Ahsan Iqbal Vows To Tackle MQM-P's Uproar Over Controversial Constitutional Amendments

KARACHI: Pakistan Muslim League - Nawaz (PML-N) leader and Federal Minister for Planning, Development and Reform, Prof Ahsan Iqbal, has said that he arrived in Karachi on the Prime Minister's directives, where Muttahida Quami Movement-P (MQM-P) was taken into confidence regarding the proposed constitutional amendments.

He assured that any concerns would be addressed.

Speaking at a joint press conference with MQM-P, Ahsan Iqbal remarked that no democratic party can oppose these amendments.

He stressed that parliamentary affairs should not be dictated by judicial rulings, as political decisions by courts can lead to instability in the country.

Ahsan Iqbal criticised the judiciary for its involvement in political matters, stating that the removal of governments through Article 58-2(b) ended with its repeal, but the courts began intervening again. He emphasised that the judiciary should remain separate from political affairs.

He further remarked that Pakistan's development journey was halted when the PML-N government was ousted. He accused the judiciary of overreaching its authority, referencing the dis-

qualification of Nawaz Sharif and the dismissal of Hamza Shehbaz's government by a few judges.

The federal minister also criticised the Pakistan Tehreek-e-Insaf (PTI)'s governance, claiming it pushed the country to the brink of bankruptcy. He appreciated MQM-P's support over the past 26 months, acknowledging their role in backing the government.

MQM-P leader Khalid Maqbool Siddiqui stressed the importance of working together in the future. He highlighted that their discussions covered constitutional amendments, Article 140-A, missing persons, and independent power producers (IPPs).

Earlier, PML-N and MQM delegations met, where Federal Law Minister

ISLAMABAD: Deputy Prime Minister and Foreign Minister Mohammad Ishaq Dar on Sunday urged the Pakistan Tehreek-e-Insaf (PTI) to withdraw its October 15 protest call in the "larger national interest".

The deputy PM remarks came as the country is all set to host Council of Heads of Government (CHG) of Shanghai Cooperation Organisation (SCO) meeting slated to be held on October 15 and 16 in Islamabad wherein significant issues would be discussed under the SCO framework.

Talking to journalists after his visit to review arrangements for the upcoming CHG-SCO meeting, Dar said that for the sake of politics, it was not good for the political party that had been repeating the same scenario of 2014. Due to their protest,

Chinese president's visit had been postponed.

It had already crossed all the red lines in the past and attacked the state institutions, Dar observed and stressed upon its leadership to rectify its wrong decision. The deputy PM said that certain countries had requested for bilateral meetings on the sidelines of the CHG-SCO which were finalised.

Afghanistan had neither been invited to nor participated in SCO meetings.

Therefore, he said, Pakistan could not take decision alone in this regard as the decisions were taken on the SCO forum by the member states.

Dar, to another question, said Pakistan is a host to CHG-SCO and would fully meet the responsibility.

About the North-South and South-South connectivity, he said the discussions with the relevant countries were in progress and continuing on the bilateral and multilateral levels. But within the SCO framework and protocol, certain matters would be discussed under specific scope of discussions and within its contours, he further clarified. He said that the entire region required integration

and peace and it was the core objective of the PML-N leadership including former prime minister Muhammad Nawaz Sharif, besides it was also included in the PML-N manifesto.

He enumerated the incumbent government's efforts to bring down inflation ahead of the target set for the next year.

Dar advised those quarters who had been claiming that Pakistan was in diplomatic isolation to reassess their projections as Pakistan had become a hub of regional trade and investment and referred to the recent visits of Malaysian premier and the Saudi delegation.

With the SCO member states, matters related to the trade and commerce had also been discussed continuously, he added.—RT/Agency

Government Urges PTI To Ditch October 15 Protest 'For The Sake Of National Unity'

Crackdown Begins: Over 35 PTI Activists Detained In Lahore Ahead Of Planned Protests

LAHORE: In the much-anticipated protest of the Pakistan Tehreek-e-Insaf (PTI) scheduled for October 15, Lahore Police have intensified their efforts and arrested more than 35 party activists from various locations across the city, media reported on Sunday.

As per the details, the Punjab police conducted raids in several areas, including Defence, Kot Lakhpat, and Johar Town, targeting individuals believed to be involved in organizing the protest.

The police operation is part of a broader strategy to maintain order and prevent any disruptions as Pakistan is set to host the 26th Shanghai Cooperation Organization (SCO) Summit on October 15-16.

PTI leadership has announced the protest to voice concerns regarding political grievances, which has heightened tensions between the party and law enforcement agencies.

In light of these developments, police officials have emphasized their commitment to ensuring public safety while also respecting citizens' rights to protest.—RT/Agency

PTI Torn Apart By Internal Rift Over Bold Protest Plans Amid Critical SCO Summit

ISLAMABAD: PTI Chairman Barrister Gohar Ali Khan and Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur are among the minority in the Pakistan Tehreek-e-Insaf (PTI) political committee who are against holding a protest at D-Chowk on October 15.

Saner elements in PTI are trying to get the protest call withdrawn. They believe it is not in the interest of Pakistan to hold such a protest on the occasion when many foreign dignitaries will be attending the Shanghai Cooperation Organization (SCO) summit in the capital city.

Asad Qaiser, Hamid Khan and Raouf Hasan are also among the minority that believe it is not in the interest of Pakistan to hold such a protest. Ali Muhammad Khan though not a part of the PTI's political committee, is also upset with the protest call for October 15.

PTI sources have said that Shehbaz Gill, Hamid Azhar, Khalid Khurshid and Hafiz Farhat are leading the hawkish elements, who prevailed in pursuing the political committee to give a call for protest at the D-Chowk Islamabad for October 15 — the first day of the two-day SCO summit.

It sounds unbelievable but

a source said a person like Salman Akram Raja also supported the hawkish elements and endorsed the idea of protest in the Red Zone at a time when the SCO leadership would be meeting within a few kilometres from the protest site. The lawyer could not be reached for comments.

As against him, CM Gandapur, who in public appears aggressive, voted against the PTI protest on the occasion of the SCO summit.

Murad Saeed is not a member of PTI's political committee, but he is reportedly the first one to post on "X" about the protest call. The sources noted that the likes of Gill and Azhar use the party's social media to target those in the party who resist decisions like holding a protest at the D-Chowk on October 15 and boycotting the All-Parties Conference.

Those who are trying to

get the protest call withdrawn fear any untoward incident or any clash between the PTI supporters and law-enforcing agencies will not be in the interest of Pakistan. It may hurt the SCO summit and upset the high-profile foreign guests, including heads of government.

Three PTI leaders contacted by media, on condition of not being named, said they are trying their level best to call off the October 15 protest in the interest of Pakistan and to pay respect to visiting dignitaries. One of these leaders said the ordinary voters of PTI are not happy with the protest call on the occasion of the SCO summit. The source said many people may not join the protest. He, however, admitted even if it is successful, the protest will be in conflict with the interests of Pakistan.—RT/Agency

Economists Warn: PTI Protest During SCO Summit Could Jeopardize Pakistan's Economic Future

ISLAMABAD: Businessmen and economic analysts on Sunday expressed grave concerns over Pakistan Tehreek-e-Insaf's (PTI) call ahead of the highly anticipated Shanghai Cooperation Organisation (SCO) summit, urging the party leadership to reconsider and postpone their decision.

As the foreign dignitaries are set to arrive in Islamabad to attend the SCO moot, the former ruling party had announced holding another protest at the federal capital's D-Chowk on October 15.

PTI spokesperson also announced that all district-level protests were suspended given the forthcoming demonstration in the federal capital next week.

The Imran Khan-founded party had launched a series of protests for the "independence of the judiciary" — as the government aims to introduce constitutional amendments — and for the release of its founder, jailed at Rawalpindi's Adiala Jail for more than one year.

Talking to state news

channel PTI, economists slammed PTI's protest call during the SCO summit as "self-destructive," citing concerns over economic instability and damage to Pakistan's global image.

The business community in Islamabad stressed that the SCO conference was an important platform to promote regional economic cooperation and hoped that PTI would reconsider the decision to protest for the country's national interest.

Renowned economist Dr Noor Fatima said: "This move will undermine Pakistan's credibility in the international community. We

need to focus on economic diplomacy, not political posturing."

"The SCO conference is an opportunity to strengthen our ties with regional countries," she emphasised. Another analyst, Mirza Ikhtyar Baig warned that PTI's call may jeopardise the country's chances of benefiting from this platform.

The SCO conference is critical for Pakistan's economic revival. The protest call will only create uncertainty and deter foreign investors," he said, adding that Pakistan needs to showcase its "economic potential, not its political divisions."—RT/Agency

Asad Qaiser Pledges PTI's Support For SCO Summit, Despite Internal Protest Chaos

ISLAMABAD: Former speaker and PTI leader Asad Qaiser said that his party was not intending any harm to the SCO Conference in Islamabad.

"We have concerns over the health of the PTI's founder, no doctor being sent to attend him, we want the party leaders' contact with the chairman," Asad Qaiser said. It is to be mentioned here that the PTI has announced protest on October 15 during the SCO summit in the federal capital. PTI leader alleged that the kidnapping for vote being practiced for passing proposed constitutional amendments' bill.

"The government's behaviour has been condemnable," he said. "We are not against the legislation but won't accept any legislation by force," he added. FAFEN Calls For Urgent Political Consensus On Essential Constitutional Overhauls

ISLAMABAD: The Free and Fair Election Network (FAFEN) has urged political parties to engage in transparent and comprehensive negotiations on proposed constitutional reforms in Pakistan, media reported on Sunday.

Addressing critical weaknesses in the current constitution, Fafen emphasized the need for wide-ranging amendments to strengthen the legislative, electoral, and local government systems.

Fafen highlighted that the ongoing political instability in Pakistan stems from constitutional deficiencies and urged immediate reforms to empower Parliament as the ultimate protector of public interests.

The organization called for amendments focused on enhancing parliamentary authority, ensuring that Parliament plays a central role in safeguarding citizens' funda-

mental rights. Fafen's proposal also stresses the need for public scrutiny in the appointment of constitutional officeholders and recommends empowering the Election Commission to oversee elections for all such offices.

Additionally, they proposed that future reforms address key issues of representation in the electoral system, calling for the Election Commission to have the authority to manage elections in the Senate to prevent conflicts

like the one in 2021. Fafen also called on political parties to put aside personal and communal differences and prioritize the larger national interest, emphasizing that a strong, independent Parliament is essential for safeguarding democracy and citizens' rights.

The organization reiterated the importance of consensus-building on these reforms to ensure political stability and good governance in Pakistan.—RT/Agency

PTI Must Act Responsibly And Let The SCO Summit Shine

As Pakistan gears up to host the Council of Heads of Government (CHG) of the Shanghai Cooperation Organisation (SCO), an event of critical importance for regional cooperation, it is deeply concerning that the Pakistan Tehreek-e-Insaf (PTI) plans to stage protests during the summit. While the right to peaceful protest is an essential part of democracy, there is a time and place for everything, and PTI must recognize that its actions could jeopardize the nation's image and interests on the international stage.

Deputy Prime Minister Dar has rightly called on PTI to show restraint and with-

draw their October 15 protest call. With leaders from China, Russia, and other regional powers arriving to discuss trade, connectivity, and cooperation, the summit offers a rare opportunity for Pakistan to present itself as a hub of stability and progress. Disruptions, as seen in the past, only serve to reinforce a narrative of unrest, potentially deterring future investments and diplomatic engagements.

The memories of the 2014 protests, which

led to the postponement of the Chinese president's visit, should serve as a stark reminder of the potential repercussions. PTI should learn from history and act with maturity, putting the nation's interests above political differences. The government has already taken extensive security measures, even declaring public holidays, to ensure a smooth event.

It is time for PTI to demonstrate political wisdom, defer their protests, and allow Pakistan to shine on this significant platform. The world is watching, and the stakes are too high to let political strife overshadow this golden opportunity.

He urged citizens not to lose hope, suggesting that a savior will eventually rise to strengthen Pakistan. Shabbir Qaimkhani remarked that Pakistan has now been in existence for 75 years, during which it has repeatedly faced

crises. He acknowledged the difficult conditions in Khyber Pakhtunkhwa and Balochistan, but expressed gratitude to the military and other institutions that sacrifice their lives for the nation, ensuring its stability.

He conveyed a message of solidarity with those suffering from inflation and unemployment, criticizing the Pakistan People's Party's governance over the past 16 years and stating that the performance of the party is evi-

dent. Shabbir highlighted the disappointment among the people of Sindh, particularly the youth in rural areas, who are largely struggling except for a few who may have benefited during this time.

MQM aims to address these challenges by seeking employment for the unemployed, improving conditions in hospitals and schools, and working diligently at the federal level to enhance the performance of the party is evi-

Fakhar Zaman Fiercely Defends Babar Azam After England Test Squad Omission Sparks Outrage

LAHORE: Pakistan's white-ball batting mainstay, Fakhar Zaman, has defended star batter Babar Azam, who was dropped from the squad for the upcoming two Test matches against England.

Earlier today, the newly appointed selection committee announced the squad for the upcoming second and third Test matches, which will be played in Multan and Rawalpindi on 15 and 24 October, respectively.

The Pakistan Cricket Board (PCB) revealed the squad through a press release on their official website.

"Taking into consideration the current form and fitness of key players and looking ahead to Pakistan's future assignments in the 2024-25 international cricket season, the selectors have decided to give rest to Babar Azam, Naseem Shah, Sarfaraz Ahmed and Shaheen Shah Afridi. Abrar Ahmed (who is recovering from dengue fever) was unavailable for selection," the statement said.

"The four players have been replaced by Haseebullah, Mehran Muntaz, Kamran Ghulam (all uncapped), fast bowler Mohammad Ali and off-spinner Sajid Khan. "Noman Ali and Zahid Mehmood, who were initially part of the original first Test squad but were subsequently released, have also been included in the 16-player squad." Fakhar Zaman took to his official X (formerly Twitter) account and expressed his disappointment over the suggestions to drop Babar. He cited the example of how India treated Virat Kohli during his rough phase from 2020 to 2023. "It's concerning to hear suggestions about dropping Babar Azam. India didn't bench Virat Kohli during his rough stretch between 2020 and 2023, when he averaged 19.33, 28.21, and 26.50, respectively," Fakhar posted. The two-hour-long meetings came after the national side suffered their sixth consecutive loss in the red-ball format wherein they crumpled against England's 823-run mammoth total, which resulted in a defeat by an innings and 47 runs in the first Test at the Multan Cricket Stadium. Ariana Grande has seemingly taken a dig at Celine Dion by impersonating the legendary singer during a sketch on Saturday Night Live.

Grande showed off Dion's impersonation as she played the singer's role as a spokesperson for UFC during the sketch.

The 31-year-old singer performed the 56-year-old singer's It's All Coming Back to Me Now with additional lyrics. Grande while mimicking Dion said, "Football, it is a sport that connects who are to who we were."

She continued, "That is why last week, I, Celine Dion, made a promo for Sunday Night Football, OK?"

"But football isn't the only sport that connects to us in the past... there is another sport whose timeless emotion ignites the bittersweet memories that live inside my soul and the octagon." Then the 7 Rings singer sang, "There was breaking of bones and there were knees to the balls." The segment of Grande impersonating Dion comes just after a day when the My Heart Will Go On hitmaker was accused of lip-syncing her performance at the Paris 2024 Olympics live performance. The performance, which was held in August, was recently released for TV where the 56-year-old singer was said to be performing a pre-recorded set. Moreover, Paris 2024 officials have not responded to any such claims as the allegations escalate in response to the promise they made that the show would be completely live.

Kanye West Sued By Former Assistant For Allegedly Raping, Drugging Her At Diddy Party

Kanye West's former assistant has filed a lawsuit, accusing him of drugging and sexually assaulting her during a studio session he co-hosted with Sean "Diddy" Combs. Lauren Pisciotta, who was employed by West from 2021 to 2022, claims in an amended complaint obtained with a "former artist management client."

Pisciotta's allegations are an extension of her earlier wrongful termination lawsuit against West, in which she alleged she was subjected to explicit messages, pornographic images, videos, and phone calls from him before she was fired. She began working with West in July 2021 to assist with his Yeezy women's fashion line and collaborate on his 2021 album, Donda.

According to the filing, Pisciotta woke up the next day "feeling physically ill and confused" and experienced "immense shame and embarrassment" for not being able to recall what happened after drinking at the studio session.

Iran Vows "No Red Lines" In Defense Before Israel's Expected Retaliation

Baghdad: Iran's top diplomat vowed Sunday there would be "no red lines" for the country in defending its people and interests, ahead of Israel's expected retaliation for Iran's recent missile attack.

"While we have made tremendous efforts in recent days to contain an all-out war in our region, I say it clearly that we have no red lines in defending our people and interests," Foreign Minister Abbas Araghchi wrote in a post on X.

Iran fired 200 missiles at Israel on October 1 in what it said was retaliation for the killing of Tehran-aligned operator leaders in the region and a general in Iran's Revolutionary Guards. Israeli Defense Minister Yoav Gallant has vowed Israel's response will be "deadly, precise, and surprising."

Araghchi was in Baghdad to discuss the wars in Gaza and Lebanon with Iraqi officials, according to the ministry. Ali al-Moussawi, political advisor to the Iraqi prime minister, told AFP Araghchi's visit was part of a diplomatic effort "to silence weapons and violence... to establish security and stability in the region."

After Baghdad, Araghchi will head to Oman, the Iranian ISNA news agency reported. On Thursday, Araghchi was in Qatar where he met Prime Minister Sheikh Mohammed bin Abdulrahman Al Thani over the wars in Gaza and Lebanon.—Agency

Lebanon Conflict Forces Expectant Mothers To Flee, Risking Premature Births

Beirut: Tahani Yassine was in her third trimester of pregnancy when she chose to return to her hometown of Beirut to deliver her baby. Living in Equatorial Guinea with her husband and three young children, she had more faith in the Lebanese healthcare system.

But just a few days after her arrival in Beirut, Yassine began to regret her decision. Israel intensified its military campaign in Lebanon, targeting Hezbollah strongholds in the south, the Bekaa Valley in the east and the southern suburbs of Beirut, closer to her home. Although her area wasn't directly hit, the strikes were unnervingly close, and the boom of Israeli warplanes breaking the sound barrier overhead filled her with fear.

Beyond Blood Ties: The Lost Bonds Of The Heart

By Nisar Banbhan

place I seldom returned to. But this journey, swaying in the tanga, felt different—it carried the weight of meaning. Sharing the ride were two others: a curious young boy and an old man who stared thoughtfully at the flowing canal. Breaking the silence, the boy asked, "Baba, what's the difference between a connection and a relationship?" The old man, still gazing at the water, turned slowly and answered with a wisdom that struck deep. Through their conversation, it became clear—connections—like family ties—are inevitable, but true relationships are nurtured through time, care, and love. As we rolled forward, their exchange resonated with me. So many of us are connected by blood, yet we are distant, leaving behind the people and places that raised us. In a rush to build new lives, we forget the quiet sacrifices of those who stayed behind. In that brief journey, I understood the profound difference between being connected and truly relating.

Sharjeel Accuses Imran Khan And Israel Of Plotting To Undermine SCO Conference

KARACHI: Provincial Minister Sharjeel Inam Memon has accused Imran Khan, founder of the Pakistan Tehreek-e-Insaf (PTI), of attempting to sabotage the Shanghai Cooperation Organisation (SCO) conference through alleged connections with Israel.

In a press conference, Memon claimed that Khan's political actions were not in Pakistan's interest but rather aimed at protecting Zionist agendas. He suggested that Khan's ties to Tel Aviv were part of a larger conspiracy by adversarial forces to destabilize the SCO.

Memon characterized the PTI-Israel alliance as a significant compromise of Pakistan's national interest, recalling instances where Khan allegedly conspired to jeopardize relations with China during a visit by the Chinese president.

He asserted that PTI's leadership was following anti-Pakistan agendas backed by foreign entities,

placing their interests above the nation's security and sovereignty. Memon alleged that PTI's think tank was operating from Tel Aviv and actively plotting against Pakistan.

Highlighting that key policy advisors of PTI were based in Israel, Memon claimed the party received directives and support from Tel Aviv, with Israeli handlers engaged in international lobbying for PTI. He further noted that foreign support aimed to incite political instability within Pakistan and hinder its economic and diplomatic progress.

Memon cited Zac Goldsmith's endorsement of Pakistani-origin Sadiq Khan for London mayor as evidence of the PTI-Israel alliance. He also pointed out that PTI's absence from an All-Party Conference (APC) opposing Israeli aggression in Palestine further exposed this partnership.

He concluded by stating that figures like Goldsmith promote an anti-Pakistan narrative that aligns with PTI interests, suggesting that conspiracies against the country's institutions are being orchestrated with backing from Israel.—RT

Mustafa Kamal Raises Concerns Over PTI's Planned October 15 Protest

KARACHI: Mustafa Kamal, a senior leader of Muttahida Qaumi Movement-Pakistan (MQM-P), has voiced his concerns about the potential consequences of Pakistan Tehreek-e-Insaf's (PTI) planned protest on October 15 at D-Chowk, Islamabad.

Speaking at a press conference in Karachi, Kamal emphasized that the survival of politics and democracy in the country depends on the existence of a stable state. He noted that while political dissent is natural, it must not come at the cost of national integrity and unity.

"The economic challenges Pakistan faces are well-known," Kamal said. "The government and state institutions are working hard to stabilize the situation. PTI's protest plan is not in the country's best interest at this critical time."

Kamal also expressed MQM-P's support for constitutional amendments to address PTI's grievances but advised the party to adopt a more constructive approach.

He cautioned that PTI's actions could further alienate them and tarnish their image, particularly when they are accused of being anti-state.

"PTI is a popular political party, but they need to act responsibly," he remarked. "I urge them to reconsider their protest and work within the political framework. We have no hostility towards PTI and are always open to dialogue."

Drawing comparisons with the unrest in countries like Iraq, Libya, and Syria, Kamal warned of the dangers of destabilizing state institutions, particularly the military. He

cited the chaos and violence that erupted in those nations after the destruction of their armies, turning them into lawless states where armed groups took control.

Reflecting on the May 9 unrest in Pakistan following Imran Khan's arrest, Kamal said, "The events of May are well-known, and while we have remained silent on them, PTI's protest plans compel us to speak out now. PTI must understand that their actions affect the entire state, not just their party."—RT/Agency

Business Leaders Call For Major Interest Rate Cut To Boost Economy

KARACHI: Business leaders and traders have urged the State Bank of Pakistan (SBP) to lower interest rates to single digits to stimulate economic growth and end the ongoing economic stagnation.

Majid Aziz, former president of the Karachi Chamber of Commerce and Industry (KCCI), praised recent rate cuts but stressed the need for further reductions to drive private sector investment. He noted that lower rates would encourage businesses to invest in machinery, expand operations, and improve production.

Muhammad Saleem Memon, President of the Hyderabad Chamber of Small

Traders, echoed the call for rate cuts, highlighting the negative impact of high borrowing costs on small businesses. He urged the SBP to align its policies with global trends to spur industrial output and job creation.

KCCI President Muhammad Jawed Bilwani and PRAC Chairman Mohammad Younus Dagha also

pressed for a 300-basis-point rate reduction, citing a decline in inflation and stabilizing commodity prices. They argued that this move is crucial for reviving large-scale manufacturing and alleviating pressure on businesses, particularly as the sector continues to struggle with high interest rates and limited access to credit.—RT/Agency

Murad Issues Guidelines For 2025-26 ADP Preparation

KARACHI: Sindh Chief Minister Syed Murad Ali Shah has released guidelines for the formulation of the Annual Development Program (ADP) for 2025-26, urging all government departments to align with current economic conditions and federal policies.

The directives, issued through the Planning & Development (P&D) department, emphasize a focus on sectoral priorities and socio-economic impacts. Mr. Shah instructed departments to ensure that proposed projects contribute to measurable outcomes in line with the government's development strategy.

Departments must adhere to the federal Public Sector Development Program

Mr. Shah mandated that 80% of the development budget be allocated to ongoing schemes, stating that projects expected to be completed by June 2025 should adhere to their original plans. He also directed departments to allocate remaining funds to projects that have utilized over 70% of their budget to en-

sure completion in FY 2025-26.

The Chief Minister highlighted the need for counterpart funding for international projects and called for adjustments in the ADP to address recovery from the 2022 floods. He encouraged the identification of new projects under the Public Private Partnership (PPP) model, aligning them with national objectives like the Sustainable Development Goals (SDGs).

Shah urged the use of current data sources, such as the Multidimensional Poverty Index (MPI) and Population Census, to establish baselines and quantifiable targets for new projects. He in-

structed departments to begin the approval process for new schemes by October 2024, aiming for completion by March 2025 to ensure inclusion in the ADP.

The Chief Minister reiterated that any incomplete schemes approved before FY 2018-19 should either be finalized with the available budget or revised for realistic costs and scopes.

The provincial government remains focused on long-term socio-economic development and recovery efforts amid ongoing economic challenges. "These guidelines provide a structured approach for the 2025-26 ADP," concluded the CM.—RT

Pakistani Airlines Set To Resume Flights To UK, EU And US

KARACHI: Pakistan's aviation sector is on the verge of a major transformation, with reports indicating that direct flights to the UK and EU may soon resume.

The UK Department for Transport (DfT) is expected to send a safety assessment team to Pakistan, followed by a security evaluation of key airports. This could pave the way for Pakistani airlines, such as Pakistan International Airlines (PIA) and Airblue, to restart flights to the UK.

Upon successful completion of these assessments, airlines like Serene Air may also receive clearance for direct flights to Europe. This development is crucial for lift its ban on Pakistani airlines.

Restoring EU clearance will not only reinstate flights but could also prompt the U.S. Federal Aviation Administration (FAA) to reconsider Pakistan's aviation category. Currently, Pakistan

is classified as Category 2 following the EU ban. A positive reassessment from the EU could lead to an upgrade to Category 1, enabling Pakistani airlines to expand international operations, including potential routes to the U.S.

To facilitate this progress, the Civil Aviation Authority (CAA) of Pakistan must strictly adhere to the safety and security standards set by the International Civil Aviation Organization (ICAO) and the UK. Ensuring comprehensive compliance across the aviation industry is essential for lifting existing restrictions and fostering future growth in international flight operations.

If all regulatory requirements are met, 2025 could witness the revival of direct flights from Pakistani airlines to the UK, EU, and potentially the U.S., marking a significant milestone for the country's aviation industry.—RT/Agency

Government Sparks Debate By Proposing Chief Justice Selection From Supreme Court's Top Three

ISLAMABAD: The successor of Chief Justice of Pakistan (CJP) Qazi Faez Isa will be picked from the three most senior judges of the Supreme Court, the government has proposed in its draft for the intended constitutional amendments, media reported on Sunday.

The selection for the coveted post will reportedly be made by an eight-member parliamentary committee.

The coalition government has stepped up its efforts to evolve consensus on its controversial 'Constitutional Package' with all political parties regularly holding meetings of the special parliamentary committee — a body led by Pakistan Peoples Party (PPP) MNA Syed Khurshid Shah — to discuss the proposed constitutional changes.

To pass the constitutional amendments, the government needs two-thirds majority in parliament, while it is short of 13 votes in the National Assembly (NA) and nine in

the Senate. The government and JUI-F shared their respective drafts for the constitutional amendment in Saturday's meeting, with the former proposing the structure of Federal Constitutional Court (FCC), and the latter proposing a constitutional bench of the top court for constitutional matters.

According to the government draft, the FCC will consist of seven members, including the chief justice.

The first chief justice of the FCC will be appointed by the president on the advice of

the prime minister. The first chief justice and three senior judges of the constitutional court will be appointed on the recommendation of the committee that would include four members of the parliament, federal law minister and a representative of the Pakistan Bar Council.

It has been proposed that a commission will be formed for the appointment of FCC judges, the head of which will be the FCC chief justice, and its five most senior judges will be members of the commission.

Apart from this, there will

be provincial constitutional courts.

According to the proposed amendment, the prime minister will send the matter to the president after consultation on the name of a qualified judge.

The remaining members of the FCC will be appointed by the president in consultation with its chief justice, the names of chief justice and judges will be given to the prime minister through the parliamentary committee.

The age of a judge will be 40 years, three years of court experience and 10 years of legal experience will be mandatory.

An FCC will be established for the dismissal of a judge and the president will give the final approval for dismissal of any judge.

The proposed amendment states that the decision of FCC cannot be challenged in any court, while the decisions of four provincial constitutional courts can be appealed in the FCC.

Meanwhile, according to the JUI-F's draft, special benches of the Supreme Court will be formed to hear constitutional cases. The constitutional bench will consist of Chief Justice of Pakistan and four senior judges.

Fazl's party proposed to implement the 18th Amendment to the extent of appointing judges while the constitutional bench of the Supreme Court will be authorised to hear appeals against the decisions of the constitutional bench of the high courts.

Meanwhile, the cases related to interpretation of the Constitution will be heard by the constitution bench only. The government had attempted to present the bill to amend the Constitution last month, but its allies as well as members from the opposition benches vehemently opposed the proposal, forcing the administration to begin a consultation process.—RT/Agency

Islamabad Turns Into A Fortress: Heightened Security Ahead Of SCO Summit Amidst Protest Fears

ISLAMABAD: The federal authorities were preparing on Sunday to shut down the capital ahead of a Shanghai Cooperation Organisation (SCO) summit, an event of international importance.

In a statement, Islamabad Inspector-General of Police (IGP) Nasir Ali Rizvi said that a 'comprehensive' security plan had been chalked out ahead of the all-important summit in the federal capital.

"Security personnel will be deployed at funnel areas, hotels and places where foreign delegations are staying," he said, adding that they ensured the security of foreign leaders, delegations and guests.

Furthermore, Rizvi said search and information-based operations were underway, with personnel of the Pakistan Army, intelligence agencies, Frontier Corps (FC) and Rangers performing their duties.

The police chief pointed out that more than 9,000 personnel of the police force have

been deployed for security. "An integrated traffic plan has also been issued for the convenience of citizens."

Chinese Premier Li Qiang, Indian Foreign Minister Subrahmanyan Jaishankar and Russian Prime Minister Mikhail Mishustin will be among the senior regional government officials attending the two-day conference on Tuesday and Wednesday (October 15-16).

In the weeks leading up to the summit, the government has introduced new laws that restrict protest in the federal capital.

They have also arrested hundreds of supporters of key opposition party, Pakistan Tehreek-e-Insaf (PTI), who attempted to march in Islamabad earlier this month, to register protest for "independence of the judiciary" and release of its jailed founder Imran Khan.

A deadly attack on a convoy of Chinese engineers in the mega port city of Karachi last week also deepened security fears. Local administration has banned protests, sit-ins, rallies and public gatherings in Karachi under Section 144 for a period of five days citing security concerns.—RT/Agency

Sherry Slams PTI's 'Mob Mentality' For Daring Protest During Key SCO Summit

ISLAMABAD: PPP Vice-President Senator Sherry Rehman on Sunday said that PTI's "worst legacy" was that it had "incessantly shrunk the space for democratic politics by resorting to extremes no one has gone to before" as the opposition prepared for a protest at D-Chowk on October 15.

Her statement came as the PTI announced the suspension of its protests in Punjab and issued a nationwide call urging party leaders and workers to converge in Islamabad on Oct 15 when the two-day Shanghai Cooperation Organisation (SCO) summit will begin.

The PTI has also demanded immediate access for party leaders and family members to its founder, Imran Khan, who is incarcerated in Adiala Jail. The government earlier banned visits to prisoners at the prison until Oct 18 due to security concerns related to the high-profile SCO summit.

"If the PTI goes forward

[with] its call for protest in Islamabad on the day of the SCO summit when 7 Prime Ministers are visiting, then no one should be faulted for shaming them as the worst face of mob-led narcissism. This is not politics," Senator Rehman said in an X post.

She added that no one had forgotten "PTI's violence" when Chinese President Xi Jinping cancelled his visit over the party's mass anti-government demonstrations in Islamabad in 2014.

"That's not going to happen again," she said. "We have all been under arrest in

worse conditions but no one has done this."

The former federal minister went on to say that much of the PTI's concerns could be addressed after the summit, however, the party's "worst legacy" was that it had "incessantly shrunk the space for democratic politics by resorting to extremes no one has gone to before."

Responding to her post, PTI Secretary General Salman Akram Raja questioned whether she was aware of the "assaults underway on PTI MNA's homes".—RT/Agency

PTI Leaders Push For Emergency Meeting With Imran Amid Growing Tensions

ISLAMABAD: The interior ministry on Sunday officially received the application moved by Pakistan Tehreek-e-Insaf (PTI) seeking permission to hold meeting with party founder Imran Khan in Adiala Jail. The application was moved by PTI Chairman Barrister Gohar and chief of Sumi Ittehad Council Sahibzada Hamid Raza. "We should be granted immediate permission to meet the party founder who last met with his legal team on Oct 3," said the application. Earlier, Is-

lamabad High Court was also approached by Noreen Khan Niazi, sister of Imran Khan, seeking permission to meet the PTI founder. Earlier, PTI has made the cancellation of its planned protest on October 15 in Islamabad conditional on a meeting with the party's founder, Imran Khan.
