UNGA Passes Resolution Urging Israel To End Occupation Of Palestinian Territories Within A Year

UNITED NATIONS: The United Nations General Assembly on Wednesday adopted a Palestinian-drafted resolution that demands Israel end "its unlawful presence in the Occupied Palestinian Territory" within 12 months.

The resolution received 124 votes in favor, while 43 countries abstained and Israel, the United States and 12 others voted no.

The action isolates Israel days before world leaders travel to New York for their annual UN gathering. Israeli Prime Minister Benjamin Netanyahu is due to address the 193-member General Assembly on Sept. 26, the same day as Palestinian President Mahmoud Abbas.

The resolution welcomes a July advisory opinion by the International Court of Justice that said Israel's occupation of Palestinian territories and settlements is illegal and should be withdrawn.

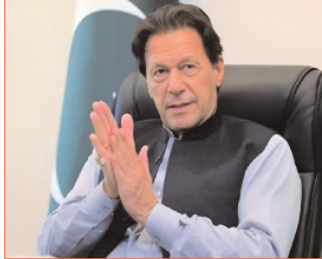

The advisory opinion - by the highest United Nations court, also known as the World Court - said this should be done "as rapidly as possible," although the General Assembly resolution imposes a 12-month deadline.

The General Assembly resolution also calls on states to "take steps towards ceasing the importation of any products originating in the Israeli settlements, as well as the provision or transfer of arms, munitions and related equipment to Israel... where there are reasonable grounds to suspect that they may be used in the Occupied Palestinian Territory."

The resolution is the first to be formally put forward by the Palestinian Authority since it gained additional rights and privileges this

Imran Claims Constitutional Amendments Aim To Extend Tenure For 'Three Umpires'

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan has alleged that a constitutional amendments are being pursued to extend the terms of three top officials, including Chief Justice Qazi Faez Isa, Islamabad High Court chief justice, and the Chief Election Commissioner.

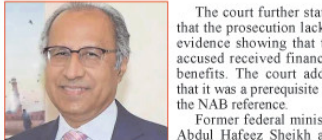

Speaking to the media at Adiala Jail, Imran claimed that the government, despite losing previous political battles, is now resorting to these amendments to safeguard fraudulent election results and protect officials in power.

Imran criticised the delay in addressing the May 9 events, accusing the government of trying to dismantle his party. He pointed out that he had been targeted with over 140 legal cases before May 9, adding that attempts to remove him only intensified after the date.

Fazl 'Firmly' Rejects Constitutional Package Despite Coalition Government's Efforts

ISLAMABAD: Jamiat Ulema-e-Islam Fazl (JUI-F) Chief Maulana Fazlur Rehman, who took the centre stage as both the government and the opposition sought his support, has completely rejected the draft of the "controversial" constitutional package, aimed at making changes to Pakistan's judicial and parliamentary systems.

"The draft we were given was reviewed, and it was in no way acceptable," the veteran politician said while talking to journalists after attending a luncheon at Pakistan Tehreek-e-Insaf (PTI) leader Asad Qaiser's residence on Wednesday.

The government pushed the proposed constitutional package amid speculation about a potential extension in the tenure of Chief Justice of Pakistan (CJP) Qazi Faez Isa, who is set to retire in October this year, following the PTI's request last month for the early issuance of a notification regarding the appointment of the next top judge.

The ruling coalition left no stone unturned to woo the 'fate-decider' Fazl, with leaderships of Pakistan Muslim League-Nawaz (PML-N) and Pakistan People's Party (PPP) holding a flurry of meetings with the cleric, but to no avail.

Despite claims of securing the "magic number" needed to push the bill through, the government failed to table the amendments in parliament and postponed its move indefinitely — a development confirmed by PML-N Senator Irfan Siddiqi.

The amendments allegedly include legislation to extend the tenure of CJP Isa as well as an increase in retirement age of the judges. To pass the constitutional amendments, the

government is short of 13 votes in the National Assembly (NA) and nine in the Senate.

The PTI and JUI-F, which have been arch-rivals traditionally, found common ground after the February 8 general elections and expressed mutual concerns over the alleged interference and manipulation during the polls.

Former NA speaker Asad Qaiser hosted a luncheon in honour of the JUI-F head in Islamabad today, which was also attended by other PTI lawmakers including Omar Ayub, Barrister Gohar and former president Arif Alvi.

Speaking to journalists following the meeting, Fazl

said they have completely rejected the constitutional amendments" proposed draft provided by the government. "It [the draft] was shared with specific individuals, not with everyone."

"Had we agreed to the constitutional package, it would have been the biggest breach of nation's trust," he added. For his part, Asad Qaiser castigated the incumbent rulers for 'concealing' the draft of the constitutional package, which he said contained at least 56 amendments, even from its own parliamentarians. "We do not accept this legislation in any respect."

The PTI leader further said that the future course of action will be decided after consultation with all opposition parties. However, he mentioned, they will table this matter in tomorrow's lawyers' convention in Lahore Responding to a question about any contact from the government in this regard, Qaiser said that no formal contact was made from the other side.

Speaking on the occasion, PTI Chairman Barrister Gohar pointed out the alleged contradiction in statements of ruling coalition partners — Defence Minister Khawaja Asif and PPP Chairman Bilawal Bhutto—

"In the assembly, Khawaja Asif stated this is the draft, whose contents have been shared [on social media], however, Bilawal Bhutto said this is not the same draft; it's a different one," Gohar said and added, "Whatever the draft is, both parties [PTI and JUI-F] have rejected it."

However, he remarked, if the government provides the opposition a new draft, they will reconsider it.

In response to a question regarding PTI founder's stance on alliance with JUI-F, Gohar claimed that they "came close to Maulana Fazl Khan's directives. A day earlier, former president Alvi called on Maulana Fazl in an effort to sway him, as the government-opposition tussle over the proposed judiciary-centric constitutional amendments continues.—RT/Agency

₹190m Case: IHC Prohibits Trial Court From Final Verdict On Imran's Petition

ISLAMABAD: The Islamabad High Court (IHC) on Wednesday stopped the accountability court from issuing a final verdict in the ₹190 million settlement case against incarcerated Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan and his wife Bushra Bibi.

A two-member bench of the high court comprising Chief Justice Aamer Farooq and Justice Miangul Hassan Aurangzeb heard the couple's acquittal plea in the said case.

The PTI founder on September 7 had filed a plea seeking acquittal in the ₹190 million case after the Supreme Court's verdict in the National Accountability Bureau (NAB) amendments case wherein the court accepted the intra-court appeals filed against last year's verdict which struck down the changes made to the National

Accountability Ordinance (NAO). The couple is accused of causing billions of rupees loss to the national exchequer.

The former premier and the ex-first lady also approached the IHC against the accountability court's ruling, seeking acquittal and pleading with the court to stop the trial court's proceedings until the case remains pending in the high court.

After hearing arguments, the IHC ordered the trial court to complete proceedings, however, it should not issue a final judgment.

The IHC bench also directed Khan and Bushra's lawyers to submit relevant documents. It also issued notices to the respondents over the couple's acquittal pleas and adjourned the hearing till September 26.—RT/Agency

Does anyone care about the declining health of democracy in Pakistan?

The recent refusal by local authorities to allow Pakistan Tehreek-e-Insaf (PTI) to hold a public rally in Karachi under the pretext of security concerns raises serious questions about the health of democracy in Pakistan. Time and again, security threats are cited as a reason to suppress PTI's political activities, while other parties continue to function freely. The situation in Karachi, as heard by the Sindh High Court (SHC), paints a troubling picture of how selective security assessments are being used to curtail PTI's political freedoms.

Justice Yusuf Ali Saeed, in a pointed in-

quiry, questioned why only PTI faces such restrictions, while other political parties have been allowed to rally without issue. The fact

that the deputy commissioner East claimed that security clearance had not been granted without providing concrete evidence or explanation further deepens the concern. If security is such an overarching issue, a blanket ban on all political rallies, as suggested by the court, might seem more consistent. Yet,

only PTI's activities are being targeted.

A thriving democracy relies on a level playing field where all political parties are allowed to operate without fear or favor. PTI, like any other political entity, must have the freedom to engage with the public. Selective suppression of political activities, especially on dubious grounds, sets a dangerous precedent for future democratic processes in Pakistan. All political parties deserve equal rights to assembly and free expression, and no institution should hinder these essential democratic pillars in the name of security without clear justification.

SL vs NZ: Kamindu Mendis equals Saud Shakeel's record

Sri Lanka's Kamindu Mendis has etched his name into the record books by equalling a world Test record, becoming only the second batter to score 50+ runs in each of his first seven Test matches. Pakistan's Saud Shakeel is the only other batter to achieve this remarkable feat. Mendis brought up his eighth 50-plus score in Tests during the first day of the opening Test against New Zealand in Galle. This milestone also sees him surpass cricket legends Sunil Gavaskar (India), Saeed Ahmed (Pakistan), and Basil Butcher (West Indies), all of whom scored a fifty in each of their first six Test matches. Kamindu's achievement follows a standout series in England, where he registered scores of 2, 113, 74, 4, and 64. He made his Test debut in 2022 against Australia in Galle, where he scored 61 in Sri Lanka's innings victory. However, he did not feature in the Test side for almost two years after that. Upon his return against Bangladesh earlier this year, he showcased his form with scores of 102 and 164 in the Sylhet Test, followed by an unbeaten 92 in Chattogram. In the ongoing Test in Galle, Kamindu reached his fifty off 73 deliveries. He also put on a 72-run partnership for the fifth wicket with Angelo Mathews, who returned to bat after retiring hurt following a blow to his hand.—Agency

SHC Halts NADRA From Charging Fees For Inheritance Certificates

KARACHI: The Sindh High Court (SHC) has suspended the National Database and Registration Authority (NADRA) from collecting fees for the issuance of inheritance certificates. This decision came during a hearing on a petition challenging NADRA's fee policy, where the court requested input from the deputy attorney general and assistant advocate general. The petitioner's lawyer argued that NADRA continues to charge fees even when applications for inheritance certificates are rejected, which violates its own regulations that only allow fees to be charged for services rendered. The

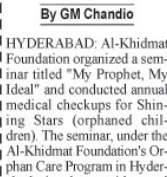

lawyer further contended that the current fee of Rs22,000 for inheritance certificates is excessive, as these certificates are essential for distributing property according to Islamic law. The SHC ordered NADRA to stop charging fees for inheritance certificates and letters of administration, though it allowed fees for routine services like ID cards and family registration certificates (FRC) to continue. The court also questioned whether NADRA can impose fees based on property ownership and whether the state is entitled to collect fees for such services.—RT/Agency

King Charles Invites Shehbaz For Commonwealth Meeting In October

ISLAMABAD: King Charles III of the United Kingdom on Wednesday telephoned Prime Minister Shehbaz Sharif and formally invited him to attend the Commonwealth Heads of Government Meeting (CHOGM) in Samoa in October.

Accepting the invitation, the prime minister said that the "CHOGM in Samoa would be a significant moment in the Commonwealth's history".

According to a PM Office press release, it would be the first summit to be chaired by King Charles III since becoming head of the Commonwealth and his coronation.

PM Shehbaz reiterated Pakistan's commitment to the Commonwealth and the values enshrined in the Com-

monwealth Charter. He said that the "CHOGM in Samoa would provide a forum to discuss opportunities for enhancing intra-Commonwealth cooperation on important issues such as fostering sustainable development, strengthening democratic institutions, and empowering Commonwealth youth".

inquired about the king's health and conveyed his best wishes for Kate Middleton, the Princess of Wales, who had completed her treatment.

The British royals have had a strong relationship with Pakistan and have visited the country on numerous occasions including visits from the late Queen Elizabeth II and the late princess Diana of Wales.

Recalling the fond memories of Charles' last visit to Pakistan, when he was the prince of Wales, Prime Minister Shehbaz hoped that the king and the queen would visit Pakistan soon. The then prince of Wales and duchess of Cornwall (now Queen Camilla) visited the country in 2006 from October 29 to November 3 and toured parts of Pakistan.

"For my wife and I, it really is the greatest possible joy to be here with you in Pakistan," said the then prince during an event on his visit in 2006. "It has taken me very nearly 58 years to reach you and it's not from want of trying, I can tell you."

Years later, it was PM Shehbaz who had to visit the UK upon the death of queen Elizabeth II in 2022 who reigned the kingdom for 70 years and 214 days.

During the funeral, PM met the new British sovereign, King Charles III and extended his condolences over the passing of the late monarch and said that she was a source of inspiration and strength for generations of Commonwealth citizens.—RT/Agency

US Reaffirms 'Longstanding Policy' Of Withholding Support For Pakistan's Ballistic Missile Program

WASHINGTON: The United States has reiterated its "longstanding policy" denying support to Pakistan's ballistic missile programme, saying it will continue to use sanctions and other tools to ensure its own national security and protect its financial system from being used by "proliferators".

In a press briefing, addressing a query regarding the recent sanctions considered "biased and politically motivated" by Islamabad—as per the journalist, State Department Spokesperson Matthew Miller said that while Pakistan has been a long-term partner of the US, there are disagreements.

"... and when we have disagreements, we won't hesitate to act on those to protect America's interests," he said, emphasising on the country's policy to deny support to Pakistan's missile programme. "... we will continue to use our sanctions and other—our other tools to ensure our national security cannot be impacted, and that the US financial system cannot be used by proliferators," said Miller.

The statement comes days after the US imposed sanctions Washington had similarly targeted three China-based companies with

sanctions in October 2023 for supplying missile-applicable items to Pakistan.

The Beijing Research Institute of Automation for Machine Building Industry, according to Miller's statement last week, had worked with Pakistan to procure equipment for testing rocket motors for the Shaheen-3 and Ababeel systems and potentially for larger systems.

The sanctions also targeted China-based firms Hubei Huachangda Intelligent Equipment Co., Universal Enterprise, and Xi'an Longde Technology Development Co., alongside Pakistan-based Innovative Equipment and a Chinese national, for knowingly transferring equipment under missile technology restrictions, said Miller.

In the briefing, the spokesperson also addressed a question pertaining to the

Pakistan Denounces IIOJK Elections, Calls For Modi's Accountability Over Human Rights Violations

ISLAMABAD: President Asif Ali Zardari on Wednesday categorically rejected the elections for the legislative assembly of Indian Illegally Occupied Jammu and Kashmir (IIOJK), asserting that these polls were no substitute for the Kashmiri people's right to self-determination.

Provincial elections are being held in the occupied territory for the first time in a decade.

The occupied Muslim-majority region enjoyed a special status of partial autonomy until 2019 which was then revoked by the far-right Narendra Modi-led Bharatiya Janata Party's government.

IIOJK's special semi-autonomous status—constitutionally enshrined power to control its affairs—had meant that only those who descended from residents of the territory in 1934 could vote and own property. The polls are being held after the Indian Supreme Court, last year, upheld the government's decision and set a deadline of September 30 this year for local polls.

President Zardari, talking to a delegation of migrants from IIOJK—residing in Pakistan since 1989—led by Uzair Ahmed Ghazali at Aiwan-

e-Sadr, emphasised that such elections were unacceptable to the people of Kashmir and called upon the international community to hold the Modi government accountable for ongoing human rights violations in IIOJK. He further urged the need to take concrete steps toward conducting a plebiscite in line with relevant United Nations Security Council Resolutions Welcoming the delegation, the president condemned the legislative assembly elections in IIOJK, terming them as part of India's broader strategy to consolidate its illegal occupation of the region. He highlighted that such measures could neither legitimise India's occupation nor suppress the freedom struggle of the Kashmiri people.

The president stated that India was trying to alter the demographic structure of IIOJK by turning the Kashmiri Muslims into a minority and transforming them into a disempowered community in their own land. "Pakistan greatly valued the sacrifices made by the Kashmiri people for their rights and would continue to stand in solidarity with them," he said, reiterating the country's commitment to provide moral, political and diplomatic support to the Kashmiri people till the realisation of their right to self-determination. The delegation apprised the president about the atrocities being committed by the Modi regime in the displaced territory. It was highlighted that the entire Kashmiri leadership had been imprisoned to suppress the voice of the Kashmiri people. The delegation also apprised the president about the issues of the refugees in Azad Jammu and Kashmir (AJK).—RT/Agency

ADB Pledges \$2 Billion Annually To Pakistan For Climate Resilience Over The Next Three Years

ISLAMABAD: The Asian Development Bank (ADB) has announced that it will provide \$2 billion in annual assistance to Pakistan over the next three years to support infrastructure development and climate-resilient initiatives.

In 2022, massive floods triggered by climate change devastated several parts of Pakistan, killing 1,700 people, washing away swathes of agricultural land, affecting 33 million people, and incurring losses worth \$30 billion, according to government estimates.

A report by the Policy and Strategy Committee (PSC) and the Oversight Board on Post-Flood Reconstruction Activities showed last week that the country had only received \$10.9bn from international development partners

out of the total estimated loss for post-flood reconstruction work, leaving a \$19.1bn shortfall that has halted the rehabilitation of flood-affected communities in three provinces.

According to a statement from the President's House, the announcement was made during a meeting between President Asif Ali Zardari and ADB's head Masatsugu Asakawa in Islamabad on Tuesday. "The President of the [Asian Development Bank] said that the ADB would provide \$2 billion in annual assistance to Pakistan over the next three years, and reaffirmed the bank's commitment to supporting infrastructure development and climate-resilient initiatives," the statement said.—RT/Agency

Law Minister Seeks Legal Community's Input On Adjusting Judges' Retirement Age In Constitutional Package

ISLAMABAD: Addressing a crucial session of the country's legal fraternity to discuss contentious constitutional amendments proposed by the coalition government, Federal Law Minister Azam Nazeer Tarar on Wednesday sought recommendations from lawyers to decide on the retirement age of judges whether it should be 65 or 68 years.

The federal minister was addressing the lawyers following in-camera session of the Pakistan Bar Council (PBC) and the Supreme Court Bar Association (SCBA) to brief and review the proposed constitutional changes that have become a challenge for the coalition government to pass them in parliament as it lacked two-thirds majority.

The amendments allegedly include legislation to extend the tenure of Chief Justice of Pakistan (CJP) Qazi Faez Isa—who is retiring in October this year—as well as the retirement age of the judges.

Today's event was attended by office-bearers of the lawyers' bodies, including SCBA President Shahzad

Shaukat, PBC Vice Chairman Farooq H Naek, Law Minister Tarar, and senior lawyers.

"The constitutional amendments package, which is circulating everywhere, is just a draft consisting of a set of recommendations," said Tarar while addressing the event. "[...] it cannot be called a government bill unless it is approved by the cabinet."

"There should be a constitutional court in which we get the glimpse of the federation," he further said.

He clarified that the Pakistan Muslim League-Nawaz (PML-N) was not solely ruling the country as "we are part of a coalition government".

Tarar said that the "constitutional package" was part of the "Charter of Democracy" signed by the ruling PML-N and its major ally, the Pakistan Peoples Party (PPP) in 2006 which also recommended bringing judicial reforms.

He detailed that discussions were held with the PPP from January to March over the judiciary-centric reforms via introducing constitutional amendments as per the ally party's push to "complete the agenda of the Charter of Democracy".—RT/Agency

PTI Ties Constitutional Amendment Talks To Imran's Release

ISLAMABAD: Senior Pakistan Tehreek-e-Insaf (PTI) leader Ali Muhammad Khan has urged the government to release the party's founder, Imran Khan, from Adiala Jail before engaging in talks on constitutional amendments.

Speaking to the media in Islamabad on Wednesday, Ali Muhammad outlined PTI's stance, stating, "First, release Imran Khan from prison, then we can discuss constitutional amendments." He added that any approval of amendments must be accompanied by the restoration of the public mandate.

The PTI leader questioned the legitimacy of the process, asking, "How can a constitutional amendment be passed by an incomplete parliament?" He also raised concerns about the role of the Pakistan People's Party (PPP) in the process, criticising PPP leader Bilawal Bhutto-Zardari. "It's unfortunate that the grandson is undermining the very Constitution his grandfather created," he remarked.

Hamid Khan, who was present during the conversation, reinforced PTI's position on the judiciary, stating, "We only recognise the Supreme Court. Justice Mansoor Ali Shah is the rightful

chief justice, and no one else is acceptable." He added, "We will not let institutions be mocked."

Meanwhile, PTI's founder, Imran Khan, has made serious allegations, claiming that the government is pushing constitutional amendments to extend the terms of key officials, including Chief Justice Qazi Faez Isa, the Chief Justice of Islamabad High Court, and the Chief Election Commissioner.

From Adiala Jail, Imran alleged, "The government, having lost previous political battles, is now changing the Constitution to safeguard rigged elections and extend the terms of three umpires."

He further warned that if

Chief Justice Isa is removed, investigations into the May 9 protests and alleged rigging in the elections would be initiated. "They are trying to dismantle my party," he said, adding that over 140 legal cases had been filed against him before the May 9 events, and efforts to remove him intensified afterward.

Khan expressed concern over the delay in investigating the May 9 incidents, claiming that if the new chief justice takes office, the truth behind the events will emerge.

He also criticised the government for undermining Pakistan's judicial and electoral processes, citing the delay in tribunal decisions on the February 8 election.—RT/Agency
