PPP Files Review Plea On SC's Reserved Seats Verdict, Following PML-N's Lead

ISLAMABAD: After the Pakistan Muslim League-Nawaz (PML-N), its coalition partner Pakistan Peoples Party (PPP) has also filed a review petition against the Supreme Court verdict granting reserved seats to the Pakistan Tehreek-e-Insaf (PTI).

On behalf of the PPP, Farooq H Naek filed the plea, seeking to overturn the apex court verdict of July 12 pertaining to reserved seats of women and non-Muslims.

In its appeal, the PPP objected to granting the reserved seats to the PTI, arguing that the former ruling party had not claimed any entitlement to them.

The PML-N had on July 15 filed a review petition in the SC against the same verdict. The review petition had asked a number of questions including whether the SIC should be granted the reserved seats.

The decision not only paved the way for the PTI's return to the parliament, which was kicked out of the February 8 polls owing to the Election Commission of Pakistan's (ECP) December 2023 ruling but has also increased the pressure on the coalition alliance by changing the composition of the National Assembly.

declared that the lack or denial of an election symbol does not in any manner affect the constitutional or legal rights of a political party to participate in an election, whether general or by, and to field candidates and that the commission is under a constitutional duty to apply all statutory provisions accordingly.

The PPP has requested the SC to fix the hearing of the review petition at the earliest as "the order under review has given a strict timeline of 15 days" and if the order is implemented, the plea will become infructuous.

The political party stated that the SC verdict was silent on the main controversy in the reserved seats case which was whether the Sunni Ittehad Council (SIC) should be granted the reserved seats; whether the seats could be granted to a political party

that had not submitted a party list within the prescribed time; if a political party whose candidates have not even filed nomination papers can be given reserved seats; if independents can even join a political party which did not win a single general seat in the parliament; if the seats can be left vacant or have to be distributed amongst the political parties contesting for the said seats and what is the "proportional representation system of political parties' lists of candidates".

Similar questions were raised by the PML-N as well in its review plea. The PPP plea said the SC judgment contradicted the Constitution as it provided only three days to the returned candidates to decide which party to join, while the ruling has given 15 days that too from the date of the order.—RT/Agency

Salman Akram Raja: Imran Khan Did Not Admit To Any May 9 Allegations

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) legal counsel for beleaguered party founder Imran Khan, Salman Akram Raja, on Tuesday stated that Khan has not admitted to any wrongdoing regarding the events of May 9.

Raja noted that following the Rangers' action in Zaman Park, it was unanimously decided that protests would occur at designated locations, whether GHQ or any other office.

After meeting with the PTI founder at Adiala Jail today, the lawyer spoke to the media, saying, "We are ready to discuss Pakistan's welfare. We want to move forward, ensuring that there is no chaos in the country and that the economy progresses, lifting people out of poverty and inflation."

He added, "The current environment being created will lead to disaster."

PTI's legal counsel highlighted the importance of public involvement, saying, "You cannot achieve the welfare of the state by distancing it from the people. It is essential to move forward with the people and their elected leadership."

He relayed the PTI founder's message, stating, "The news about an admission is completely false. The PTI founder has not admitted to anything regarding May 9."

He maintained that Imran's stance remains that the attacks on March 14 at Zaman Park and on March 18 at the judicial complex involved Rangers, police, and ISI personnel.

Last night, Senator Faisal Vawda accused PTI supreme Imran Khan of being responsible for Pakistan's current political instability, citing evidence provided by former director general Inter-Services Intelligence Lt Gen (ret'd) Faiz Hameed, linking Khan to the May 9 vandalism incident.

"I cannot champion law and democracy when multiple cases are pending against me in courts. Some time ago, I revealed that Imran Khan's close associate, Faiz Hameed, provided evidence of Khan's involvement in the May 9 vandalism," stated Vawda during an interview with a private TV channel.

During media talk today, Salman Akram Raja explained that following these incidents, the party decided that if there was further interference by the Rangers or ISI in police matters, peaceful protests would occur at appropriate locations, including GHQ or other offices, without causing damage.—RT/Agency

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan has refused to undergo polygraph and voice matching test as part of investigation launched by Lahore police regarding May 9 cases.

The Lahore police - led by DSP Javed Asif - had visited Adiala Jail in Rawalpindi and completed the first round of its investigation against Imran Khan in the May 9 cases. The PTI

founder answered the questions of police for 15 minutes after DSP Javed Asif vowed to dispense justice. Meanwhile, the former premier refused to undergo the above mentioned tests to the Punjab Forensic Science Agency's team. The PTI founder said he was under the investigation of many institutions and he would give time to the police after the completion of his earlier inquiries.—RT/Agency

PTI Launches Hunger Strike Demanding Release Of Imran Khan And Other Leaders

ISLAMABAD: The embattled Pakistan Tehreek-e-Insaf (PTI) on Tuesday established a hunger strike camp outside the Parliament House in Islamabad to demand release of the party founder Imran Khan and other leaders.

The former ruling party has faced back-to-back setbacks in a few days as its central secretariat in the federal capital was sealed by the authorities earlier today a day after the party's Information Secretary Raof Hasan was nabbed along with the other party workers.

A day earlier, Islamabad police took Hasan into custody from the party's Central Secretariat for heading a digital media cell and its alleged involvement in running anti-Pakistan propaganda.

Speaking to journalists outside parliament, the party chairman Barrister Gohar Ali Khan said that the hunger strike will be observed daily till 8pm as a token protest against "injustice" and for the PTI founder's release and the supremacy of the parliament.

He added that he conveyed his party's reservations to National Assembly Speaker Ayaz Sadiq over "illegal and unconstitutional actions".

The lawyer-cum-politician said that his party raised voice for the PTI lawmakers and their families who were being picked up.

"[The] PTI founder and his wife have been imprisoned for no reason. This camp will continue till the release of the PTI founder."

Gohar strongly condemned the sealing of the party's secretariat in the federal capital.

It is noteworthy to mention here that the Islamabad administration sealed the

PTI's central office earlier today over "lack of fire and life safety arrangements".

In a notice, which was obtained by Geo News, the administration said that the building lacked up-to-date fire extinguishers, emergency evacuation plan, an independent power source for the emergency system, and standard electric wiring.

The PTI secretariat was sealed by the Capital Development Authority (CDA) two months ago during an anti-encroachment operation in which a portion of the party's central office was demolished. However, the party office reopened following the directives of the Islamabad

High Court (IHC).

Another PTI senior leader and former NA speaker Asad Qaiser said, "Our first demand is to release the PTI founder, his wife Bushra Bibi and other detainees, including Hasan and party workers."

He held the federal government responsible for the recent wave of lawlessness and inflation across the country.

Qaiser urged the Pakistan Muslim League-Nawaz (PML-N) government to immediately resign over "bad governance and mismanagement of the economy".

PTI's Secretary-General Omar Ayub Khan said that the token hunger strike was being observed for the release of the incarcerated former premier, PTI Vice Chairman Shah Mahmood Qureshi and other arrested leaders and workers.

The opposition leader in the National Assembly censured the Metropolitan Corporation Islamabad (MCI) for sealing the PTI's central office once again. Instead of

the PTI secretariat, the MCI should seal its own office "where mice running everywhere" he slammed.

"Omara also demanded the 'Form 47' government — a reference to the alleged manipulation in the February 8 election results — to immediately resign and announce fresh elections. He added that the PTI wanted free and fair polls to pull the country out of crisis."

Addressing the participants of the hunger strike camp, Shibli Faraz said that today's event was part of the PTI's political struggle. He also announced that the Imran-founded party will hold a countrywide protest on Friday, July 26, 2024.

Several PTI lawmakers joined the hunger strike camp including Gohar, Qaiser, Omar, Faraz, Latif Khosa, Ali Muhammad Khan, Falak Naz Chitrali, Sheikh Wasim, Senator Humayun Mohmand, Saifullah Abro, Shabbir Ali Qureshi, Sahibzada Sibghatullah, Melhboob Shah, Sajid Mohmand, Dawar Kundli, and others.—RT/Agency

PM Shehbaz Urges FBR To Facilitate Smooth Refunds For Exporters

ISLAMABAD: Prime Minister Shehbaz Sharif on Tuesday warned the Federal Board of Revenue (FBR) against any delays in refunding exporters, aiming to alleviate concerns about meeting the \$60 billion export target.

While speaking at the National Export Development Board (NEDB), the prime minister directed the commerce ministry and other departments to take "all necessary measures" to achieve the ambitious export target of \$60bn in exports within three years.

The prime minister directed the ministry to resolve the issues raised by exporters and present a report within two weeks. He added that he would personally chair the NEBD meetings every six weeks. The prime minister noted that the country's exports had surpassed the \$30 billion mark during the previous fiscal year, with IT exports contributing over \$3.2 billion, thanks to government policies. He called it a "welcome development."

He lauded the business community and investors for their role in increasing exports despite challenging circumstances. Furthermore, he tasked the ministry of national food security to work with the provinces to improve extension services and enhance agricultural exports.—RT/Agency

Ambassador Durrani: TTP Pakistan's 'Red Line,' Expects Afghan Taliban To Take Action

ISLAMABAD: Pakistan's Special Envoy for Afghanistan Ambassador Asif Khan Durrani on Tuesday said the banned militant Tehreek-i-Taliban Pakistan (TTP) group was the country's "red line" and there were hopes that the interim Afghan government would take effective action against the outfit.

"Terrorism emanating out of Afghanistan is a concern not only for Pakistan but other neighbouring countries like China, Iran, Tajikistan and Uzbekistan as well," Ambassador Durrani said at a roundtable discussion on "Pak-Afghan Relations: Challenges and Opportunities" at the Institute of Regional Studies (IRS) Islamabad.

He urged the Afghan interim administration to take steps against terrorist groups.

At the same time, Durrani said, "We have to deal with the Afghan government with patience and perseverance. Pakistan desires peace and stability in Afghanistan."

The comments come a day after the Pakistan army killed three terrorists trying to infiltrate the Pak-Afghan border in Khyber Pakhtunkhwa's Dir district.

Ambassador Durrani said Pakistan desired socioeconomic and political conditions in Afghanistan that would facilitate the return of over three million Afghan refugees currently residing in the country.

He urged the international community, especially the

UN Refugee Agency UNHCR, to come up with strategies for the dignified return of Afghan refugees to their homeland.

Ambassador Durrani shared that the Afghan administration's efforts for poppy eradication were acknowledged by stakeholders at the UN Doha meeting that concluded earlier this month.

The special representative called for removing obstacles to trade between the two neighbours and the transit of Pakistan's goods from Afghanistan to Central Asia.

He also called for expediting regional connectivity projects such as the Turkmenistan-Afghanistan-Pakistan-India (TAPI) gas pipeline project and the Casa-1000 power transmission line from Kyrgyzstan and Tajikistan to Afghanistan and Pakistan.

Ambassador Durrani urged the government to continue its crackdown against smuggling from Afghanistan.

Speaking on the occasion, Abrar Hussain, Pakistan's former ambassador to Afghanistan, highlighted the

importance of border management in the relations between the two countries.

He appreciated people-to-people as well as diplomatic contacts between Afghanistan and Pakistan at the highest levels.

Hussain urged regional countries to assist the Afghan interim government in addressing its capacity issues regarding dealing with terrorism emanating out of Afghanistan.

In concluding remarks, IRS President Ambassador Jaubhar Saleem, highlighted the multiple commonalities and linkages between Pakistan and Afghanistan, besides the economic interdependence.

He termed terrorism as the major source of friction between the two neighbouring countries and called upon the Afghan interim administration to honour its commitments about not allowing its soil to be used for terrorism against any other country, underscoring that supporting counter-terrorism would be in the interest of Afghanistan itself.—RT/Agency

Sindh Reinstates 15% Service Tax On Card Payments at Restaurants

KARACHI: The Sindh government has reinstated a 15 per cent service tax on debit and credit card payments at restaurants and hotels across the province.

This move marks a reversal from a previous reduction in the tax rate, which had been lowered to 8 per cent earlier in the year.

The Sindh Revenue Board confirmed that 58 establishments in Karachi have been authorised to apply the increased tax rate.

This adjustment aims to address revenue shortfalls and improve tax compliance across the hospitality sector.

The higher tax rate will be applied to card transactions at these venues, affecting both local patrons and visitors.

The reinstatement of the 15 per cent tax follows a period of reduced rates intended to stimulate consumer spending and support the restaurant industry amid economic challenges.

However, the increase is expected to lead to higher costs for diners and may influence spending patterns in the city's vibrant food and hospitality sector.

Officials have stated that the adjustment is part of broader fiscal measures aimed at balancing the provincial budget and addressing revenue gaps.

The tax on card payments is a significant revenue source, and this change underscores the government's efforts to ensure that the sector contributes adequately to the public finances.

The actual impact of this tax increase on restaurant sales and revenue remains to be seen, as card transactions constitute a substantial portion of many establishments' business.

The Sindh Revenue Board has indicated that further evaluations of tax compliance and revenue outcomes will be conducted in the coming months.—RT/Agency

Mastermind Behind May 9 Unrest Admits Guilt: Maryam

LAHORE: Punjab Chief Minister Maryam Nawaz said on Tuesday the masterminds of the May 9 incidents had confessed to their crimes. Without quoting the name of a political party, she said in her statement "it's not a party rather a group of people who aim to undermine the state through chaos."

She claimed that Zaman Park - residence of PTI founder Imran Khan - had been a training centre for unscrupulous elements, where they were taught how to make petrol bombs and launch attacks on state establishments.

She questioned what kind of peaceful protest led to at-

tacks on more than 200 military installations. The participants set fire to Air Force planes and corps commanders' houses and showed disrespect to martyrs' memorials, she added.

The chief minister also claimed that a conspiracy

was hatched to push Pakistan towards default. Sending letters to the International Monetary Fund and revealing the cipher were also part of the conspiracy. She demanded strict action against those involved in unlawful activities.—RT/Agency

PTI Will Not Go Down Without a Fight

The recent three-hour symbolic hunger strike by the Pakistan Tehreek-e-Insaf (PTI) outside Parliament House underscores a critical moment in the ongoing discourse about political fairness and justice in Pakistan. PTI leaders, including Asad Qaiser, Barrister Gohar Ali Khan, and Ali Muhammad Khan, gathered to demand intervention from the National Assembly speaker regarding the actions taken against the party and its leaders.

This protest follows a series of contentious incidents that have raised questions about the treatment of PTI members. The recent raid on PTI's Central Office by police and the Federal Investigation Agency, which led to the arrest of the party's information secretary, Raouf Hasan, on suspicions of "anti-state digital campaigns," has sparked significant

debate. The party alleges that its lawmakers are facing undue pressure, with offers of bribes or threats of legal action aimed at swaying their loyal-

ties. The hunger strike reflects PTI's frustration and its call for justice. Speaking to the media, Asad Qaiser emphasized the party's desire to avoid creating any unfavorable law and order situation but expressed the need to protest against the ongoing campaign and pressure against PTI members. Barrister Gohar Ali Khan asserted the party's right to protest within the Parliament, highlighting the alleged injustices

and unconstitutional actions they face. This situation underscores the delicate balance between maintaining law and order and ensuring fair treatment of political entities. While it is crucial to address any legitimate concerns about anti-state activities, it is equally important to uphold principles of justice and fairness. The PTI's symbolic hunger strike serves as a call for transparency and due process, urging the government to handle political matters with impartiality.

As PTI continues its protests, it is vital for all stakeholders to engage in constructive dialogue and seek solutions that reinforce the rule of law while respecting the rights of all political parties. Ensuring a fair and just political environment is essential for the stability and integrity of the nation's democratic processes. If the party has been wrongfully persecuted, it is entitled to seek and receive justice.

Dilapidated Bridges in Kachho Pose Serious Threats to Residents

By Roshan Memon

JOHI: The deteriorating condition of three key bridges in Kachho, Sindh, is posing serious risks to residents and tourists. These bridges, which connect hundreds of villages in Kachho and lead to the popular Gorakh Hill Station, are in a state of disrepair. Despite the frequent accidents and the critical nature of these bridges, the administration has shown indifference and failed to address the issue.

Located near Johi city on the Johi Branch, the three bridges are crucial for accessing Gorakh Hill Station, often compared to Murree for

its scenic beauty. The bridges have developed large potholes, causing frequent accidents, especially for tourists unfamiliar with the route. Recently, two young men from KN Shah tragically lost their lives in an accident while returning from the Gaji Shah festival.

The bridges play an essential role in connecting Kachho villages, particularly during the heavy flow of the Nai Gaj River. Their poor condition has left local residents deeply concerned about their safety. Despite these pressing issues, the administration has not taken any significant action to repair or maintain the bridges.

In response, political, social, and religious leaders from Johi, including Ghulam Qadir Laghari of SUP, Jaman Babar, Sawan Khan Babar, Ghulam Mustafa Lashari, along with other local residents, have called for urgent action. They have demanded that the administration take immediate steps to reinforce both sides of the three dilapidated bridges to prevent further tragedies. The community is urging for swift intervention to ensure the safety of residents and tourists and to prevent any more loss of life due to the poor condition of these vital infrastructure links.

Messi and Suarez to miss MLS All-Star Game due to injuries

MIAMI: Inter Miami's Lionel Messi and Luis Suarez will not play in the MLS All-Star Game due to injuries, the league and Inter Miami said in a statement.

A new MLS roster dedicated to the game against the Mexican Football All Stars in Columbus, Ohio excluded Messi and Suarez among others.

Messi is still recovering from a knock that saw him out of two MLS matches last week due to a right ankle injury sustained during the Copa America final against Colombia. While Suarez, who just rejoined the team after more than 40 days of national team duty, will also not play in the All-Star game because of knee pain, the team said.

It was supposed to be Messi's debut MLS All-Star game since the ace joined Inter Miami in July last year. A record eighth-time Ballon d'Or winner, who played the Argentine international in the 2022 World Cup, guided Miami to the recent celebration of the Leagues Cup last year, a competition created for MLS and Mexican league squads.

Miami also pointed out that Messi and Suarez are listed as doubtful for the Saturday home game against Mexico's Puebla to begin their Leagues Cup title defence. Whether or not these players will be available for the match will depend on their recovery process on that day, the team stated.—Agency

England all-rounder disappointed over Naseem's unavailability for The Hundred

LAHORE: England all-rounder Moeen Ali expressed his disappointment over Naseem Shah's unavailability for The Hundred 2024, scheduled to run from July 23 to August 24.

Moeen Ali, who was named Birmingham Phoenix captain last week, claimed that Naseem Shah was their first-choice pacer and was anticipated to deliver notable performances to the side.

He further revealed that the Pakistan pacer's absence has damaged the team's balance and speculations made the decision in a bid to prevent Naseem from potential injuries and to ensure his workload management as he is Pakistan's first-choice pacer in all three formats.

For the unversed, Naseem Shah, who was signed by the Phoenix in the £125,000 category, was denied the No Objection Certificate (NOC) by the Pakistan Cricket Board (PCB).

According to the details, the cricketing body made the decision in a bid to prevent Naseem from potential injuries and to ensure his workload management as he is Pakistan's first-choice pacer in all three formats.

Considering Pakistan's upcoming busy season which includes World Test Championship (WTC) matches against Bangladesh, England and

West Indies while also playing an ODI tri-series against New Zealand and South Africa ahead of the Champions Trophy 2025, the PCB is unwilling to take any risks regarding Naseem Shah's fitness.

For the unversed, Naseem also missed the ICC Men's Cricket World Cup 2023 in India due to a shoulder injury. The right-arm pacer suffered the injury during the

ACC Men's Asia Cup 2023 fixture against India which resulted in him ruling out of the tournament remainder. The incident occurred in the 46th over of India's innings when he walked off the field favouring his bowling shoulder on the reserve day allocated for the blockbuster clash between two Asian giants. Briefly, after Pakistan's 228-run defeat against arch-rivals India, the PCB called up Zaman Khan and Shahnaaz Dahani as backup pacers for the rest of the tournament, as a precautionary measure to provide a cover for injured Naseem and Harris Rauf. Later, the PCB confirmed that Naseem Shah was ruled out of the Asia Cup 2023 and Zaman was added to the Pakistan squad.—Agency

Former Pakistan captain breaks silence on Bob Woolmer's tragic death

LAHORE: Former Pakistan captain Younis Khan broke silence on the tragic death of former head coach Bob Woolmer amid ICC Men's World Cup 2007.

Woolmer passed away a day after Pakistan's early exit from the tournament due to their upset defeat against Ireland on March 17.

He was found dead in his room and speculations emerged that it might have been a murder. However, thorough investigations, carried out by the Pakistan Cricket Board (PCB) and Jamaican authorities confirmed it was a natural death.

Meanwhile, legendary batter Younis Khan, during

an interview at a local news channel, spoke highly of Bob Woolmer and claimed that had the latter remained Pakistan's head coach, the team would have achieved great success. "I have no doubt that if Woolmer had remained head

together after a match or nets to discuss cricket. Unfortunately, the night he passed away, we didn't sit together as we had lost to Ireland.

"I was also out for a duck and was very upset with myself. So, I went to my room and locked myself in. The next day, I didn't see him at breakfast and later we learnt about his death," he added.

Younis then went on to reveal the "torture" the national cricket team suffered after Woolmer's death as they were relocated to some other island and were investigated by the local police.—Agency

Carlo Ancelotti pushes for defensive signing after missing out on Leny Yoro

MADRID: Real Madrid boss Carlo Ancelotti is pushing the club to make a top defensive signing after missing out on Leny Yoro to Manchester United, reported Spanish news outlet SPORT on Tuesday.

Madrid had been after Yoro for a long time but they were not willing to pay more than €40million, so the Frenchman was sold to Man Utd by his former club Lille.

With Nacho Fernandez and Rafa Marin having left the club, Madrid are now just left with three centre-backs - Antonio Rudiger, Eder Militao and David Alaba - and the Austrian is expected to be out till 2025 due to the Anterior Cruciate Ligament (ACL) tear he suffered last season.

Ancelotti wants the Whites to sign a proven centre-back for the upcoming season and according to SPORT, the names of Al-Nasser's Aymeric Laporte, who won the European Championship (Euro) 2024 with Spain, and Arsenal's William Saliba are being discussed. Laporte left Manchester City and joined Cristiano Ronaldo's Al-Nassr on a huge salary contract but a move to the Spanish capital could be appealing to him as he is just 30 years old and eyes playing FIFA World Cup 2026 with Spain. On the other hand, Saliba, 23, is one of the best defenders in the world and is certainly one of Mikel Arteta's most important troops at Arsenal. Due to his importance, the Gunners would be reluctant to sell the Frenchman.—Agency

CM Gandapur Suggests Calling KP Apex Committee Following Bannu Jirga Meeting

PESHAWAR: Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur has hinted at summoning a meeting of the provincial Apex Committee - the top security body - in the next two days after the Bannu jirga put forth its demands.

Sources told media in the wee hours of Tuesday that the chief minister would furnish the demands of the jirga before the top body, days after firing on the Bannu 'peace march' killed one and injured several others.

The jirga's delegation, who placed a 10-point agenda before Gandapur during a meeting at the CM House, has opposed the federal government's anti-terrorism campaign 'Azm-e-Islah'. The sources said, "The people familiar with the meeting also said the jirga sought to dismantle armed groups, empower police and ensure their patrolling at night; allow CTD to conduct search operations or take action against terrorists instead of security forces;

form a body to investigate the incident. However, the federal government has said that it won't accept the findings as Pakistan Tehreek-e-Insaf's (PTI) people had weapons and used them in the rally, which caused chaos. In a press conference on Monday, Inter-Services Public Relations (ISPR) chief Lt Gen Ahmed Sharif Chaudhry said that the Bannu marchers had raised anti-army slogans and also pelleted stones at the security forces' personnel. During his presser, in which he also criticised the role of social media following the march, Lt Gen Chaudhry also played footage from the incident, which showed armed marchers attacking an under-construction wall of the Bannu cantonment.

Garhi Hassan Branch Breach Expands to 100 Feet, Floods Villages and Crops

By Khair Muhammad Golo

THUL: A significant breach in the Garhi Hassan Branch, located near the village of Aitbar Khoso, has expanded to 100 feet due to the negligence of irrigation officials. The initial breach, which measured 50 feet wide, occurred as a result of inadequate maintenance and oversight.

Despite being alerted about the situation, the irrigation officials failed to respond for over eight hours, exacerbating the problem. As a result of the delayed response, water from the

breach inundated hundreds of acres of rice crops and spilled into five nearby villages: Allah Dino Khoso, Siddiq Khoso, Abdul Karim Katohar, Basheer Katohar, and Aitbar Khoso. The flooding has forced villagers to evacuate their homes to avoid further damage.

In response to the disaster, local residents, including Gulzar Ahmed and Hakim Katohar, have expressed their frustration and disappointment. They criticized the irrigation officials for their lack of prompt action, which they believe led to the severe

flooding of their villages and the destruction of their crops.

The affected villagers are calling for immediate action against the responsible irrigation officials and are demanding compensation for their losses. They have voiced their concerns about the inadequate response and the devastating impact of the breach on their livelihoods.

The situation underscores the urgent need for better management and maintenance of irrigation infrastructure to prevent such incidents and mitigate their effects on local communities.

PTA Attributes Ongoing WhatsApp Disruption In Pakistan To 'Technical Glitch'

ISLAMABAD: Pakistan's telecommunication regulator has downplayed the ongoing issues with WhatsApp services being experienced by cellular users in the country, attributing it to a possible "technical glitch."

On July 20, numerous users in Pakistan began reporting difficulties in sending and receiving media files, such as voice notes, photos, and videos, on the popular messaging application while using their mobile networks.

Complaints included media files either taking too long to download or not downloading at all, with some users receiving the following message from WhatsApp: "Couldn't download document. Try again. If the problem keeps happening, try connecting to Wi-Fi."

According to a 2024 report by the World Population Review, there are 52.3 million WhatsApp users in Pakistan.

The disruptions have persisted for many users. In the last 24 hours, Downdetector, a global platform that monitors problems with websites and online applications, has continued to receive reports

regarding outages of WhatsApp in Pakistan.

Private telecommunication services in the country have also confirmed the issue. A spokesperson for Jazz, Pakistan's largest mobile network, who asked to remain anonymous, told media Fact Check that the company has received reports of WhatsApp disruptions.

"We are looking into the matter, and our commitment to providing uninterrupted services continues," he added. While a representative from Telenor Pakistan mentioned that they too had received "some complaints over the weekend" about WhatsApp's quality.

"We investigated the complaints and concluded

that there were no issues from our side or due to our network," he said. "If there was an issue from the backend or elsewhere, they can tell you better about it. That is beyond us."

A Zong Pakistan representative stated it was difficult to pinpoint the exact issue and declined to comment further.

However, Malahat Obaid, the spokesperson for the Pakistan Telecommunication Authority (PTA), denied any issues with WhatsApp presently. "There is no issue with WhatsApp or any social media apps currently," she told Geo Fact Check through a written response. "In case anyone experienced any such issue lately it may be due to some technical glitch." —RT/Agency

UK Parliamentarians Call For Immediate Release Of Imran Khan

LONDON: Nearly two dozen UK members of parliament have called for the immediate release of Imran Khan, the former prime minister of Pakistan, currently imprisoned in Adiala jail with his wife Bushra Begum.

The demand for Khan's release was made at a hearing today in the House of Lord's Committee Room about the erosion of democratic norms in Pakistan and the "illegal incarceration" of the former prime minister. The hearing was jointly convened by Labour MP for Bradford West Naz Shah, and Conservative Peer Lord Hannan of Kingsclere.

Sayed Zulfikar Bukhari, who was appointed Imran Khan's International Affairs Adviser today, and PTI candidate in the 2024 Pakistani general election Meher Bano Qureshi were guest speakers, as was Sarwar Bari, founder of Patten Development.

PTI UK's leader Jahanzeb Khan was also in attendance as well as four other office bearers.

The hearing resolved that parliamentarians will call on Prime Minister Sir Keir Starmer MP and the Secretary of State for Foreign, Commonwealth and Development Affairs David Lammy MP for the UK government to take note of the recent United Nations report into former prime minister

Imran Khan's incarceration, demand his immediate release and the return of democracy to Pakistan.

Bukhari spoke for ten minutes and gave a rundown of what has happened since the removal of Khan from power in April 2022. He alleged that this year's February elections were massively rigged and that there are fears Khan may be tried in the military courts.

He said: "Pakistanis deserve the right to self-determination. The current government of Pakistan is illegitimate and the world needs to be aware of the atrocities committed by the government of Pakistan against freedom and democracy over the past two years. I welcome that leading parliamentarians from the UK are now calling for the return

of democratic norms in Pakistan."

He told the meeting that PTI's former social media lead Azhar Mashwani was also set to attend the meeting as a "victim" of the state but he received a call from his abducted brother's phone, warning him that his other family members will be taken away too if he joined the meeting. He alleged that hundreds of PTI workers remain abducted and missing.

Meher Bano spoke for nearly 17 minutes, narrating the difficulties she and PTI candidates faced in general elections.

She said: "It has been disappointing [to see] the eerie silence from West democraticies, we would have expected they would stand up for democracy in Pakistan. It is wonderful to have these plaudits about being resilient and brave. I don't want to be resilient or brave, nor do the people of Pakistan, all we just want to be free. Free to choose what political party we support, free to choose what political party we contest the elections from, and free to our representatives. We want our voices to be heard and our votes to be counted."

She said the last general

elections were a farce and her father Shah Mahmood Qureshi, the former foreign minister, was being punished for siding with Imran Khan. She said the basis of the whole cipher case was to intimidate and cajole Khan and Qureshi into submission through draconian means.

Lord Hannan of Kingsclere said: "As friends of Pakistan and friends of Pakistani democracy, we want to see that country prosper. We want to see the UN's recommendations implemented, including an end to the detention of Imran Khan and a timetable for free and inclusive elections. We will continue to press for democracy on a cross-party basis, and in both parliamentary chambers. And we will link up with parliamentarians in other friendly countries to make the case internationally." Naz said the hearing on Pakistan was a "pro-Pakistan" event. She regretted that some people had called it "an event against Pakistan". She said that she decided to get involved in the event to become the voice of a significant section of Pakistanis who wanted Khan's release and wanted an end to all kinds of political incriminations.—RT/Agency

Court Grants FIA Two-Day Remand Of Raouf Hasan

ISLAMABAD: A district and sessions court in Islamabad on Tuesday granted a two-day physical remand of Pakistan Tehreek-e-Insaf (PTI) Information Secretary Raouf Hasan to the Federal Investigation Agency (FIA) in a case related to his alleged involvement in disseminating anti-state propaganda.

man Gohar condemning Hasan's arrest.

Presenting the PTI official before the court, the FIA prosecutor requested the court to grant physical remand of the suspect for recovering devices — allegedly used for anti-state propaganda.

A day earlier, Islamabad Police took Hasan into custody from the party's Central Secretariat for heading a digital media cell and its alleged involvement in running anti-Pakistan propaganda.

Commenting on the arrest, the police had maintained that the "PTI digital media centre had become a centre of international disinformation, from where anti-Pakistan propaganda is run throughout the world".

Although it was initially reported that party Chairman Barrister Gohar Khan was also arrested, the ICT later clarified that they had only arrested Hasan during the raid at PTI's Central Secretariat.

He then urged the court to hand over the PTI official to the investigative agency on a 10-day physical remand.

However, Hasan's lawyer Latif Khosa opposed the prosecutor's request for physical remand.

Meanwhile, defence counsel Bokhari questioned the need for a 10-day remand when there was no evidence against the PTI official.

Stressing that Hasan had nothing to do with the social media [team], the lawyer inquired what investigation had the FIA carried out in the last 24 hours.

"Is it a crime to use a mobile phone?" Bokhari said while further asking if on the suspect had posted anything on X. The court then granted Hasan and other PTI workers' two-day physical remand to the FIA, whereas two female PTI workers have been sent to jail on a judicial remand for 14 days.—RT/Agency

Faisal Vawda Claims Faiz Hameed Presented Evidence Of Imran Khan's Involvement In May 9 Riots

ISLAMABAD: Senator Faisal Vawda has accused PTI supremo Imran Khan of being responsible for Pakistan's current political instability, citing evidence provided by former director general Inter-Services Intelligence Lt Gen (ret'd) Faiz Hameed, linking Khan to the May 9 vandalism incident.

"I cannot champion law and democracy when multiple cases are pending against me in courts. Some time ago, I revealed that Imran Khan's close associate, Faiz Hameed, provided evidence of Khan's involvement in the May 9 vandalism," stated Vawda during an interview with a private TV channel.

Vawda further stated that Imran admitted to directing his supporters to march towards GHQ. He pointed out that parties like PML-N, PPP, JUI-F, and MQM-P had also clashed with the establishment in the past but eventually sat down for negotiations.
