Supreme Court To Announce Verdict On PTI-SIC Reserved Seats Today

ISLAMABAD: The Supreme Court will announce its much-awaited verdict tomorrow (Friday) on a case related to the denial of reserved seats to the Pakistan Tehreek-e-Insaf (PTI)-backed Sunni Itehad Council (SIC), according to a cause list issued on Thursday.

SIC's plea.

The development came after the apex court's full bench held its second round of consultation on the reserved seats case verdict for the second consecutive day on Thursday.

A special session of the country's top court's 13-member full bench was held under the chair of Chief Justice of Pakistan (CJP) Qazi Faez Isa, the sources said, adding all the judges of the bench attended the session.

The cause list issued on the SC website following the meeting said a full bench led by CJP Isa will announce the short ruling at 12pm on Friday (July 12) on the SIC plea challenging the Peshawar High Court (PHC) decision upholding the Election Commission of Pakistan (ECP) move to deny the PTI-backed lawmakers reserved seats in the assemblies.

The apex court reserved the verdict on the SIC's appeals on Tuesday after conducting nine hearings on the SIC's appeals with all parties including the federal government and the ECP presented their arguments against the

proached the PHC which upheld the electoral body's decision on the matter. Subsequently, the SIC moved the apex court seeking to set aside the PHC verdict and the allocation of 67 women and 11 minority seats in the assemblies.

The allocation of reserved seats holds significance as the PTI-backed independent candidates, who make up the majority of the opposition benches, lost as many as 77 reserved seats in NA and provincial assemblies due to the PHC's verdict. It is also to be noted that the PHC verdict allowing the allocation of reserved seats to the ruling coalition comprising the Pakistan Muslim League-Nawaz (PML-N), the Pakistan Peoples Party (PPP) and others, led to them securing a two-thirds majority in the National Assembly.

The move propelled the PML-N's number in the lower house of parliament to 123, the PPP to 73, whereas the PTI-backed SIC number stood at 82.—RT/Agency

What is reserved seats case? The reserved seats' issue first emerged after over 80 PTI-backed independent candidates emerged victorious in the February 8 elections and subsequently joined the SIC in a bid to claim seats reserved for minorities and women.

However, the Imran Khan-founded party suffered a setback after the ECP, citing the party's failure to submit its list of candidates, denied allocating the reserved seats to the SIC. The party then ap-

Pakistan And Azerbaijan Pledge To Increase Investments To \$2 Billion

ISLAMABAD: Pakistan and Azerbaijan decided to increase their bilateral investment level to up to US\$2 billion in the sectors which will be benefiting both countries, media reported.

Addressing a joint presser with Azerbaijan President Ilham Aliyev, Prime Minister (PM) Shehbaz Sharif said that they discussed an initial figure of US\$2 billion of investment in areas of mutual beneficial projects.

Both leaders also witnessed the signing of agreements and Memorandums of Understanding (MoUs) in diverse areas between the two countries. The prime minister hoped that upon his November 2024 visit to Azerbaijan, the two countries would be prepared to sign agreements valued at US\$2 billion initially, given the considerable potential for both parties to increase this amount in the years to come.

"In today's in-depth conversation, we have agreed to

enhance our bilateral trade besides discussing areas of cooperation and joint investments," PM Shehbaz added. He said that bilateral investment volume of less than US\$100 million does not reflect the strength of brotherhood and friendship between Pakistan and Azerbaijan in the field of joint investment.

The prime minister expressed satisfaction with the bilateral meeting and said that both parties reaffirmed their steadfast commitment to moving forward and reaching higher levels of success in the areas of trade and investment. The discussions were based on mutual

trust and confidence, he added.

PM Shehbaz said that Pakistan consistently backed Azerbaijan's position, just as the friendly nation has consistently championed the cause of millions of Kashmiris who have given enormous sacrifices for over 70 years in order to attain their right to self-determination in accordance with UN Security Council resolutions.

The prime minister also recalled the President Aliyev's visit in 2017 during the tenure of then PM Nawaz Sharif, saying that history was repeating as Nawaz Sharif's younger brother was now receiving

him along with people of Pakistan.

PM Shehbaz hoped that the COP29 to be hosted by Azerbaijan in Baku would be a significant international event for all developing countries including Pakistan.

"We are confident that under our wise stewardship, COP29 will deliver on the climate change related issues of developing countries like Pakistan." He said the government was impressed by the beautification of Baku therefore it decided to copy Baku. Speaking on the occasion, Azerbaijan President Ilham Aliyev said the brotherhood between the two countries was based on deep feelings between peoples of the two sides. "This connection is a big asset, we are brothers, we are friends, and we support each other on every international issue," he added. The president said that Azerbaijan supports Pakistan's stance on the issue of Jammu and Kashmir. "It is our commitment

ATC: 'Reasonable Grounds Exist' To Link Imran Khan To May 9 Offences

LAHORE: An anti-terrorism court in Lahore has issued a written verdict on dismissing Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan's bail in cases related to May 9, 2023, riots.

ATC Judge Khalid Arshad issued a four-page written verdict on Thursday after his court rejected interim bail pleas of the former prime minister in three cases related to the May 9 violence protests two days ago.

The May 9 mayhem referred to the riots that broke out in many parts of the country last year following the ex-PM's arrest in a corruption case.

The alleged PTI supporters attacked several state buildings including military installations, prompting the civil and military authorities to try the rioters under Army Act.

The verdict stated that two witnesses produced by the prosecution told the court in their testimonies that a meeting was held at Khan's Zaman Park residence in Lahore on May 7, 2023, which they also attended along with 15 senior leaders of the former ruling party.

In the meeting, the petitioner [Imran Khan] expressed fears about his arrest in the Islamabad High Court (IHC) on May 9, the verdict

read, adding that the politico also ordered the PTI leaders to gather the party workers under the leadership of Dr Yasin Rashid in case of his arrest. The party leaders, in the same meeting, was instructed by the petitioner to "attack military installations, government properties and the police officials to create pressure on the government and armed institutions for his release", the verdict read.—RT/Agency

Pakistan Agrees To Implement Tax On Agricultural Income On IMF's dictates

ISLAMABAD: Pakistan has 'agreed' to the imposition of tax on agriculture income during talks with the International Monetary Fund (IMF), ARY News reported on Thursday, citing sources.

International Monetary Fund (IMF) officials held virtual negotiations with the provincial officials of Pakistan for the new loan programme.

Sources said the IMF officials urged the provincial authorities to slap tax on agricultural income, which the provinces of Pakistan reportedly agreed upon. The provincial governments of all four provinces of Pakistan sought time to submit a plan for imposing tax on agricul-

tural income. The plan would be submitted to the IMF by July 12. The sources further said that the tax on agriculture income will be slapped from yearly income of Rs600,000. Subject to signing of the new agreement, the sources said that the global lender has set the October 2024 deadline to amend the existing provincial laws to bring them at par with the federal income tax law. The IMF has also asked for rescinding any income tax exemption for the livestock sector by October this year. It is to be noted that finance ministry officials anticipate that an agreement for the new loan program will be finalized in July.—RT/Agency

Rana Sanaullah Quips: 'Avoid Conversations That Make You Fear Call Tapping'

ISLAMABAD: Prime Minister's Adviser on Political and Public Affairs Rana Sanaullah has remarked that people shouldn't engage in such controversial conversations in the first place that they have to fear their calls being tapped.

"If somebody is worried over their conversations being 'heard', then they should not engage in such verbal exchanges to begin with," Sanaullah said while speaking on Geo News' programme "Capital Talk" on Wednesday.

The senior politician's remarks come as the PM Shehbaz Sharif-led government has authorised the country's premier spy agency Inter-Services Intelligence (ISI) to intercept and trace calls and messages in the apprehension of an offence against national security.

The federal cabinet approved the relevant circular allowing a designated officer, not below grade 18, of the ISI to carry out the tracing of calls under Section 54 of the Telecommunication (Re-organization) Act 1996.

The move reflects the government's stance in favour of stricter social media regulations and comes against the backdrop of prevailing ban on X.

The decision, however, has been received with notable scepticism by the Pak-

istan Tehreek-e-Insaf (PTI) as well as the Human Rights Commission of Pakistan (HRCP).

Expressing his views on the same programme, PTI leader Salman Akram Raja said that the state has no right to pry into someone's house and that no one would be safe if conversations are to be "heard" on the basis of mere suspicion.

His remarks came as a day earlier, Leader of Opposition in the National Assembly Omar Ayub announced that he would challenge the notification through his lawyer Babar Awan in the court, as it was unconstitutional and against the fundamental rights envisaged in the constitution.

"Asif Zardari, Nawaz Sharif, Shehbaz Sharif, Bilawal Bhutto Zardari and Maryam Nawaz will also go to prison because of this law," Ayub said, adding that all of them would be seen

pursuing their cases in courts.

Whereas, the HRCP has expressed concern over the "unconstitutional notification" of the government and has stressed that owing to the government and spy agencies' poor track record, the measure would invariably be used to clamp down on political dissent through means of blackmail, harassment and intimidation.

Slamming the "flagrant violation of citizens' constitutional protected rights to liberty, dignity and privacy under Articles 9, 14 and 1," the watchdog has called on Islamabad to urgently introduce "watertight" checks and balances to all surveillance practices. Meanwhile, the government's notification empowering the ISI to tap and intercept phone calls has been challenged in the Lahore High Court, The News reported on Thursday.—RT/Agency

IHC CJ Aamer Farooq: Verdicts Pronounced In Anger Lead To Travesty Of Justice

ISLAMABAD: Chief Justice Islamabad High Court, Justice Aamer Farooq said on Thursday that decisions announced by judges out of anger did not meet the standards of justice.

The IHC CJ was speaking at a ceremony organised by the Islamabad High Court Bar Association.

Expressing concerns over young lawyers' lack of learning, the IHC CJ said that in the past, a new entrant in the field of law used to spend around six months in the chamber of a senior lawyer where he was groomed to meet grinding demands of legal practice.

He conceded that he also flew off the handles at times for grooming people, insisting that people didn't usually understand if

Justice Farooq deplored that idea of chamber institution was fast fading as lawyers spent more time in gossiping instead of learning, which he said was the nursery for producing the best legal minds. He said that our predecessors kept the chamber alive while it had been kept defunct for the last ten years. "I was

part of the chamber run by Mian Nisar, the father of former Chief Justice Saqib Nisar and ex-CJP Justice. I learnt a lot from them," he added. Lawyers should come to the court fully prepared with proper notes before starting their arguments, adding that ethics to work in the courts must be learnt by the newbies of law.—RT/Agency

Labor organizations not happy with Sindh Labor Code

KARACHI: The leaders of representative labor organizations today rejected the anti-worker draft of the "Sindh Labor Code" presented by the International Labour Organization (ILO) and the Sindh Labor Department without consultation.

While rejecting the draft while addressing a joint press conference of workers' representatives in Karachi. They declared that any attempt to legalize it will be strongly resisted.

Nasir Mansoor, General Secretary National Trade Union Federation told the press conference that the code draft was a conspiracy to impose anti-labor laws on the workers of Sindh without the established tripartite consultation process. He further said that the Sindh Labor Code draft aimed to usurp the basic rights of workers, which they had achieved through over a century of struggle. It was a blatant violation of the core conventions of the ILO, where the identity of the worker and his relationship with the employer had been eliminated.

Mansoor said that the current labor laws grant the right to permanent employment to workers, but the "Sindh Labor Code" seeks to legalize the illegal contract labor system, thereby imposing a wage slavery system in workplaces and providing capitalists with a legal excuse to evade their responsibility.

Naseem Rao, Senior Vice President Pakistan Workers Federation said that Instead of making the definition of workers modern, comprehensive, and better aligned with current needs, this code had made it more complicated, leaving workers entirely at the mercy of contractors, sub-contractors, or third-party recruiting agencies, which will reduce millions of workers to unrecognized wage slaves.

Liaquat Ali Shah, General Secretary State Bank of Pakistan CBA Union said that the proposed "Sindh Labor Code" shamelessly redefined factory owners into different categories, exempting them from their legal responsibilities and informalizing the formal sector. As a result, in the event of any industrial dispute, workers will be deprived of all basic rights such as legal action, social security, pension, unionization, bonuses, working hours, and gratuity. Hussain Badshah, General Secretary People Labour Bureau said that the Sindh Labor Code also proposes to legalize the inhuman system of advance (PASHGI) payments, allowing owners to buy and sell workers, which will degrade the lives of workers in kilns and agricultural fields to worse than that of animals. The advance payment system was a modern form of slavery and a clear violation of the ILO conventions. Farhat Parveen, Secretary Legal Affairs, All Pakistan Lady Health Program Workers Union said that the worst aspect of the code was that it attempted to strip many employees in government institutions from grades one to fifteen of their right to unionize and collective bargaining, violating ILO conventions 87 and 98. Furthermore, she said that "Sindh Labor Code" aimed to end worker solidarity by eliminating their identity and dividing them into several layers & categories. Zehra Khan General Secretary of Home Based Women Workers Federation (HBWWF) said that the code, imposed by the ILO and Sindh Labor Department, places restrictions on the right to strike, making it practically ineffective and nearly impossible, even though it is a fundamental right. She further said that the "Sindh Labor Code" significantly increases bureaucratic powers. Instead of simplifying the procedure for resolving industrial disputes, it makes it more complicated, time-consuming and impractical. Imran Ali, General Secretary Pakistan Federation of Chemical, Energy and Mines (PECM) said that the code severely undermines workers' basic right to health and safety and found ways to exempt owners from their responsibilities.—RT/Agency

Successful taxation requires representation and the nation's trust

The government's recent negotiations with the International Monetary Fund (IMF) to impose a tax on agricultural income reflect a broader issue plaguing Pakistan: a growing trust deficit between the government and its citizens. This trust deficit must be addressed before implementing any new taxes, as it significantly contributes to tax evasion.

History teaches us that there can be no taxation without representation. Citizens must feel represented and trust that their taxes are being used effectively and transparently. However, the controversy surrounding Form 47 has only deepened the public's mistrust. Many feel unrepresented and doubt the government's commitment to fair and equitable tax collection. This skepticism is particu-

larly pronounced when new taxes are introduced, such as the proposed agricultural income tax.

The provincial governments' recent reassurances

to the IMF about implementing this tax are a step towards meeting the lender's demands. Yet, without addressing the underlying trust issues, these measures may fall short. The government's ambitious tax revenue target of Rs13 trillion, a significant increase from previous years, will likely place additional burdens on already taxed sectors, particularly salaried workers. This approach risks further alien-

ating the public if they do not see improvements in governance and accountability.

For meaningful progress, the government must prioritize rebuilding trust. This involves not only transparent and equitable tax policies but also genuine efforts to address the grievances highlighted by the Form 47 controversy. Ensuring that all sectors, including agriculture, are taxed fairly is crucial, but it must be accompanied by a commitment to good governance and representation.

Ultimately, bridging the trust gap is essential for the government's financial strategies to succeed. Only then can the nation move forward with a unified approach to taxation, ensuring that all citizens feel represented and confident in their government's actions.

Wanindu Hasaranga steps down as Sri Lanka T20I captain

Wanindu Hasaranga has resigned as Sri Lanka's T20I captain after roughly six months in the role. He did not specify a reason for this decision, but said in a statement put out by the board that his decision was in the best interest of Sri Lanka's cricket.

"Sri Lanka will always have my utmost best efforts as a player, and I will support and stand by my team and leadership as always," Hasaranga said in his resignation letter, according to the board.

Although Hasaranga's resignation comes on the heels of a poor World Cup in which Sri Lanka failed to qualify for the Super Eight, it is still something of a surprise. There was little public pressure on him to be ousted, partly because he was still so new in the role. He also appeared to be relishing the job, even prioritising Sri Lanka commitments over IPL appearances this year as he recovered from a foot injury.

Sri Lanka now sits at the 10 T20Is they played under

While there are no obvious candidates to replace him as captain of Sri Lanka in T20Is, Charith Asalanka's name will be discussed. He took the reins in the two matches Hasaranga had been suspended for, and also leads Jaffna Kings in the LPL this year.

Sri Lanka's next T20I assignment is the three-match series against India at the end of this month. Sri Lanka will enter that series with a new coach as well, with Sanath Jayasuriya taking over in an interim capacity after Chris Silverwood stepped down following the World Cup. Mahela Jayawardene, too, had quit as consultant coach last month.—Agency

PCB chalks out new formula for selection committee formation

KARACHI: After making notable changes in the national side's management, the Pakistan Cricket Board (PCB) has chalked out a new formula for the constitution of the selection committee, sources told Geo News on Wednesday.

The selection committee, the sources claimed, will now include coaches for white-ball and red-ball formats as well as the captain of the relevant format along with ex-cricketers Mohamud Yousuf, and Asad Shafiq.

The PCB's move comes against the backdrop of the aftermath of Green Shirts' dismal performance and elimination from the T20 World Cup 2024 which has prompted Mohsin Naqvi-led board to make changes in the team management.

A day earlier, the board confirmed sacking former pacer Wahab Riaz and all-rounder Abdul Razaq from the seven-member selection committee while retaining Yousuf, Shafiq and Bilal Afzal.

Wahab was a member of the men's selection committee, whereas Razaq was part of the selection committees for both men's and women's teams.

Furthermore, the board has also removed Riaz from the post of senior team manager along with team manager Rana Mansoor due to the lack of discipline during the last three tours of the men's team.

Both Wahab and Razaq, the sources have claimed, extended undue favours to certain players and PCB Chairman Mohsin Naqvi decided to oust the duo only after the culmination of the investigation into the said matter.

The players supported by the duo turned out to be the ones who didn't perform and were in fact opposed by other members of the selection committee as well, the sources added.

However, reacting to his removal, the former pacer questioned how could one individual's vote dominate six, as the selection committee comprised seven members. He stressed that everything was documented on record in the minutes of the meeting.—Agency

Watkins sends England past Netherlands and into Euro 2024 final

DORTMUND: Ollie Watkins struck a stunning injury-time winner as England beat the Netherlands 2-1 on Wednesday to set up a Euro 2024 final showdown with Spain in Berlin.

It was an incredible finish to an evening that began badly for England, as Xavi Simons gave the Netherlands an early lead in the semi-final in Dortmund.

However, England were soon level through a Harry Kane penalty following a contentious VAR call by German referee Felix Zwayer, and the match looked set for extra time until Watkins struck.

On for Kane, Watkins received a pass from fellow

substitute Cole Palmer with his back to goal in the first minute of stoppage time, turned and fired low into the far corner to leave the Netherlands bewildered.

"I'm lost for words really," said Watkins, the Aston Villa striker. "I don't think

as they dream of finally winning a first major trophy since 1966.

To do that they will surely have to perform better than at any point so far in Germany as they face an outstanding Spain team, who beat France 2-1 on Tuesday.

"We play the team who've been the best team in the tournament and we have a day less to prepare so it's a huge task. But we're still here and we're fighting," Southgate said. The Netherlands had been hoping to repeat their triumph at the last Euros in Germany, in 1988, but their current side lacks anyone with the star quality of Marco van Basten or Ruud Gullit.—Agency

KARACHI: Pakistani cricketer Shaheen Shah Afridi misbehaved with the coaches during Pakistan's recent tour to Ireland and England before the T20 World Cup 2024 as it was revealed after Senior Manager Wahab Riaz and Team Manager Mansoor Rana were removed from the selection committee.

Sources told Geo News the inside story of what happened during the practice sessions, saying that Shaheen misbehaved with batting coach Mohammad Yousuf during the England tour.

Yousuf pointed out Shaheen for bowling too many no-balls during a practice session at Headingley, to which the left-arm pacer said: "Let me practice for now and don't talk in the middle."

Shaheen's comments were not appreciated by the former batter and the two had

are also being investigated, sources added.

Meanwhile, coaches have also highlighted the non-serious attitude of some of the players in their reports.

The players also speak against each other which ruins the atmosphere in the team, sources further revealed.

It is worth mentioning that a new formula has been decided by the Pakistan Cricket Board (PCB) for the new selection committee for the men's team.

The head coaches of both white-ball and red-ball formats will be included in the national selection committee. Jason Gillespie and Gary Kirsten will be part of the committee along with Mohammad Yousuf and Asad Shafiq with the captain of the respective format.—Agency

Salt Manufacturers Urge PM To Tackle Axle Load Rules For Transporters

KARACHI: The implementation of axle load regulations for truck transport has inadvertently sparked a surge in extortion targeting traders across Pakistan. This exploitation has resulted in escalated transport costs, critically impacting the nation's export operations.

Qasim Yaqoob Paracha, Chairman of the Salt Manufacturers Association of Pakistan (SMAP), has petitioned Prime Minister Shahbaz Sharif and Federal Minister of Communications Abdul Aleem Khan to address the mounting issue of transporter extortion. He stressed the crucial need for strict enforcement of the Ministry of Communication's axle load regulations to ensure equitable transport charges for goods.

Paracha underscored that transport cartels are exploiting loopholes in axle load limits, imposing exorbitant fees on traders for loads exceeding the mandated 30 to 32 tons. He cited arbitrary fines and delivery delays as tactics used to unjustly inflate costs, severely impacting sectors like the salt industry and impeding export activities.

The SMAP Chairman urged the government to establish clear and stringent nationwide guidelines for axle load limits, mandating transporters to adhere strictly to government-registered load limits.—RT

Islamabad Rules Out Talks With TTP Involved In Killing Pakistanis And Foreigners

ISLAMABAD: Pakistan has ruled out any dialogue with the banned terrorist outfit Tehreek-e-Taliban Pakistan with the Foreign Office saying no talks are possible with elements involved in the killings of Pakistanis and foreigners. "The TTP is involved in the killing of Pakistani and foreign citizens inside Pakistan," FO Spokesperson Mumtaz Zahra Baloch said in a weekly news briefing in Islamabad on Thursday. She said that Pakistan respects Afghanistan's sovereignty and territorial integrity and expects the authorities in the neighbouring country to uphold their sovereignty and take action against terrorist groups that have found sanctuaries on its soil and are using it for launching terror attacks across the border. Responding to a question, Baloch said Pakistan is committed to implementing the Illegal Foreigners Repatriation Plan [IFRP]. "The IFRP is meant for the implementation of the laws of Pakistan," she said, adding that the plan was

designed to launch an action against the illegal immigrants residing in Pakistan without documentation. She further stated that illegal immigrants from several countries have been sent back to their respective countries under the IFRP. While referring to the repatriation of illegal foreigners including Afghans to their home countries, the FO spokesperson said that the first phase of this plan was near completion. Clarifying there were multiple categories of Afghan refugees residing in the country, the spokesperson stressed the country had not given any understanding to the

United Nations High Commissioner for Refugees (UNHCR) about the "sustainable" plan. She pointed out that the government had extended the validity of the Proof of Registration cards of the Afghan refugees for a year. In a July 9 meeting with top Pakistani officials including Prime Minister Shehbaz, UNHCR Filippo Grandi appreciated the country for "suspending the Illegal Foreigners Repatriation Plan", a statement from the UN body had said. The statement further said that Grandi had also sought assurance from Pakistani authorities that the repatriation plan would

remain on hold. To a question, Baloch said Pakistan and the United States have a multifaceted and robust partnership. She said we believe this relationship should move forward on the basis of mutual respect, sovereign equality and non-interference in each other's internal affairs. "Kashmir Martyrs Day to be observed on July 13 in her media briefing, Baloch also reaffirmed Pakistan's commitment to providing political, diplomatic, and moral support to the Kashmiri people for the just and peaceful solution of the Kashmir dispute in accordance with UN Security Council resolutions. Baloch said the 93rd 'Youm-e-Shuhada-e-Kashmir' (Kashmir Martyrs Day) would be observed on July 13 to honour the martyrdom of 22 Kashmiris who sacrificed their lives in Srinagar in 1931, bravely facing the indiscriminate firing of Dogra forces under the former Maharaja of Jammu and Kashmir. "We salute their courage, which ignited a determined movement for the rights and freedoms of the Kashmiri people and their right to self-determination. This movement continues to this day," she said. The FO spokeswoman also mentioned that like the Dogra forces, Indian occupation forces have killed thousands of Kashmiris in the Indian Illegally Occupied Jammu and Kashmir (IIOJK) in recent decades simply for advocating their rights. "Burhan Muzaffar Wani, an iconic youth leader from Kashmir, was among the hundreds who fell victim to extrajudicial killings in the IIOJK. His eighth martyrdom anniversary was observed on July 8th," she remarked. Commenting on Israeli aggression in Gaza, Baloch said Pakistan strongly condemned this week's indiscriminate attacks by Israel on four schools in the besieged territory, which resulted in the massacre of dozens of women and children seeking shelter there. These attacks are further evidence of Israel's genocidal campaign against the people of Gaza," she concluded.—RT/Agency

Flour Shortage Feared As Millers Strike Against Withholding Tax

ISLAMABAD: Flour mills in several cities of the country have stopped wheat grinding and flour supply across the country from today (Thursday), prompting fears of a flour crisis, as they observe a strike against the newly-imposed withholding tax. In the budget 2024-25, the government has imposed withholding tax on different stages of the supply chain of staple food by up to 5.5%, the flour mills association leaders have said, making the product more expensive.

Additionally, it also said flour consumption during summer was 40-45,000 tonnes in the country. After the announcement of strike by the PFMA 73 flour mills of Gujranwala district are completely shut down, whereas, all 100 flour mills are closed in the other districts of the Multan Division, including 60 flour mills in Multan. According to the spokesperson of the PFMA, due to the closure of flour mills in Faisalabad, the supply of 200,000 bags of flour per day has stopped, while all 10 flour mills in Kamalia city and four mills in Kamalia in Khasab district are closed. On the other hand, the strike is being observed in Peshawar and Quetta too, where mills have been locked. PFMA Chairman (South Zone) Aamir Abdullah said

flour mills in Sindh have stopped grinding wheat and the supply of flour as well. "Tax collection is the FBR's job, we should not be made tax agents. Until our demands are approved, the supply of wheat products will remain closed," he said. The flour mills association sources warned that it was feared that the commodity would go scarce if the deadlock between the government and association persisted. As per the association, flour bags of 5kg, 10kg and 20kg will not be prepared from today. It should be noted that a few days ago flour mills owners had announced a strike, while holding a press conference, and said that they had tried to negotiate with the government. They had conveyed their demands to the government through talks, but negotiations failed.—RT/Agency

PM Shehbaz, the sources added, has taken cabinet members into confidence over the new counter-terrorism operation's scope and the reason behind launching the new anti-terror drive. Last month, the federal cabinet approved the decisions taken by the National Action Plan's Central Apex Committee including the launch of Operation Azm-e-Istehkam. The sources said that the security forces handed over the cleared areas from the terrorists to the provincial governments. "Due to the failure of the Khyber Pakhtunkhwa government, terrorists returned

to the cleared areas," the added. The government's decision drew reservations from several political parties including the Pakistan Tehreek-e-Insaf (PTI), Jamaat Ulema-e-Islam (JUI-F), the Awami National Party (ANP), Jamaat-e-Islami (JI) and others. In response, the Centre has maintained that "no large-scale military operation is being launched" in the country which might result in mass evictions and has reassured that the matter will be brought before

the parliament. PM Shehbaz has also decided to convene an all-parties conference (APC) to evolve consensus on the operation with PTI founder Imran Khan supporting the initiative, saying his party would attend the government-hosted huddle. Meanwhile, the Pakistan Army has also denounced the undue criticism against the newly launched anti-terrorism operation stating that the "vision" was being misrepresented deliberately for "vested interests".—RT/Agency
