Six Passengers Killed, Nine Critically Injured In North Waziristan Helicopter Crash

ISLAMABAD: At least six people have been killed after a chartered helicopter carrying 15 passengers crashed in district North Waziristan of Khyber Pakhtunkhwa.

The Mi-8 helicopter crash has left at least nine people injured. The chartered helicopter — that belonged to Mari Petroleum Limited, a public limited company — crashed due to technical reasons near an oil field, said the company's spokesperson, stressing that the accident had nothing to do with the security situation.

The deceased persons included three foreign pilots and three others while nine of the travellers got wounded, it added. Providing details of the incident, the spokesperson said that the ill-fated aircraft was providing personal transportation in the Shewa Waziristan block.

The injured persons were transferred to a nearby hospital and relief operations,

by the Pakistan Army and others, the statement added. Helicopter crashes are not uncommon in Pakistan. In September last year, two Pakistan Navy officers and a soldier were martyred after their copter crashed in Balochistan's Gwadar. The Pakistan Navy spokesperson revealed that the mishap happened due to a technical issue during training.

As a result of the crash, two officers and one sailor of the Pakistan Navy embraced martyrdom, the spokesperson said, adding that the Pakistan Navy had initiated an investigation into the incident. —RT/Agency

PM Shehbaz Denounces Social Media Campaign Against Military Leadership

LONDON: Prime Minister Shehbaz Sharif has said that those involved in attacking Pakistan Army last year on May 9 cannot be forgiven as they have committed crimes against the nation and their crimes are unpardonable.

The prime minister was speaking to Pakistani media in London after participating in the United Nations General Assembly (UNGA) session. He arrived in London on Saturday night and will be departing to Pakistan on Monday.

China — the IMF programme wouldn't have been possible. Chief of Army Staff General Asim Munir made personal efforts for economic development and he played a big role in the revival of IMF plan. The army chief visited a brotherly country and discussed the IMF programme. I hope this will be the last IMF programme.

He condemned campaign against the military leadership including Chief of Army Staff (COAS) General Asim Munir on social media and hinted that the Pakistan Tehreek-e-Insaf (PTI) was behind it. He said the vulgar and abusive campaign was a manifestation of digital terrorism and reflected on how the PTI was going out of all limits to harm Pakistan.

He thanked the Saudi, Kuwaiti, UAE and Chinese leadership for helping Pakistan in stabilising its economy. The PM mentioned that the Saudi king is playing a leadership role on the issue of Palestine.

He said "Filthy language is being used on social media against the Pakistan Armed Forces. We will not tolerate this."

He said the previous government left no stone unturned in destroying relations with China. He said: "I was accused of taking a 45% commission in a deal with China. After two years of investigation, the UK National Crime Agency gave me a clean chit."

He said "Without the help of brotherly countries — Saudi Arabia, the UAE and

China — the IMF programme wouldn't have been possible. Chief of Army Staff General Asim Munir made personal efforts for economic development and he played a big role in the revival of IMF plan. The army chief visited a brotherly country and discussed the IMF programme. I hope this will be the last IMF programme."

Hezbollah Confirms Hassan Nasrallah Martyred In Israeli Airstrike

BEIRUT: Lebanon's Hezbollah confirmed on Saturday that its leader Sayyed Hassan Nasrallah was killed and vowed to continue the battle against Israel.

Israel said earlier that it had killed the Hezbollah leader in an airstrike in Beirut's southern suburbs a day earlier, in what would be a devastating blow to the group as it reels from an escalating campaign of Israeli attacks.

Nasrallah's death marks a major blow not only to Hezbollah but also to its alleged backers in Iran. He was a leading figure in the Tehran-backed "Axis of Resistance", helping to project Iranian influence across the Middle East.

Iran, which arms and finances Hezbollah, said a senior member of its Revolutionary Guard Corps was killed in the same strike.

AFP journalists heard a passer-by scream "Oh my God!", and women weeping in the streets after Hezbollah announced the news. Hezbollah said it would continue its battle against Israel "in support of Gaza and Palestine, and in defence of Lebanon and its steadfast and honourable people".

It did not say how Nasrallah was killed. Hezbollah's Al-Manar

TV began airing verses from the Holy Quran after his death was announced.

spokesperson Avichay Adraee wrote in a statement on X.

"Hassan Nasrallah will no longer be able to terrorise the world," the Israeli military said in a post on X on Saturday.

Late on Friday, a source close to Hezbollah told Reuters that Nasrallah was not reachable.

In Tehran, posters of Nasrallah were erected bearing the slogan "Hezbollah is alive".

Iran's foreign ministry spokesman Nasser Kanani posted on X that Nasrallah's "sacred goal will be realised in the liberation of Quds (Jerusalem), God willing".

Earlier, Iran's supreme leader Ayatollah Ali Khamenei condemned what he called Israel's "short-sighted and stupid policy", without referring to Nasrallah's fate. —RT/Agency

Government Likely To Maintain Petrol Prices For The Next Fortnight

ISLAMABAD: The government is likely to maintain the price of petrol from October 1, 2024, for the next fortnight as it has been worked out slightly upward by Rs0.11 per litre. The News reported on Saturday.

Meanwhile, the price of high-speed diesel (HSD) is estimated to decrease by Rs2.11 per litre starting from October 1, 2024.

The government, however, may make slight adjustments in the next fortnight, beginning from October 16, 2024. Previously, the prices of petrol were decreased by Rs10 per litre owing to a drop in fuel rates in the international market during the past fortnight.

The Oil and Gas regulatory Authority (Ogra) has worked out the consumer prices of petroleum products, based on the price variations in the international market," a statement released by the Finance Division read.

The government also reduced the price of HSD from Rs262.75 to Rs249.69 after a reduction of Rs13.06 per litre. Petrol is mainly used in private transportation, small vehicles, rickshaws, and two-wheelers. Higher fuel prices significantly impact the budgets of those belonging to the middle and lower-middle classes, who primarily use petrol for commuting. On the other hand, a significant portion of the transport sector relies on high-speed diesel. Its price is considered inflationary since it is predominantly used in heavy goods transport vehicles, trucks, buses, trains, and agricultural machinery such as tractors, tube wells, and threshers.

The consumption of high-speed diesel particularly contributes to the increased prices of vegetables and other food items. —RT/Agency

The disgraceful face of Zionism has become even more evident with this blatant act," he added. Rehman further prayed for Allah to accept the martyrdom of Nasrallah, expressing hope that his sacrifice would inspire a renewed passion in the fight against oppression. —RT/Agency

Barrister Gohar And Salman Akram Raja Arrested Amid PTI-Police Clashes In Rawalpindi

ISLAMABAD: Violent clashes broke out between Pakistan Tehreek-e-Insaf (PTI) supporters and Punjab Police near Committee Chowk, escalating tensions in the Rawalpindi.

PTI workers forcefully removed police-placed containers on Saturday while chanting slogans and marching towards Liaquat Bagh.

In response, police deployed heavy tear gas shelling to disperse the crowd, leading to confrontations that spread along Murree Road. PTI supporters reportedly threw stones at officers, prompting authorities to call for additional reinforcements.

Amid the unrest, Punjab Police detained PTI Chairman Bairastra Gohar Ali Khan and leader Salman Akram Raja near the H-13 area while they were travelling to Rawalpindi, according to Express News.

Section 144 has been imposed from September 28 to 29, banning gatherings, political rallies, and the display of weapons.

Shortly after their detention, Bairastra Gohar was released, whereas Salman Akram Raja remains in custody. Gohar stated that both he and Raja were stopped at H-13 and instructed to return after a disagreement, preventing them from proceeding to Rawalpindi.

The use of tear gas resulted in canisters falling into nearby homes, causing distress among residents, including women and children. Media personnel covering the protests were also affected by the shelling.

Pedestrians navigating the area were caught in the tense situation as PTI workers from China Market, Ri-alto Chowk, and Committee Chowk gathered on Murree Road. Despite police efforts, workers continued to congregate at Committee Chowk, Murree Chowk, and China Market, forcing some officers to retreat and leading to the arrest of several protesters. The WASA employees said that they had informed the officials but MD didn't heed on it and resultantly the leakage from the cylinder increased and 36 people became victims including 27 school children.

Zahid Khemtio, Managing Director WASA Hyderabad, neither reached the incident location nor visited the victims hospital to inquire the victims health. Chlorine is mixed in water for the purposes of disinfection as chlorine kills or inactivates harmful microorganisms which can cause typhoid, cholera, hepatitis and giardiasis. Unfortunately, chlorine has been providing to water filtration plants but their usage is questionable.

Until it is treated by a potable water treatment process, water is considered raw water. Although raw water is less expensive than treated water, it is dangerous for the health of consumers. Raw water has not been treated and doesn't have any of its minerals, ions particles, or parasites. The residents of Hyderabad has been providing raw water since years from 7 filter water plants.

Two filter plants have been covering population of Qasimabad Tehsil, 3rd Hala Naka Filter Plant covering neighboring population, 4th Hussainabad Filter Plant covering populations of Hussainabad, 5th filter plan Lati-fabad No. 4 covering Lati-fabad populations. Pretabad filter plant covering populations of Pretabad, 7th filter plan is located in SITE area Hyderabad.

Residents of Hyderabad have been crying, protesting, holding sit-in and demanding for the provision of treated water but WASA authorities didn't care of it. It can be assumed that due to negligence of WASA authority and especially MD Zahid Khemtio, Hyderabad District witnessed several diseases. Due to this, hundreds of children, women and elders who have been victims to several waterborne disease. MD WASA turned the issue and responsibilities towards subordinates by suspending XEN and SDO and trying to keep away himself.

NRSP and Population Welfare Dept Discuss Family Planning Initiatives

By Abid Mehmood Ch

TOBA TEK SINGH: A meeting was held regarding family planning, with a focus on changing human behaviors, organized through a joint collaboration between the District Population Office Toba Tek Singh and NRSP District Population Officer Muhammad Naem. Pro-

In-charge NRSP Muhammad Atta, Deputy Director Social Welfare, District Information Officer Muhammad Shahbaz Ansari, DM Dr. Asif, Asif

Shabbir, and stakeholders from the community participated. During a detailed briefing on positive changes in attitudes regarding family planning, it was emphasized that our religion, Islam, also provides guidance on family planning. The goal is to reduce negative impacts on health while contributing to national planning. Increasing population is diminishing the ability to provide basic facilities to citizens. This is also leading to rising unemployment, putting pressure on the national economy. While we have a large workforce, unfortunately, the available jobs are unable to absorb this workforce. Furthermore, the education sector and healthcare system are facing challenges in meeting the growing population's needs. To resolve this critical issue faced by our country, population control must be implemented. In this regard, all stakeholders must play their full role with determination to improve the practical situation of family planning in Pakistan.

Uzma Bukhari: Punjab Police Know How To Handle Individuals Like Gandapur

LAHORE: Punjab Information Minister Uzma Bukhari has stated that the Punjab police know about the treatment for individuals like Khyber Pakhtunkhwa (K-P) Chief Minister Ali Amin Gandapur.

Addressing a press conference with Khawaja Imran Nazir at the Directorate General Public Relations (DGPR) in Lahore, the Punjab minister said that police will ensure the K-P chief minister is taught a lesson, adding that any attempt to destabilise the province will not be tolerated.

Bukhari said that the concerns raised earlier had now materialised, as Gandapur was reportedly using government resources from Khyber Pakhtunkhwa, including ambulances, jammers, and cranes, while entering Punjab.

She questioned whether such preparations were for a public gathering or an attack on the province.

According to Bukhari, Gandapur is bringing armed groups to Rawalpindi, which has been confirmed by the authorities. Alongside armed police

forces, he is allegedly accompanied by his own private security.

Bukhari said that law and order prevail in Punjab, and the use of force or violence would not be tolerated under the guise of democracy.

She questioned calls from the judiciary to allow political rallies, asking whether rallies should be conducted in this manner.

Bukhari further accused Gandapur and his group of seeking violence and stated that previous political maneuvers involving casualties would not be repeated.

She reiterated that Punjab police are well-equipped to handle individuals like Gandapur and prevent any hostile actions in the province.

Additionally, Bukhari questioned why the youth of Khyber Pakhtunkhwa should be sacrificed while Imran Khan's children enjoy a luxurious life abroad. She urged mothers in K-P to ensure their children pursue education instead of being used as fuel for violence and terrorism.

In a separate press conference earlier, Bukhari questioned the use of weapons by political parties during rallies.

She criticised the K-P Chief Minister, Ali Amin Gandapur, for carrying an AK-47, stating that a political leader should focus on resolving public issues rather than inciting violence.—RT/Agency

Three Policemen Injured In Bajaur Explosion

BAJAUR: At least three police officials got wounded in a blast on Saturday after their vehicle hit a bomb planted along the roadside in tehsil Khar of Bajaur district.

The deputy superintendent of police (DSP) said other officials, including the station house officer (SHO), escaped unhurt in the blast incident.

A hunt for the suspects had been launched in the Bhat Cheena area, the DSP added.

Police said the wounded were rushed to the hospital for medical treatment. The attack comes two days after an explosion at a police station on Thursday night claimed the lives of two people, while several others remained injured in Swabi, Khyber Pakhtunkhwa.

District Police Officer (DPO) Swabi Haroon Rasheed had told reporters that the blast occurred in the police station's warehouse room on the first floor, where huge quantity of explosive material recovered from the terrorists from time to time was stored.

The nation has been reeling under rising violent

attacks since the Taliban rulers returned to power in Afghanistan in 2021, particularly in the bordering provinces of KP and Balochistan.

The two most vulnerable provinces saw a sharp rise in deadly attacks last couple of months, according to data from the Pak Institute for Peace Studies (PIPS).

The digital database of security incidents managed by the Islamabad-based think-tank suggested an alarming situation as the number of attacks jumped from 38 in July to 59 in August.

These incidents included 29 attacks in KP, 28 in Balochistan, and two in Punjab. Meanwhile, KP witnessed 25 casualties in the 29 terrorist attacks during August.

To tackle the menace of increasing terrorism in the country, the federal cabinet had approved Operation Azm-e-Istehkam in June this year. The operation is a reinvigorated national counter-terrorism campaign following the Central Apex Committee's recommendations under the National Action Plan to root out terrorism.—RT/Agency

By Syed Mubashir Hussain

In response to urban challenges like crime, traffic congestion, and pollution, the Smart Safe City initiative in Punjab, led by Chief Minister Maryam Nawaz Sharif, aims to create secure and vibrant urban environments. This initiative reflects her commitment to public safety and a Safer Punjab.

Currently operational in Lahore, Nankana, and Kasur, the project has made significant strides in Sialkot and Sheikhupura. Smart Safe City projects have been rapidly launched in major cities like Rawalpindi and Multan, utilizing provincial resources and technology. The Safe City initiative also plays a crucial role in traffic management, implementing an AI-based e-challan system for various violations to promote road safety and reduce congestion. Furthermore, it addresses environmental issues through air quality monitoring.

Chief Minister Maryam Nawaz Sharif announced plans for the Smart District Safe City project across all districts by December 31 and

The Tragedy of a Fake Encounter: A Call for Accountability

The recent revelation of a staged encounter by the Mirpurkhas police, which led to the extrajudicial killing of Dr. Shahnawaz Kumbhar, marks a dark chapter in Pakistan's justice system. This incident, fueled by baseless blasphemy accusations, reflects the deeply ingrained culture of impunity within our law enforcement agencies. The inquiry report that surfaced due to relentless public outcry has confirmed that the Mirpurkhas police, in a shocking breach of trust, fabricated an encounter to legitimize their unlawful actions.

Such incidents are not isolated; they point to a systemic failure where police officers resort to fake encounters to cover up their inadequacies in building proper legal cases.

Rather than protecting the public, they inflict unimaginable pain on innocent lives. This mockery of justice cannot be tolerated in a society that aspires to uphold the rule of law.

The fact that high-ranking officers, including DIG Javed Jaskani and SSP Asad Chaudhry, are implicated in this crime is

alarming. These are the very individuals who are supposed to uphold justice, yet they have turned their back on it. Accountability is non-negotiable. Those responsible for the death of Dr. Shahnawaz must face the full force of the law.

Extrajudicial killings are a gross violation of human rights and serve to erode public trust in the police. It is imperative that the government takes decisive action to dismantle this culture of encounters and ensure that law enforcement officers operate within the boundaries of the law. Only then can we restore faith in our justice system and prevent such tragedies from occurring again.

Sri Lanka sniff series victory as New Zealand trail by 315 after follow-on

GALLE: Sri Lanka launched a ruthless spin attack which powered them to move five wickets away from a resounding victory over New Zealand in the second Test. The touring side were 199/5 at the Stumps on Day 3, still trailing by 315 runs after the home side imposed a follow-on, having booked them on a meagre 88 in the first innings. Wicketkeeper batter Tom Blundell was unbeaten on 47 and Glenn Phillips on 32 when bad light forced an early close to an eventful day of action at the Galle International Stadium. The touring side had a shaky start to their second

innings as experienced opener Tom Latham bagged a six-ball duck in the first over. Devon Conway was joined by second-ranked Test batter Kane Williamson and together they raised a fighting 97-run partnership for the second wicket. Dhananjaya de Silva broke the threatening partnership by getting rid of Conway, who scored 61 off 62 balls. Williamson soon followed suit as he fell victim to Nishan Peiris after scoring 46 off 58 deliveries. The touring side slipped further to 121/5 with Daryl Mitchell (1) and Rachin Ravindra (1) perishing cheaply before Blundell and Phillips hung on. Earlier in the day, New Zealand resumed their first innings at 22/2 with skipper Williamson and nightwatchman Ajaz Patel. New Zealand's batting unit struggled against a ruthless Sri Lanka spin attack with their best partnership being 20 runs, added by the last pair of Mitchell Santner, who top-scored with a gritty 29 and William O'Rourke (2). Prabath Jayasuriya was the star with the ball for Sri Lanka, taking six wickets, followed by debutant Peiris, who bagged three. —Agency

Argentina goalkeeper Martinez banned for 'offensive behaviour'

ARGENTINA: Argentina's World Cup-winning goalkeeper Emiliano Martinez has been banned for two matches by FIFA for "offensive behaviour", the Argentine Football Association (AFA) announced on Saturday. The 32-year-old Aston Villa star was also found guilty of "violating principles of fair play" in two separate episodes. Martinez was found to have violated FIFA's code of conduct when holding a replica of the Copa America trophy to his groin after the World Cup qualifier win over Chile on September 5. It is not the first time Emiliano Martinez has performed such an action having also done it with the Golden Glove trophy for best goalkeeper after Argentina beat France on penalties in the 2022 World Cup final. FIFA also sanctioned him for hitting a TV cameraman's camera with his gloves after their 2-1 defeat by Colombia on September 10. The AFA expressed their dissatisfaction with the FIFA ruling. "It should be noted that the Argentine Football Association expresses its absolute disagreement with the decision taken by the FIFA disciplinary committee," they said in a statement. As a result of the decision Emiliano Martinez - also a key member of the Argentina side that won the Copa America in July, as well as the 2021 edition - will miss the World Cup qualifiers against Venezuela on October 10 and Bolivia on October 15. Argentina are top of the South American qualifying table with 18 points after eight matches. Colombia are just two points behind. —Agency

Gandapur Returns To Peshawar As PTI Calls Off Rawalpindi Protest Following Police Clashes

RAWALPINDI: Firebrand Khyber Pakhtunkhwa (KP) Chief Minister Ali Amin Gandapur has headed back to Peshawar as Pakistan Tehreek-e-Insaf's (PTI) protest at Rawalpindi "called off" after violent clashes with police near Liaquat Bagh.

The Gandapur-led convoy was stuck at the interchange hours due to closure of roads as the authorities have placed containers at Burhan Interchange in an attempt to thwart PTI's protest.

Addressing the participants, the KP chief executive directed them to return back to Peshawar and castigated the government for not granting PTI its "constitutional right".

He regretted that the police fired tear gas and rubber bullets at the protesters, vowing that they will come back with "all resources".

"They [police] have set a precedent of firing bullets [...] We also have guns," he warned.

The firebrand politician noted that the allocated deadline for holding protest in Rawalpindi has ended.

However, Gandapur's announcement drew strong opposition from the protesters as they refused to return back. The PTI workers chanted slogans against the KP chief minister and party leadership and surrounded their vehicles.

Earlier, clashes broke out between the PTI workers and police near Rawalpindi's Liaquat Bagh ahead of its planned protest as the garrison city was put on high alert.

The Punjab government has imposed Section 144 of the Code of Criminal Procedure (CrPC) in Rawalpindi Division for two days, banning all political gatherings, sit-ins, rallies, protests and similar activities.

PTI had initially planned to hold a public rally at Liaquat Bagh, but shifted the event to a demonstration following directives from PTI founder Imran Khan.

It also withdrew its application seeking a no-objective certificate (NOC) to hold a rally from the Lahore High Court Rawalpindi bench.

PTI Chairman Barrister Gohar Ali Khan and Salman Akram Raja were also detained in their way to Rawalpindi near Sector H-13 only to be released shortly.

In a statement issued earlier, the PTI said Gohar and Salman were travelling to Rawalpindi when the police stopped their vehicle near Sector H-13 and took them into custody.—RT/Agency

Pakistan Rejects India's Allegations At UN Forum As Baseless And Misleading

NEW YORK: Responding to India at the debate titled "Leadership for Peace" and held under the United Nations Security Council (UNSC), Permanent Mission of Pakistan to the UN termed New Delhi's allegations against Pakistan baseless and misleading.

"India continues to paddle a false narrative on this forum, relying on tactics of denial, distortion and deflection," Pakistan Counsellor Gul Qaiser Sarwani stated.

India continued to sponsor terror activities not against just Pakistan but also in other countries, he said, adding that for decades, India had been the primary perpetrator, supporter and financier of terrorism.

Referring to Indian intelligence agency, Research and Analysis Wing (RAW), as a terrorist franchise, he said it had gone global with assassinations and attempted murders of political dissidents on North American soil.

Earlier this month, General Counsel of pro-

Khalistan group Sikhs for Justice (SFJ), Gurpatwant Singh Pannun, through his attorneys, had filed a civil lawsuit in the US Federal District Court against the Government of India and senior RAW officials for their "unprecedented attempt to assassinate a US citizen on US soil".

Legal action has been initiated at United States District Court, New York, by Pannun and his lawyers against the Indian government and senior officials of Indian intelligence agency — namely, Ajit Doval, Samant Goel, Vikram Yadav and Nikhil Gupta.

The complaint alleged that senior officials at India's spy agency RAW, which report directly to India's Prime Minister Narendra Modi, engaged weapons trafficker and RAW agent Nikhil Gupta to hire assassins in the US to murder Pannun in New York. This scheme was foiled when the hitmen Gupta hired turned out to be undercover federal agents.

The Pakistan counsellor said India's sponsorship of terrorist organisations such as Tehreek-e-Taliban Pakistan (TTP) and the Balochistan Liberation Army (BLA) had led to the loss of thousands of in-

nocent Pakistani lives. Sarwani said Pakistan had shared irrefutable evidence of India's involvement in terrorism with international community.

"The arrest and conviction of Kulbushan Yadav, a serving Indian naval officer and an operative of India's intelligence agency RAW, is irrefutable evidence of India's state sponsored terrorism against Pakistan including targeted assassinations," he said.

"India must end its state sponsored terrorism, cease its illegal occupation of Jammu and Kashmir and fulfil its obligations under international law," the counsellor demanded.

Sarwani said the UNSC through numerous resolutions had called for a free and impartial plebiscite to enable the people of Jammu and Kashmir to exercise their inalienable right to self-determination.

"Under Article 25 of the UN Charter, India is obligated to implement these resolutions. However, instead of honouring

its obligations, India has chosen the path of repression," he added.

The Pakistan counsellor apprised the forum that India had deployed nearly one million soldiers in Jammu and Kashmir to suppress the Kashmiri's legitimate right.

He said Prime Minister Shehbaz Sharif shed light on those facts, which might be uncomfortable for India but it remained the truth which India could not deny.

"India has once again resorted to the tactic of deflecting global attention from its own terror activities by raising baseless accusation of terrorism. It is ironic that the country which uses terrorism as an instrument of state policy against its neighbours attempts to point fingers at others," he maintained.

However, these distortions could not alter the reality that Jammu and Kashmir was an internationally recognised territory, he said.—RT/Agency

COAS Munir Prioritizes Resolution Of Traders' Issues

KARACHI: Chief of Army Staff Gen Syed Asim Munir met with the renowned businessmen of the city and discussed different facets of the country's economy.

During his visit, the COAS invited the traders to work hand in hand with Special Investment Facilitation Council (SIFC) for the betterment of the country's economy.

The ISPR said the COAS visited Karachi and met with business leaders to discuss important issues problems related to the economy.

Speaking to the business leaders, he said: "A year ago, I told you all not to despair, as despair is a sin. Never give up hope for the prosperity of Pakistan," adding that joint efforts have helped defeat attempts to create despair within society.

He mentioned the coun-

try's exceptional capabilities in various sectors, reiterating that the country seeks to secure its rightful place on the global stage through its own resources.

General Munir also praised the role of Pakistan's foreign allies, especially China, Saudi Arabia, and the United Arab Emirates, for their contributions to the country's economic recovery.

"Google, Starlink and

other international companies are investing in Pakistan," the army chief announced.

He also mentioned that these positive developments could not have been possible sans the indefatigable role of the business community.

Moreover, the COAS assured the traders of the city that their challenges and concerns would be addressed on priority.—RT/Agency

Supreme Court To Announce Election Tribunals Case Judgment On September 30

ISLAMABAD: The Supreme Court of Pakistan is to announce the judgment of the Election Tribunals case on September 30.

The top court earlier reserved the judgment on Tuesday. The court had also ordered the Election Commission of Pakistan (ECP) to make the tribunals functional.

The Chief Justice led a five-member bench that heard the case of the ECP appeal.

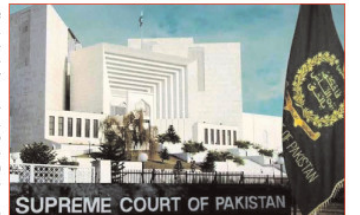

During the hearing, CJF-Isa remarked "I am tired of requesting again and again.

Talal Chaudhry Criticizes Elements Engaged In Vitriolic Politics

FAISALABAD: Pakistan Muslim League (PML-N) leader Talal Chaudhry said that some elements believe in the politics of vitriol.

These factions are undermining the country's progress and stability, Talal said.

Speaking to the media in Faisalabad, Talal stated there would be no leniency for such people. He alleged that Pakistan Tehreek-e-Insaf (PTI) is troubled by the nation's development and seeks to damage relations with friendly countries. He also condemned the spread of malicious campaigns targeting national institutions.

The PML-N praised Prime Minister Shehbaz Sharif's recent address at the United Nations General Assembly, where the PM highlighted the Kashmir issue and called out atrocities by Israel and India, reflecting the sentiments of the Pakistani people.

The PML-N leader criticised the PTI for creating unrest in Punjab, accusing the party of import-

ing armed protestors and demanding an NRO. He warned that corruption under the guise of protest would not be tolerated.

Talal further stressed that government initiatives are leading to economic recovery, with international organisations recognizing Pakistan's improving financial outlook.—RT/Agency
