jurisdiction and also about the language which was used in the call-up notice.

Ayub said that he and several other PTI leaders were booked in terrorism cases in Sargodha. He alleged that "aliens" were involved in the disappearances of party workers whenever they came out of jail.

He slammed that association with the Imran-founded party was seemingly becoming a crime in the country while there was no law in place which could stop such illegal activities.

He went on to say that the former prime minister, who was removed from power in April 2022, was facing "solitary confinement" which was proved from the pictures of his prison cell at Rawalpindi's Adiala Jail.

He further alleged that former first lady Bushra Bibi was also not given any facilities at the jail.

The PTI secretary-general alleged that other PTI women leaders — Aliya Hamza Malik and Sanam Javaid — were not being released despite the mandates of their release being prepared.

"Is this a banana republic? This kind of Gestapo state policy should be eliminated and let the country go ahead," he added.—RT/Agency

Anwar Maqsood Claims Pakistan's Loss To USA Is A Deal With The Devil

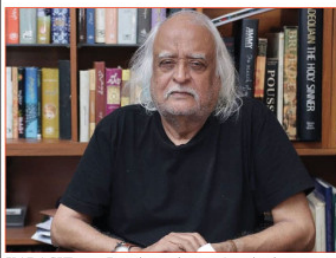

KARACHI: Prominent writer, satirist and host, Anwar Maqsood, revealed a unique reason for Pakistan's shocking defeat at the hands of America in the T20 World Cup, saying it must be an International Monetary Fund (IMF) condition.

In yesterday's T20 World Cup 2024 match at the Grand Prairie Stadium in Dallas, the tournament witnessed a major upset as the United States (US) defeated Pakistan, shocking fans in Pakistan who are now expressing their anger and frustration at the dismal performance.

Maqsood's video is going viral on social media in which he is asked what he would say about losing to the US. The writer said that Pakistan had no choice but to lose to America because we need a loan from the IMF, which we haven't received yet.

He quipped that the IMF must have put a condition on Pakistan to lose against America in the match to receive a new package. Apart from this, he couldn't think of any other reason for the defeat. He further commented that those who have bought the tickets for the upcoming Pakistan-India match on Sunday will now sell them at half the price.

Meanwhile, humorous memes about the national team are circulating on social media, and notable personalities from the entertainment industry are also offering interesting reactions to Pakistan's loss.—RT/Agency

Imran Cooperates With FIA Investigation On Controversial X Post

ISLAMABAD: After refusing to appear before investigators twice in connection with the controversial tweet case, the incarcerated Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan has finally joined the probe into the debatable video that appeared on his official X account a few days ago, sources told media.

The former premier Khan formally joined the FIA's probe which was launched after a controversial video regarding the Fall of Dhaka incident had been posted on his official X account.

"Every Pakistani should study the Hamood ur Rahman Commission Report and get to know who was the traitor, General Yahya Khan or Sheikh Mujibur Rahman," the post read.

The sources said that an investigation team comprising FIA's Additional Director Ayaz Ahmed and Sub-Inspector Munib reached the Adiala Jail, again, to question the PTI founder.

It emerged that Khan joined the investigation in the presence of his lawyers Chaudhry Zaheer Abbas and Intezar Hussain Panjthra.

During the probe, the FIA team grilled Khan after showing his debatable X post in jail.

Not only Khan, but the FIA had also served notices to three other PTI top leaders in connection with the case, including Barrister Gohar Khan, Omar Ayub and Raouf Hasan.

However, Omar had excused from appearing before the FIA due to a "busy schedule", whereas, Gohar and Raouf appeared before the investigators on Wednesday.

Additionally, the Islamabad High Court (IHC), following a petition against the FIA's call-up notices, also directed the probe agency not to take any adverse action against them, besides directing the PTI leaders to join the probe.

Expressing severe outrage over being summoned by the probe agency for the X post probe, PTI Secretary General Omar blasted the FIA for issuing call-up notices to the parliamentarians and other party leaders.

Speaking on the floor of the National Assembly today, the Leader of the Opposition questioned the jurisdiction of a probe agency's sub-inspector which allowed him to issue a call-up notice to parliamentarians.

Omar added that the parliamentarians were part of the state as per the Constitution and the parliament was superior to any other institutions in the country.

He slammed that association with the Imran-founded party was seemingly becoming a crime in the country while there was no law in place which could stop such illegal activities.

He demanded the House to summon the FIA's director general to question his constitutional limits and also about the language which was used in the call-up notice.—RT/Agency

Unapologetic Vawda And Kamal Summoned In Contempt Proceedings

ISLAMABAD: The Supreme Court (SC) of Pakistan summoned Muttabhida Qaumi Movement-Pakistan (MQM-P) Deputy Convener Syed Mustafa Kamal and independent Senator Faisal Vawda in contempt of court case, media reported.

The SC issued a written order of Thursday's hearing, maintaining that Syed Mustafa Kamal and Vawda had defied an unconditional apology and left himself at the mercy of the court.

The order said that Faisal Vawda's counsel sought time to submit an additional reply while the Pakistan Electronic Media Regulatory Authority (PEMRA) submitted the transcript of the press conferences held by both parliamentarians.

The apex court in its order maintained that Faisal Vawda's press conference was broadcast by 34 news channels and while Syed

Mustafa Kamal's press conference by 28 news channels.

"In Prima facie, broadcasting such press conferences falls under the contempt of court," the order read.

The apex court also sought replies from the news channels and asked as to why contempt of court action should not be taken against them.

It is pertinent to mention here that the SC rejected the unconditional apology tendered by Syed Mustafa Kamal while Faisal Vawda refused to apologize.

The Supreme Court (SC) had issued contempt of court notices to independent Senator Faisal Vawda and MQM-Pakistan MNA Mustafa Kamal over anti-judiciary rhetoric.

The apex court sought notice of press conferences held by Senator Faisal Vawda and Kamal wherein they demanded evidence of interference in the judiciary.

The top court then issued notices to both leaders and asked them to submit their response before the court.—RT/Agency

Justice Kayani Observes Importance Of Institutions Operating Within Their Boundaries

ISLAMABAD: Justice Mohsin Akhtar Kayani of Islamabad High Court (IHC) on Friday says no one is above the law and all institutions should work within their constitutional jurisdiction.

He gave these remarks while hearing the petition for the recovery of poet Ahmed Farhad Shah.

Advocate Iman Mazari appeared on behalf of the petitioner while senior journalist Hamid Mir assisted the court as amicus curiae.

Additional Attorney General Munawar Iqbal and Assistant Attorney General Barrister Usman Ghuman were also present in the court.

Advocate Iman Mazari said that the bail petition of Ahmed Farhad had been rejected by a local court of Muzaffargarh.

Advocate Riasat Azad said that the court shouldn't dispose of the case as it is a matter of basic human rights.

The additional attorney general said that the FIR had been launched and Ahmed

Farhad had been recovered. The court cannot proceed its hearing further when the missing person is recovered, he said.

"I am writing to chief justice to constitute a larger bench over the issue of missing persons," Justice Mohsin Akhtar Kayani said. The larger bench is required to have a diversified viewpoint, he added.

SEPA Team Investigates Environmental Pollution Reports In Taluka Kaloi

By Ashraf Kunbar

MITHI: After taking strict notice of the pollution caused by various coal kilns and brick kilns in the surrounding areas of Kaloi, the district administration issued directives to the relevant authorities. In response to these directives, a team from the SEPA, comprising Director General Naeem Ahmed Mughal and Regional Incharge of the Environment Department, Regional Office Mirpurkhas, Ali Muhammad Rind, along with Assistant Director Technical Abdul Aziz Mahar, Chemist Shahid Rehman, and Inspector Muhammad Iqbal Nohri, conducted a visit to Kaloi and Wangoo Mor and its

surrounding areas to inspect the brick kilns and coal kilns. During the inspection, the team observed that wood was being burnt on the brick kilns, which is strictly prohibited. No prohibited fuel, such as plastic, shoes, bottles, or cloth, was found on the kilns. However, on the other hand, the process of making coal from wood was ongoing in the coal kilns. The artificial coal produced in these kilns is made by burning wood, which results in the emission of smoke affecting the surrounding areas. Regional Incharge of the Environment Department, Regional Office Mirpurkhas, Ali Muhammad Rind, stated that the team from the SEPA has visited and submitted a report. Accordingly, action is being taken under the Environmental Protection Act 2014. He further mentioned that no individual would be allowed to pollute the environment. Anyone found engaged in such activities would face severe consequences. Moreover, it was informed that the SEPA had previously taken action against the brick kilns present at Wangoo Mor, which is why no plastic, shoes, or cloth was being burnt. Prior notices were sent to them through the police, and they were also warned personally. They were strictly instructed not to burn plastic, shoes, or other waste and further stringent action would be taken against them if they fail to comply.

A New Low for Pakistan Cricket

In a stunning upset that has left Pakistani cricket fans in shock, Babar Azam's team managed to find a new way to embarrass themselves and the nation by losing to World Cup debutants, the USA. This historic low, even by Pakistan's deplorable standards, exemplifies the catastrophic consequences of favoritism within the team.

The match in Dallas was a spectacle of missed opportunities and poor performance. Pakistan's top order crumbled early, with the team reduced to 26-3 inside five overs, thanks to a disciplined bowling attack led by the USA's Nosthush Kenjige and Saurabh Netravalkar. Despite a brief recovery by Babar Azam and Shadab Khan, who put on a 72-run partnership, the Green Shirts never managed to dominate the game.

The USA, having set a modest target of 159-7, leveled the score to push the game into a super over, a scenario in which Pakistan's weaknesses were

brutally exposed. Naseem Shah's early breakthrough proved futile as the US batsmen, particularly Andries Gous and Monank Patel, comfortably kept the scoreboard ticking, showcasing a calm and calculated approach that was glaringly absent in the Pakistani camp.

In the super over, the USA set a challenging 19-run target, which Pakistan failed to chase, manag-

ing only 13 runs. This defeat is not just a statistical embarrassment but a testament to the deep-rooted issues plaguing Pakistani cricket. Favoritism and poor selection policies continue to overshadow merit and performance, leading to such humiliating defeats.

The Pakistani cricket management must introspect and address these systemic flaws. The team's loss to the USA, a nation with significantly less cricketing history and infrastructure, underscores the urgent need for reform. Embracing meritocracy over favoritism could prevent such historic lows and restore pride in Pakistani cricket. Until then, the nation can only hope for a day when talent and performance dictate team selection, not favoritism and politics.

DUBAI: The International Cricket Council (ICC) has unveiled the nominees for the "Player of the Month" award for May, with Pakistan's fast bowler Shaheen Afridi among the contenders.

The ICC has shortlisted three players for the prestigious award. Alongside Afridi, West Indies spinner Gudakesh Motie and Ireland's wicketkeeper-batter Lorcan Tucker are also in the running.

Afridi's inclusion in the list comes on the back of an impressive performance in May. The left-arm pacer claimed 10 wickets while playing T20 matches at an average of 14.5, showcasing his exceptional form throughout the month.

Pakistan will need Afridi to perform in the crucial match against India on Sunday, which has become even more important after the Green Shirts suffered a shocking defeat against the USA.

Boom Boom calls Pakistani strategy in Super Over a major 'blunder' against US

KARACHI: Former cricket captain Shahid Afridi called Pakistan's shocking defeat at the hands of the United States Thursday during their maiden game of the T20 World Cup 2024 a major blunder.

The Green Shirts lost during the Super Over by five runs after they were provided a target of 19 runs at the Grand Prairie Stadium, Dallas.

While speaking on his YouTube channel Friday, the 47-year-old Afridi said: "They made a huge mistake by opting for Iftikhar instead of Fakhar to play the first ball of the Super Over. The left-arm fast bowler would have suited Fakhar because of the angle of the bowling."

"I don't know who told Iftikhar to face the left-arm," Afridi said.

Afridi was also unhappy with the way Mohammad Amir bowled in the super over of the match.

"Mohammad Amir bowled really well during the match and I thought that they will go within the Super Over as well. But he conceded a lot of extras in the Super Over which also didn't help Pakistan's cause. He is experienced and knows how to bowl yorkers. The ball was reversing as well which is

why I think he shouldn't have given away so many runs," the former captain added.

Pakistan had posted a 160-run target while batting first which the US managed to level on the last ball of the last over as they concluded their innings at 159-3.

At the post-match presentation, Babar said that they failed to score with intent in powerplay.

"In the first six overs, we didn't capitalise. Back-to-back wickets always put you on the back foot, as a batter you need to step up and build partnerships," he said.

Babar mentioned that the same case was with the ball while stressing that spinners were unable to take wickets.

"We were not up to the mark in the first 6 overs with the ball. Our spinners also did not take wickets in the middle overs so these things cost us," he reversing as well which is

Wasim Akram lambasts Pakistan over "pathetic performance" against USA

DALLAS: Legendary pacer Wasim Akram termed Pakistan's performance "pathetic" as they succumbed to a shock loss in their ICC Men's T20 World Cup 2024 campaign opener against the United States of America (USA).

Akram, while speaking on an Indian channel, did not mince his words in criticising the national team's performance before praising the associate nation for playing well in tense situations.

"Pathetic performance. They were playing against the USA. I was confident that Pakistani supporters were confident that they would win but credit to the USA for the way they played their cricket," stated Akram.

"The first innings, the second innings when they came out to chase and then of course the Super Over. I

mean 19 runs in Super Overs is like getting 36 runs in an over. So well done USA," he added.

Akram also predicted that the Babar Azam-led Pakistan would struggle to qualify for the Super 8s, given the current situation of Group A.

"Pakistan will struggle from here onwards to qualify for the Super 8s because they have to play India and two other good teams too."

Wasim Akram also highlighted the turning point of the match before pointing out the errors, the national team made.

"I think turning point of the game... was the way they got early wickets. They had one little partnership between Shadab and Babar and then nobody looked comfortable. The fielding was average, overall cricket was very average by Pakistan.—Agency

Canada captain takes a dig at Pakistan over shock USA defeat

DALLAS: Canada's captain Saad Bin Zafar took a dig at the Pakistan team following their shocking defeat in the ICC Men's T20 World Cup 2024 campaign opener against co-host United States of America (USA).

Pakistan-based cricketer Saad, who has been given the leadership role of the inexperienced Canadian side, stated that he aims to do against Ireland what the USA did to Pakistan.

"We would've bowled first as well. If we can put decent runs on the board, will not be easy to change. It's always good to see an associate country to beat a full member country," stated Saad Bin Zafar at the toss against Ireland.

"Hopefully what USA did to Pakistan, we can do to Ireland. If you play your A game on the day, you can beat anyone," he added.

The Pakistan men's cricket team on Thursday, stooped to a new low as the former champions succumbed to an upset five-run defeat against the USA after an enthralling match which was decided in the Super Over.

Pakistan captain Babar Azam entrusted senior pacer Mohammad Amir to bowl the Super Over. However, the left-arm pacer struggled to maintain his line and length and went on to concede 18 runs.

Amir bowled three wickets in the over while poor fielding, and overthrows saw the Green Shirts leaking away more runs.

Set to chase 19 in the one-over eliminator, Iftikhar Ahmed and Fakhar Zaman came out to bat for Pakistan while Saurabh Netravalkar was given the ball for the USA.

The right-handed batter played out a dot on the first delivery but hit Netravalkar for a four on the next delivery.

The boundary put the left-arm pacer under immense pressure as he bowled a wide on the next delivery. However, Netravalkar was soon to recollect himself and dismissed Iftikhar Ahmed on the next delivery.—Agency

PAK vs USA: Mohammad Hafeez questions Pakistan's Super Over botched strategy

LAHORE: Former Pakistan captain Mohammad Hafeez questioned the Green Shirts' Super Over strategy against the United States (USA) in their first match of the T20 World Cup 2024 which was played at the Grand Prairie Stadium, Dallas, on Thursday.

Pakistan's Mohammad Amir took the ball in the Super Over and the USA concluded their innings 18-1 in reply, Pakistan could only score 13-1 and ended up losing the match by five runs.

Talking to local media channel after the match, Hafeez expressed unhappiness with Amir bowling the last over, saying it should have been Shaheen Afridi or Naseem Shah as both have been playing cricket for a long

time while this was Amir's first international tournament after returning to cricket.

"Who was the best bowler? For me, it would be Naseem Shah and then Shaheen Shah Afridi. Amir was away from Pakistan cricket for four years. Don't try to compare international T20 leagues to international cricket. You didn't trust your main player and trusted someone who is making a comeback after four years," Hafeez said.

The former cricketer also slammed the team for not being able to keep their nerves together and lost to a team with not much international experience as Pakistan.

"How did Pakistan lose not one, but two matches in a day? First, we lost the 20-over game and then the super over. We understand you were nervous. It was a nervous batting innings, it was nervous bowling and fielding. I understand it in the 20-over game. But you couldn't control your nerves in a Super Over?" he concluded.

Pakistan now play arch-rivals India next on June 9 in New York, should they suffer another defeat, their chances of qualifying for the World Cup Super 8 would be little to one. On the other hand, the USA have now two wins in two matches and they are in a strong position to make way to the last eight.—Agency

Jennifer Aniston recalls a world with no social media

When Friends premiered, there was no social media, Jennifer Aniston says, which helped the cast to remain aloof from the negativity.

Sharing her views on Variety's Actors on Actors, the Emmy winner said the absence of these platforms made the cast forge a closer bond as they did not pay attention to outside chatter.

"It was in the '90s and 2000s, and we had the luxury of there not being social media or the internet, so we were so isolated and protected," she said.

"You weren't faced with what people are commenting and ripping you apart or whatever. It was a dreamy time."

Jennifer continued, "It was really nostalgic, a nice, "It was really an interesting note, where we could roam about the world a lot easier."

FPCCI Demands Abolition Of Section 7E Of Income Tax Ordinance

KARACHI: Mr. Atif Ikram Sheikh, President of the Federation of Pakistan Chambers of Commerce & Industry (FPCCI), has urged the government to abolish Section 7E of the Income Tax Ordinance (ITO) 2001, calling it unproductive and unfair for levying deemed or imaginary income on immovable properties. He noted that Section 7E has not significantly increased tax collection and has instead caused chaos in the real estate sector.

Mr. Sheikh also advocated for the establishment of a Real Estate Regulatory Authority (RERA) in Pakistan, similar to other regional countries, to ensure the sector operates optimally and contributes to the national economy. He emphasized that this should be done in consultation with stakeholders.

He further highlighted that the Sindh government collects a 1.25 percent infrastructure cess at the import stage, amounting to

PKR 225 billion annually. He argued that a significant portion of this should be spent on infrastructural development in Karachi to improve the real estate market. Mr. Saquib Fayyaz Magoom, SVP FPCCI, pointed out that the real estate sector can attract more foreign exchange through remittances from overseas Pakistanis. He stressed the need to facilitate investment from overseas Pakistanis to stabilize the rupee-dollar parity and bolster foreign exchange reserves. Syed Saquib Shah, Convener of FPCCI's Central Standing Committee on Real Estate Property and Builders, called for the digitalization of the property registration system to enhance transparency and fairness. He also suggested implementing an e-stamp system in Karachi similar to Punjab's. IHC Directs Investigation Officer To Record Poet Ahmed Farhad's Statement Before Magistrate

ISLAMABAD: Justice Mohsin Akhtar Kayani of the Islamabad High Court (IHC) Friday ordered the investigating officer of Loh Bhir police station to record the Kashmiri poet Ahmed Farhad's statement under Section 164 of the Code of Criminal Procedure (CrPC) before a judicial magistrate.

Following the order, the judge disposed of the petition seeking the poet's recovery after his whereabouts were ascertained following the confirmation of his custody with the police in Azad Jammu and Kashmir.

Justice Kayani, who was hearing the plea filed by the poet's wife Urooj Zainab, told the petitioner to refer to the court again if they feel the need.

"I know how to get my orders implemented," the judge said. Zainab had moved the IHC seeking her husband's recovery along with requesting the court to identify, investigate, and prosecute those responsible for his disappearance.

The poet remained missing for 15 days before Attorney General for Pakistan,

Mansoor Usman Awan, on May 29, in response to IHC's directions to ensure his recovery, said Farhad was arrested and in AJK police's custody.

The poet was arrested and transferred to Muzaffarabad from Dhirkot under multiple sections of the Anti-Terrorism Act (ATA). Known for his defiant prose, the poet's matter came into the spotlight after he allegedly went missing during protests in AJK in May.

Human rights lawyer Iman Mazari appeared before the court as the petitioner's counsel, while journalist Hamid Mir appeared as a judicial assistant.

Additional Attorney General

other was said to have been filed.

"I think his problems are increasing. It is now believed that he is in judicial custody," said the judge. He added that if the police detains someone during the trial and does not present them for two days, then the trial is concluded.

Justice Kayani questioned about the poet's whereabouts before his arrest, stating that the issue pertains to enforced disappearance.

"If the abductee is recovered, the plea of habeas corpus is dismissed. They say that instructions to identify the kidnappers should also be issued," the additional attorney general told to the court, adding that this matter will be revealed during investigation.

The AAG said that the poet is now in judicial custody and a statement under Section 161 has been recorded. Justice Kayani asked the AAG to show if the investigating officer went to Kashmir and recorded Farhad's statement.

"It is written that I am mentally and physically unable to give a statement. It is also written that he will appear in the court himself or give a statement through a lawyer," remarked Justice Kayani.

The judge also said he is writing about the matter to the chief justice, requesting him to form a larger bench on all missing persons cases. The judge added that he is sending the matter to the larger bench, so that if the position of one judge is different, others can also see it.

"The rest of the members may not agree on summoning the heads of the intelligence agencies," said the judge.

He also remarked about sending the matter to the committee on how law in Islamabad should be enforced. "Respect the law, no one is above the law including judges," the IHC judge said that the court is always standing for the protection of the poet's rights. "The investigation will proceed as a result of Ahmad Farhad's statement before the magistrate."

He remarked that institutions should work within their limits. The court will ban in-camera proceedings and reporting on matters of national security. Justice Kayani said.—RT/Agency

The foreign office also reiterated its call for India to be held accountable for ongoing human rights abuses in Indian Illegally Occupied Jammu and Kashmir (IIOJK), where over 7,000 Kashmiris have died in the custody of Indian forces over the past three decades.

Baloch further highlighted the reported death of a Kashmiri civilian at a police station in Pulwama district of IIOJK.

She emphasised that Pakistan, as a member of the United Nations Security Council, would advocate for the peaceful resolution of disputes, oppose unilateral

force, combat terrorism in all its forms, support UN peacekeeping efforts, and promote democracy, transparency, and accountability.

Additionally, Baloch noted that Prime Minister Shehbaz Sharif is on an official visit to China. Following discussions at the delegation level, 23 memorandums of understanding were signed. Security for Chinese citizens in Pakistan was also discussed during the meetings. The premier participated in a business conference in Shenzhen as well.

Furthermore, the FO spokesperson condemned the bombing by Israeli forces of a UN-run school sheltering Palestinian refugees, which resulted in multiple deaths, primarily of women and children.

"This attack is another crime in a series of assaults against civilians, including an IDP camp attack last week that killed 45 Palestinians. The deliberate targeting of civilian populations and facilities is a grave violation of international law and constitutes war crimes," she stated.

FO statements on cross-border travel come in light of the rising insurgent attacks on Pakistan's northern territories that have been found to have roots to Afghan soil.

Previously, at least five Chinese engineers and their Pakistani drivers were killed in a suicide attack on the Karakoram Highway on March 26.

Speaking at a press conference in Lahore along with the National Counter Terrorism Authority (NACTA) coordinator, Interior Minister Mohsen Naqvi said evidence of Afghan linkage to the Besham attack had already been shared with the Afghan government. "Unfortunately, there is no positive response yet from the Afghan government," the interior minister said. Pakistan not only demanded the arrest of three TTP terrorists responsible for the Besham attack but also wanted TTP chief Noor Wali Mehsud and the entire leadership detained.—RT/Agency

Judicial Commission Recommends Three Judges For Elevation To Supreme Court

ISLAMABAD: The Judicial Commission of Pakistan (JCP) Friday sent the names of three high court judges to be considered for elevation to the Supreme Court for final approval by the Parliamentary Committee, sources told media.

The names, recommended for appointment to vacant SC seats, were recommended during a meeting of the Judicial Commission held under chairmanship of Chief Justice Qazi Faez Isa, said the sources.

During the meeting, the names of Lahore High Court Chief Justice Malik Shahzad Ahmad, Sindh High Court Chief Justice Aqeel Abbasi, and LHC Justice Shahid Bilal have been proposed, the sources said.

JCP Isa had, last month, convened the JCP meeting for deliberations over the appointment of three judges in the SC.

The JCP was constituted under the 18th Constitutional Amendment mandated to appoint judges in the superior

judiciary.

It was tasked to consider names of nine judges, including LHC chief justice and SHC chief justice, for filling the three vacant posts in the apex court.

Chaired by the CJP, the meeting was to be attended by JCP members—Justice Syed Mansoor Ali Shah, Justice Munib Akhtar, Justice Yahya Afridi, Justice Amin-ud-Din Khan, Justice (retd) Manzoor Ahmed Malik, Federal Minister for Law Azam Nazir Tarar, Attorney General Mansoor Usman Awan and Pakistan Bar Council representative advocate Akhtar Hussain.

As per the Constitution, the actual strength of judges of the Supreme Court is 17 while at present the apex court only has 14 judges including the CJP.

The three posts are to be filled after the retirement of former chief justice Umar Ata Bandial and resignations of Justice Ijazul Ahsan and Justice Syed Mazhar Ali Akbar Naqvi.—RT/Agency

Imran Chooses To Adopt A Flexible Approach To Reduce Political Tensions

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan has decided to "step back" from his rigid stance, ordering his party leaders to establish contacts both inside and outside the Parliament to ease the ongoing political tension, sources told media.

According to the sources, the party's leadership would hold talks with various political parties outside the Parliament, while its lawmakers would also enhance its relations with parties in the ruling coalition government.

The PTI founder's decision came after his interaction with Chief Justice of Pakistan, Qazi Faez Isa, when he appeared for a hearing before the Supreme Court a day earlier.

During the hearing pertaining to the National Accountability Bureau (NAB) law amendments, CJP Isa suggested that Khan go to the Parliament to help resolve Pakistan's problems "as the country needs to move forward."

The incarcerated PTI founder — during his appearance before the SC bench via video link from Adiala jail, where he remains behind bars since August 2023 — complained about facing political "victimisation" since his ouster from power in April 2022.

The former prime minister has given his party's

three-member committee the authority to establish contact with the establishment, said the sources.

On the other hand, Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur is also engaged in back-door communications, they added. The sources revealed that it has been decided that PTI would support the state for political and economic stability to de-escalate tension.

"The party will move forward by holding negotiations on multiple matters including on committees of the Senate and National Assembly," the sources said.

Former president and PTI leader Dr Arif Alvi, on June 5, claimed that the incarcerated party founder was being told to "strike a deal and leave the country."

Alvi had said that Khan rejected the offer and decided not to leave the country "at any cost."

The former president had predicted that those who were colluding to sentence

Khan — the former prime minister — would face a complete failure.

Commenting on dialogue offers, the politico had said that his party was ready to hold talks with "stakeholders but not with the non-stakeholders". He had asked the stakeholders to let go of hatred and practice compassion.

He had also said that the stakeholders should not be afraid of any kind of risks after the PTI founder's release. Alvi demanded releasing the former prime minister, the supremacy of law in the country and returning the party's mandate.

Alvi had further said that his party could not hold the incumbent rulers who were as much "powerless" as they came into power via "Form 47" and didn't have "authority" to make decisions.

On June 5, he had said that his party would hold dialogue with the one who has real power to make decisions.—RT/Agency

PTI Alleges Deliberate Delays In Imran And Bushra Bibi's Iddat Case

ISLAMABAD: The Pakistan Tehreek-e-Insaf (PTI) has alleged a "deliberate delay in the provision of justice" to the incarcerated party founder Imran Khan and his wife Bushra Bibi as the iddat case was transferred to another court on a district and sessions judge's request.

The statement was issued by the Imran-founded party's core committee after holding a session on Friday in which they reviewed the status of ongoing trials against the former prime minister and the ex-first lady, as well as other developments in the country.

In a statement, the core committee stated that Khan and Bushra Bibi deserved to be immediately released from jail. It alleged that the pace of trials against the duo was being "deliberately delayed" via deferring the hearings with delayed dates.

The former ruling party expressed hopes that the "false, baseless and unfounded cases" would meet their fate very soon. Commenting on the iddat

case, the PTI termed the Islamabad High Court's (IHC) decision to transfer the trial to another court "illegal".

It is noteworthy to mention here that the IHC had accepted the district and sessions judge Shahrullah Arjumand's request for transferring the iddat case related to the marriage of Khan and Bushra.

The case was transferred to the court of additional district and sessions judge Muhammad Azeem Mujahid who will conduct the hearings of the case. Subsequently, the former ruling party also expressed concerns over Bushra Bibi's health. Despite serious reservations, Bushra's medical tests were carried out at the Pakistan Institute of Medical Sciences (PIMS), whereas, her medical reports were not being provided for unknown reasons, the statement read.

Additionally, the PTI core committee also raised concerns over the appointments of retired judges in the election tribunals by the Election Commission of Pakistan (ECP). It added that the party would raise a strong voice against the Chief Election Commissioner (CEC) and the ECP members in and outside parliament.—RT/Agency
