SC Ruling Favors Government In NAB Amendments Case, Sets Back For Imran

ISLAMABAD: In a major victory for the incumbent government, the Supreme Court on Friday accepted intra-court appeals filed against the September 15, 2023, majority judgement striking down the amendments to the National Accountability Ordinance (NAO).

A larger bench headed by Chief Justice of Pakistan (CJP) Qazi Faiz Isa and comprising Justice Aminuddin, Justice Jamal Khan Mandukhel, Justice Athar Minallah and Justice Hasan Azhar Rizvi announced the unanimous verdict.

It modified sections 2, 4, 5, 6, 25 and 26 of the NAB laws, however, 9 out of 10 amendments were declared "null and void" by the CJP. The five-member bench on the PTI founder's petition filed in June 2022.

Refrerring to the September 15 ruling, the court today pointed out that the Supreme Court (Practice and Procedure) Act, 2023—which required that a plea must be heard by "not less than five judges of the SC"—was enacted while Khan's petition was pending adjudication.

The top court noted that the petition challenging the amendments made to the Ordinance was not heard and decided in accordance with the SC (Practice and Procedure) Act—hereinafter referred to as the "Act". "If the provisions of the Act had been followed the Petition may have been decided differently [...]. These [intra-court] appeals could justifiably be allowed on the ground that since the Petition was not heard and decided as required by the Act by a five-member bench the impugned judgement is coram non-justice and a nullity in law," it added.

Furthermore, the five-member bench's judgement today also pointed out that last year's ruling did not demonstrate how the amendments violated or infringed any of the fundamental rights provisioned under Articles 14, 23 and 25 of the Constitution.

The majority judgement had struck down some amendments made to the National Accountability Ordinance (NAO), 1999.

The amendments—National Accountability (Second Amendment) Act 2022—were passed in a joint sit-

ing of the parliament in April 2022 during the Pakistan Democratic Movement (PDM)-led government which came into power after ousting ex-premier Khan via a no-trust move in 2022.

"We allow these appeals by setting aside the impugned judgement," reads the SC order.—RT/Agency

Naem Warns Of Consequences If Rawalpindi Agreement Is Not Enforced

GUJRANWALA: Jamaat-e-Islami (JI) chief Hafiz Naemur Rehman has warned that the government will be held responsible if the Rawalpindi agreement is not implemented within 16 days. He also cautioned Prime Minister Shehbaz Sharif not to complain about the party's next steps.

Speaking at a workers' convention and membership drive inauguration in Gujranwala on Friday, Hafiz Naem said, "The public will no longer bear the burden of government luxuries and Independent Power Producers (IPPs)". He emphasised that JI is fighting for the rights of the people and warned authorities not to obstruct their path.

He criticised past governments, including those led by PML-N, PPP, and PTI, for protecting IPPs, stating that "they are all equally complicit in this looting."

Consultations are ongoing with traders for a potential three-day nationwide strike, which would see the entire country shut down, he added. He credited JI for any relief provided in Punjab and demanded a uniform electricity tariff across Pakistan, urging the government to curb its privileges and extravagance.

The JI leader also announced the expansion of the "Haq Do Awam Ke" (Give People Their Rights) campaign, with a target of 5 million new members. "We have launched membership campaigns nationwide, and we are receiving overwhelming support. Our doors are open to anyone willing to fight for public rights and the establishment of an Islamic system," he said.

Hafiz Naem accused IPPs of three major frauds, claiming, "First, the agreements were flawed; second, they're charging for electricity not being produced; and third, they aren't paying taxes on the money they receive."

He accused the government of following IMF orders and warned that if the public doesn't resist, "they will continue looting the nation."

Khawaja Asif Links Faiz Hameed's Issue With Imran

ISLAMABAD: Defence Minister Khawaja Asif Friday claimed matter of Lt. General (retired) Faiz Hameed is 'interlinked' with Pakistan Tehreek-e-Insaf (PTI) founder.

In his exclusive talk with media, Khawaja Asif said, during premiership tenure of Imran Khan, his [Faiz Hameed] were being implemented.

Referring to the situation of Balochistan, Khawaja Asif supported provision of special powers to the state institutions.

Expressing no informa-

tion about PML-N's pact with 'anyone', Khawaja Asif said PTI founder is seeing dreams in Adiala jail.

Paying rich tributes to the martyrs, who laid their lives while defending the motherland, the defence minister

said like 1965, today, Pakistan is also facing visible and hidden enemies.

COAS Urges To Prevent Political Dissent From Escalating Into Hatred

RAWALPINDI: Army Chief General Asim Muneer has advised against turning differences in political viewpoints into hatred, reiterating that the nation will not let "nefarious objectives" aimed at weakening national harmony to succeed.

He stated this while addressing the Defence and Martyrs Day ceremony at General Headquarters (GHQ) in Rawalpindi on Friday.

The chief of army staff (COAS) said the martyrs' sacrifices for the country against terrorists have brought stability to the country and strengthened the national security.

"The relation between the armed forces and the nation is of heart," the COAS said. "The nation has always backed the army, be it the rescue works in the events of natural disasters, foreign hostilities or war against terrorism."

The strong bond between the people and the military is a guarantor of the country's enemies' defeat, the army chief said adding that the elements who create a rift between the army and the forces will have to face defeat as always.

Speaking about the newly launched Operation Azm-e-Istehkam, the army chief said it is not a new counterterrorism drive but rather a part of the National Action Plan (NAP) wherein strategy

was chalked out to root out terrorism and extremism from the country.

The COAS also clarified that displacement of the civilian population will not take place under the new counterterrorism drive.

"The determination to bring stability is inevitable for the national security. We will defeat the elements spreading hopelessness and anxiety with unity," he added.

"The nefarious intentions to weaken the national unity

will never be successful," wasn't a national, but regional and global issue.

COAS Muneer stressed the need to adopt harmony and unity, asking the nation to exhibit togetherness, tolerance and forbearance in social and economic affairs.

The army chief also asked to protect the rights of minorities, granted in the Constitution of Pakistan, by overcoming religious intolerance. "Quaid-e-Azam's principles of faith and unity are a lighthouse for the nation," he said.

Apart from geographical importance, the COAS said Allah Almighty has blessed Pakistan with abundant natural resources. Emphasising the importance of country's youth, he added that their role in country's integrity and development is of immense importance. Speaking about the Indian Illegally Occupied Jammu and Kashmir (IIOJK), the COAS said that the illegal occupation

Naqvi Calls For Unified Efforts To Eradicate Terrorism

ISLAMABAD: Interior Minister Mohsin Naqvi has urged religious scholars to support and stand by the government in its efforts to purge the country from the scourge of terrorism and extremism. Talking to delegation of Ulema and Mashaikh in Islamabad, he said, "Pakistan is first and we all have to make collective efforts for its development and prosperity."

In connection with Defence Day, being observed today, he categorically stated that anybody who takes arms against the state is a terrorist and the state will deal with such elements with iron hand. He said killing innocent people in the name of religion has nothing to do with Islam and Islamic teachings. The interior minister emphasised terrorists and extremists to lay down weapons and accept writ of the State and the Constitution. He assured that suggestions of Ulema and Mashaikh would be incorporated to root

Imran Threatens Legal Action Against IO And NAB Chief: 'We Will Not Spare You'

RAWALPINDI: Incarcerated Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan on Friday threatened the National Accountability Bureau (NAB) chairman and investigation officer (IO) with legal action.

"My spouse [Bushra Bibi] is facing imprisonment due to cases concocted by you," the deposed prime minister told NAB IO Mohsin Haroon while pointing a finger at him during a hearing of a new Toshakhana reference filed against the detained couple.

On September 2, an accountability court in Rawalpindi extended the judicial remand of the PTI founder and his wife in a new Toshakhana reference.

The new reference pertains to a case related to a jewellery set gifted to former first lady Bushra by the Saudi crown prince when Imran was the prime minister of the country from 2018 to 2022.

During the exchange of words, Imran—who was ousted from the prime minister's office via a no-confidence motion in 2022—told Haroon that he would not spare them "when he is out of jail".

"I will take you both [IO and NAB chairman] to court

[over fabricated cases]," the PTI founder added.

Notably, the anti-graft bureau had informed the media about threats made by the former premier at least four times.

This is not the first time Imran Khan has hurled threats at public officials with the most prominent being the case of Judge Zeba Chaudry.

Just months after his ouster in April 2022, the PTI founder gave a fiery speech directed towards Islamabad's top police officials and judge Chaudry threatening not to "spare" them and file cases against them for "torturing" his party leader Shahbaz Gill.

Meanwhile, the NAB prosecution team sought adjournment of the hearing citing the absence of prosecutor Umar Majeed. "[The

Shibli Faraz: NAB Amendment Issue To Be Addressed Publicly

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) senator Shibli Faraz asserted that today's decision was NRO 2 and announced to take up the matter in public.

He gave a response to the Supreme Court judgement that restored NAB amendments, accepted the appeals of the incumbent government and gave a setback to PTI founder Imran Khan.

Opposition leader berated the government, saying they were not the real representatives of the public instead selected on Form-47.

Faraz lamented that the incumbent government

Lawyers Assess SC Ruling On NAB Amendments

ISLAMABAD: In a landmark decision on Friday, the Supreme Court accepted the intra-court appeals filed by the federal and provincial governments against the September 15, 2023 majority judgement in the National Accountability Bureau (NAB) amendments case.

A larger bench, headed by Chief Justice of Pakistan (CJP) Qazi Faiz Isa, ruled unanimously against the ex-CJP Umar Ata Bandial-led bench's verdict striking down the amendments to the National Accountability Ordinance (NAO).

The five-member bench reserved the verdict on June 6 on multiple appeals against the apex court's September 15 verdict which was announced by Bandial.

Reacting to the SC verdict, Barrister Asad Rahim Khan said: "Yet another strange and barely reasoned decision by this

chief justice. That NAB had become an instrument of coercion and required reforming was plain for all to see.

"But the PDM regime's solution — to gut the entire organisation via a set of person-specific amendments — was laughably illegal; a small segment of the political class getting rid of cases against itself."

Barrister Khan said that the "act of desperation has now been legalised by the court" on the basis that the public's fundamental rights haven't been affected.

"This is Nero playing the lyre: by the same metric, the Supreme Court should have decided to the contrary when it came to the National Reconciliation Ordinance — another exercise in which under-mocratic forces had to launder politicians for cobbling together a government. "These are bad decisions making for bad jurisprudence — the kind bereft of law, precedent, or serving the public interest," he added.—RT/Agency

The president, in his message to the nation on the Defence and Martyrs' Day of Pakistan, said that Pakistan's armed forces were provided with adequate defence equipment and possessed the desired professional skills and the will to protect the country from all challenges.

On the Day, he paid homage to the country's Ghazis and Shuhada, who rendered immense sacrifices and bravely defended the country against external aggression. tions that guarantee the Kashmiri people's right to self-determination," he commented.

President Zardari said that Pakistan was facing many threats and security challenges and hostile countries were bent upon harming it by supporting anti-Pakistan elements to carry out terror activities in the country. An elite gets away with murder again

In Pakistan, where justice is often a privilege rather than a right, the recent Karsaz traffic accident case underscores the glaring divide between the affluent and the impoverished. Natasha Danish, the prime suspect in this tragic incident, has been granted bail under circumstances that highlight the systemic inequalities entrenched in the country's legal system. Danish, who was driving under the influence of methamphetamine, was involved in an accident that claimed the lives of a young woman and her father.

The core issue at hand is not just the accident itself, but the aftermath that reveals a deeper injustice. The victims' family, reportedly com-

pelled by financial strains and societal pressures, settled out of court. They issued an affidavit declaring their forgiveness and consenting to the

accused's bail, citing a religious motive and insisting they were under no duress. This settlement effectively undermines the pursuit of justice, reducing it to a transaction rather than a measure of accountability.

The disparity in how justice is administered between the rich and the poor is starkly apparent here. While Natasha Danish can afford legal

representation and bail, the victims' family, struggling with their loss and likely facing economic hardship, finds themselves in a position where out-of-court settlements become a necessary means of survival. This scenario highlights a disturbing trend where the wealthy evade substantial consequences for their actions, while the impoverished are left to navigate a legal labyrinth that favors the elite.

In a society where justice becomes a luxury reserved for the rich, the integrity of the legal system is severely compromised. Until reforms address these deep-seated inequalities, the judicial process will remain a tool that perpetuates injustice rather than dispenses it.

Naukot Police arrest a notorious criminal

By Mushahid Nohrio

NAUKOT: In Tharparkar, the police claim of having arrested a criminal in a wounded state during a confrontation with outlaws has turned out to be false. Photos of the young man in his injured state, taken before his arrest, went viral on social media, causing a stir among the police. According to the reports, the Wajohto police in Tharparkar had claimed that during a late-night patrol on the Naukot-Kumri road, they had a confrontation with

criminals, during which they arrested a criminal named Murtaza, alias Pappu Kalhoro, in a wounded state, while his accomplices escaped. The police also claimed that they had recovered a pistol and ammunition from the wounded criminal, who was subsequently transferred to the hospital for medical treatment. However, after the photos of the young man in his injured state before his arrest went viral on social media, the police faced significant criticism. There are allegations that the police

had, in fact, shot Murtaza Kalhoro after apprehending him the previous day and falsely claimed it as a confrontation. The viral photos suggest that the police's account of the encounter may be fabricated. The SHO of Wajohto stated that during the patrol, there was indeed a confrontation with criminals, and Murtaza Kalhoro was arrested in an injured state. He also mentioned that gold jewelry stolen from Wajohto and Mithri police jurisdictions was recovered from him. He dismissed the viral photos as outdated.

Strengthening Media Cooperation Between Pakistan And China: APNS Advocates Renewed Collaboration

Karachi: In a warm and welcoming address, the All Pakistan Newspapers Society (APNS) expressed its gratitude to distinguished Chinese diplomats attending a gathering at the APNS office in Karachi. The society highlighted the importance of collaboration between Pakistan and China in the realm of media and journalism.

In his address, veteran publisher and former Member of the National Assembly Kazi Asad Abid of APNS recalled his visit to China in April 2018, where he led a delegation of APNS members to the China-Pakistan Media Forum, held in collaboration with China's Guangming Daily in April, 2018, in Beijing. The forum engaged in comprehensive discussions about the Belt and Road Initiative (BRI) and fostering a shared future between the two nations. A memorandum of understanding (MoU) was signed between APNS and the Guangming Daily, with another agreement signed between the All China Journalists Association and APNS on the same day. NA Passes 'Peaceful Assembly' Bill Following Senate Approval Despite Opposition Protests

ISLAMABAD: Following the approval from the Senate, the National Assembly (NA) on Friday passed the "Peaceful Assembly and Public Order Bill, 2024", proposing up to three-year imprisonment for organising unauthorised rallies in Islamabad.

The bill, introduced by Pakistan Muslim League-Nawaz (PML-N) senior leader Danyal Chaudhary, aims to regulate public gatherings in the federal capital and ensure they do not disrupt public order.

Speaking on the floor of the lower house of parliament, Minister for Law and Justice Azam Nazeer Tarar said that the purpose of the bill is to maintain peace during public assemblies and processions.

He dismissed the opposition's concerns, saying that the increasing number of demonstrations in the federal capital has caused significant inconvenience to citizens.

"The bill seeks to address these challenges while pre-

servicing the right to peaceful assembly," the federal minister added.

Despite opposition from lawmakers of the Pakistan Tehreek-e-Insaf (PTI) and the Sunni Ittehad Council (SIC), the peaceful assembly was passed by a majority vote.

With approval from both houses of parliament, the bill will now be sent to President Asif Ali Zardari for final endorsement to become law.

The new bill empowers the district magistrate to regulate and ban public assemblies in the federal capital, proposing a punishment of

up to three years or/and an unspecified fine to the members of an 'unlawful assembly'.

Meanwhile, it also proposed that repeat offenders will be liable to imprisonment for a term that may extend to 10 years.

As per a report published in media, the bill bounds the event coordinator of an assembly within the ICT, if: (a) the assembly poses a risk to national security or public safety; (b) there are credible reports from law-enforcement agencies indicating a substantial risk of violence or public disorder; (c) the as-

sembly would significantly disrupt the daily activities of the community, impede the movement of people and goods, or infringe upon fundamental rights of citizens with regard to freedom of trade, business or profession guaranteed under Article 18 of the Constitution; or (d) another procession or assembly is already ongoing within the ICT, and the additional assembly would increase disruptions or pose additional security risks.

The bill says the ban on assembly under the proposed law would remain in force for the duration specified by the district magistrate, which may be extended if the conditions necessitating the ban persist.

"An officer-in-charge of a police station, on the instruction of the district magistrate, may command any assembly likely to disturb the public peace to disperse. It shall then be the duty of the members of such an assembly to comply and disperse accordingly," it reads.—RT/Agency

ISLAMABAD: Prime Minister Muhammad Shehbaz Sharif has said that today on September 6, Pakistan commemorates a pivotal moment in its history, Defence and Martyrs Day, honoring the unwavering courage and ultimate sacrifices of its brave armed forces who repelled India's aggression in 1965.

"Fifty-nine years on, the Armed Forces of Pakistan unceasingly show the same ever-ready state of alertness, professional excellence and war preparedness while up-keeping the 'Spirit of September' that has become a symbol of resistance and resilience," the prime minister said in a message on Defence and Martyrs Day, September 6, 2024.

He said the September 6 marks a significant day in the history of Pakistan. "Every year on this day, the Pakistani nation observes 'Defence & Martyrs Day' in a befitting manner. Together we pay rich tributes to the valiant sons of soil and brave heroes of our Armed Forces who fearlessly fought, and defeated India that attacked our motherland across the international border on 6 September 1965," he added.

Despite their numerical advantage, the prime minister said the enemy designs were thwarted by the valiant Armed Forces and were handed an unforgettable defeat, on all fronts.

"The courage and dedication of our soldiers coupled with preparedness of the Armed Forces ensure that we live in a free and sovereign country. We salute the families of Shuhada, whose immense resilience and strength continues to inspire us to

commit to the defence of the country," he said adding "Our Armed Forces, equipped with modern day combat capability, are constantly enhancing their prowess to defend our territorial integrity and sovereign identity"

He stressed that the Government of Pakistan believes in dialogue over conflict and in cooperation over confrontation. "Our aim is to create an environment where all nations can prosper, and address issues like poverty, health, and education."

Unfortunately, he said non-resolution of the Jammu & Kashmir dispute is hampering the pace of positive development in the region. PTI Seeks Legal Relief For Imran Following SC Decision On NAB Amendments

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) Chairman Barrister Gohar Khan on Friday hoped for legal relief for party founder Imran Khan, saying that major cases against him will no longer fall in the National Accountability Bureau's (NAB) jurisdiction.

Gohar made these comments after Supreme Court's decision to accept intra-court appeals filed against the September 15, 2023, majority judgement striking down the amendments to the National Accountability Ordinance (NAO).

Speaking to media after the verdict, the chairman said that the Toshakhana case and Al-Qadir Trust case do not fall in the anti-graft body's jurisdiction anymore. He added that the ₹190 million case should be settled on merit.

"The ₹190 million was also decided by the cabinet [...] and under the new amendments, the NAB law will not apply to the decisions of the cabinet," he stressed.

The PTI chief said the unanimous verdict has benefited Khan in a way that the Toshakhana case — which is worth Rs30-40

million — can no longer proceed.

Gohar further said that the ₹190 million can't be proceeded as well as it does not involve personal interest, adding that the top court has issued a verdict.

Earlier today, a five-member bench of the SC, headed by Chief Justice of Pakistan (CJP) Qazi Faiz Isa, accepted the intra-court appeals filed by the federal and provincial governments against the September 15 judgement.

Announcing the verdict today, the apex court remarked that the PTI founder could not prove that NAB amendments were unconstitutional. The five-member bench reserved the verdict on June 6 on multiple appeals against the apex court's September 15 ver-

dict which was announced by then-CJP Umar Ata Bandial. The majority judgement had struck down some amendments made to the National Accountability Ordinance (NAO), 1999.

The amendments — National Accountability (Second Amendment) Act 2022 — were passed in a joint sitting of the parliament in April 2022 during the Pakistan Democratic Movement (PDM)-led government which came into power after ousting ex-prime minister Khan via a no-trust move in 2022. It modified sections 2, 4, 5, 6, 25 and 26 of the NAB laws, how-ever, 9 out of 10 amendments were declared "null and void" by the CJP Bandial-led bench on the PTI founder's petition filed in June 2022.—RT/Agency

LHC Nullifies Appointment Of Nadra Chairman

LAHORE: The Lahore High Court (LHC) directed the removal of National Database and Registration Authority (Nadra) Chairman Lt Gen Munir Afsar on Friday, declaring his appointment null and void.

A citizen, Ashba Kamran, had challenged the appointment of Afsar as the chairman in a petition, which was approved by the LHC.

Directing for the chairman's removal, Justice Asim Hafeez gave a reserved verdict on Kamran's plea.

The illegality committed by way of an unauthorised appointment, by the appointing authority, cannot be concealed, Justice Hafeez said.

Hence, the judge in his remarks maintained, the appointment was "declared without requisite 'authority of law'".

He also directed to send a copy of the order to the federal cabinet, Ministry of Interior and all the departments concerned.

It was contended in the petition that the caretaker

government had approved the appointment of a serving army officer by amending the Nadra Ordinance. The caretaker government cannot interfere in permanent policy matters, it argued.

The petition pleaded that the high court should quash the Nadra amendment rules and declare appointment of the servicemen as Nadra chairman invalid media — in its report quoting sources on August 30, 2023 — said that the interim federal cabinet had approved the rules for the appointment of the Nadra chairman, which opened doors to the service-

men to be deputed as the head of the public institution.

Credible sources had told media that the summary received by the Cabinet Division from the Ministry of Interior, in which filling the extraordinary position of Nadra chairman on a deputation or secondment basis had been clearly approved for inclusion in the new rules.

Earlier, the Nadra Ordinance clearly stated that only an independent person could be appointed to this post, which meant that no government official, retired officer or secretary could be given this position.—RT/Agency

ECP Rejects PTI Request For Delay In Intra-Party Polls Hearing

ISLAMABAD: The Election Commission of Pakistan (ECP) on Friday dismissed the Pakistan Tehreek-e-Insaf's (PTI) pleas seeking deferment of the hearing of the case regarding its intra-party polls till the Supreme Court provides clarification on its July 12 ruling on the reserved seats matter.

In its decision, the ECP maintained that the PTI had already delayed the issue of intra-party polls a lot and it wouldn't be appropriate to defer the matter any further.

The ruling, reserved on August 27, was announced by the electoral body's three-member bench comprising Nisar Ahmed Durrani, Shah Muhammad Jatoi and Justice (ret'd) Ikram Ullah.

The development comes as the Imran Khan-founded party had filed a plea in the ECP seeking a delay in hearing of the intra-party elections issue and had also challenged its jurisdiction over the matter.

It is to be noted that the government body had taken up the matter after the apex court's full bench declared the party eligible for the allocation of re-

served seats.

The months-long intra-party polls saga dates back to last year when the ECP revoked the party's bat symbol over unlawful elections within the party.

The PTI had then held another intra-party elections in March this year — which too were challenged in the electoral body.

Stressing that registered political parties are obligated to elect their officials at the federal and local levels, ECP's today's verdict says that arguments in the case regarding PTI's intra-party polls will be taken up on September 18.

The ruling also pointed out that the former ruling party's own members had filed complaints with the commission on intra-party elections.

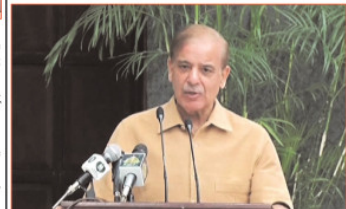

Rejecting the former

ruling party's plea challenging its jurisdiction, the electoral body said that it is bound to verify the documents submitted by a party under Section 208 of the Elections Act.

The commission is bound to look into the matter before issuing the certificate to the party and is also responsible for seeing whether the intra-party elections have been conducted in accordance with the law and the party constitution or not, read the order issued by the three-member bench.

On the party's complaint regarding the seizure of records and computers by the Federal Investigation Agency, the ECP directed the former ruling party to approach the relevant forum for the return of said items.—RT/Agency
