5 Dangerous Terrorists Captured In High-Stakes Intelligence Operation In Pishin: ISPR

RAWALPINDI: Security forces apprehended five terrorists — or "Khawarij" — in an intelligence-based operation (IBO) conducted in Balochistan's Pishin, said the Inter-Services Public Relations (ISPR) on Saturday.

During the operation, a large number of weapons, ammunition, and explosives, including three suicide vests, were seized from the militants involved in multiple terrorist attacks who were planning to target security forces as well as innocent civilians, added the military's media wing.

The development comes amid security forces' ongoing efforts to curb the scourge of terrorism which has witnessed a notable spike in recent times.

As per the third quarterly report (Q3) issued by the Centre for Research and Security Studies (CRSS), the total fatalities from three quarters of this year have surpassed the total fatalities recorded for the entire of 2023 with 1,534 deaths compared to last year's 1,523.

A total of 722 people were killed, including civilians, security personnel, and outlaws, while 615 others

were wounded in as many as 328 incidents recorded during the third quarter.

Balochistan and Khyber Pakhtunkhwa have been on the forefront of the country's war against terror and have faced the brunt of terror attacks.

Separately, the ISPR also said that the security forces carried out an IBO in Balochistan's Zhob district

on Thursday wherein two khawarij were eliminated and weapons and ammunition were recovered during the sanitisation operation.

Security forces of Pakistan remain steadfast in their commitment to eradicate terrorism from the country and protect innocent civilians from this menace, added the ISPR.—RT/Agency

CJP Isa Demands Answers From SC Staff Over Confusing Clarification In Reserved Seats Case

ISLAMABAD: Chief Justice of Pakistan (CJP) Qazi Faez Isa has sought an explanation from Supreme Court staff following the release of a second clarification by eight judges in the reserved seats case without submitting the original case file.

The CJP has directed Deputy Registrar Mujahid Mahmood, Assistant Registrar Shahid Habib, and Webmaster Asim Javed to explain how the clarification was published on the court's website without following standard procedure.

"How was the clarification issued without submitting the original file?" Justice Isa questioned in a notice sent to the concerned staff members on Saturday.

According to sources within the Supreme Court, the Deputy Registrar and Assistant Registrar have been officially notified and asked to provide details regarding the procedural lapse. The court has also requested a response from Webmaster Asim Javed regarding the incident.

The court has ruled in July that the Pakistan Tehreek-e-Insaf (PTI) is entitled to the seats reserved for women and minorities, a decision that was challenged after the government amended the election law. However, the bench reaffirmed that these changes cannot override the original ruling.—RT/Agency

Yesterday, eight Supreme Court judges issued a second clarification concerning their decision on reserved seats, stating that the Election Commission of Pakistan (ECP) must implement the court's ruling, despite amendments to the Elections Act, 2017.

Imran Secretly Orders PTI To Keep Cozying Up To Fazl Over Controversial Judicial Package

ISLAMABAD: Pakistan Tehreek-e-Insaf (PTI) Chairman Barrister Gohar Ali Khan on Saturday said that jailed former prime minister Imran Khan instructed the party leaders to continue consultations with Jamiat Ulema-e-Islam Fazl (JUI-F) Maulana Fazlur Rehman on the proposed constitutional amendments.

Speaking during a press conference flanked by other PTI leaders, Barrister Gohar said, "We held discussion over the amendments with the PTI founder and he has asked us to continue deliberations as it is very sensitive matter."

The PTI chief made these comments after holding an "inconclusive" meeting with party founder — who is currently incarcerated in Adiala jail — on the constitutional amendments.

Gohar said that Khan also named four party members to accompany for consultations with the JUI-F chief as "we want that I should form my opinion on a broader consensus and give further direction."

Leader of the Opposition in National Assembly Omar Ayub, Leader of the Opposi-

tion in Senate Shibli Faraz, Leader of the Opposition in Punjab Assembly Ahmed Bhachar and Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur will join the PTI chairman for talks with JUI-F, the party chief said.

The development comes a day after the special parliamentary committee — comprising government and opposition members "unanimously approved" the draft for 26th constitutional amendment.

Muttahida Quami Movement-Pakistan (MQM-P)

leader Farooq Sattar claimed that PTI had principally agreed on the draft but the party had reservations on some points.

However, Gohar had said that consultation on the fourth draft shared by the government was underway, adding that they would make final decision on the constitutional package after meeting Khan.

Gohar began the presser today by speaking about the PTI founder's health, jail conditions and the lack of facilities, saying that he was in good health, however,

claimed that there was no electricity in the jail for five days.

During the meeting, Barrister Gohar said, they apprised the PTI founder about the ongoing consultations with Fazl over the proposed judicial package. The jailed party founder termed the talks with Fazl positive and directed them to continue holding consultations with the JUI-F, he added.

"We will continue to negotiate with Maulana Fazl. This type of legislation is not acceptable and we condemn this method as it is unconstitutional and undemocratic," he said.

Gohar said that they informed the JUI-F chief that the party will not be in a position to vote until the PTI founder gives clear instructions on the matter. "We have not agreed to anything at this point."

Giving clarification after Gohar's presser, Adiala jail administration said the PTI founder is provided with all B Class facilities in the prison as per the law.

"The PTI founder's diet, health, study including exercise are given special attention," said the jail admin, adding that there is uninterrupted power supply at Adiala jail.

The administration mentioned that an inmate cook has been provided to the PTI founder to prepare his food. The admin added that the PTI founder is given curry, desi chicken, yoghurt, chapati, mutton, soft drink salad, and green tea in lunch. It said that he is given porridge, coconut water and grapes in the evening. "Jail doctors examine PTI founder thrice a day. He does not have any disease and is completely healthy," it added.—RT/Agency

Imran and Gandapur Cleared In Explosive 'Azadi March' Vandalism Case

ISLAMABAD: In yet another relief, a district and sessions court in Islamabad on Saturday acquitted incarcerated Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan and Khyber Pakhtunkhwa firebrand Chief Minister Ali Amin Gandapur in a case pertinent to violence and vandalism during the former ruling party's May 25 "Azadi March".

Following the PTI government's ouster through a vote of no-confidence in 2022, the former prime minister had given call for march towards the federal capital, demanding a fresh elections and the dissolution of assemblies.

The law and order situation in the federal capital turned chaotic after Khan and his convoy entered the city and started marching towards the D-Chowk despite the Supreme Court's order to hold a jalsa at a ground between H9 and G9 areas of Islamabad.

PTI protesters continued to engage in violent clashes with the police and other law enforcement agencies and continued moving towards the D-Chowk defying the court's prohibition. During the riots, the protesters also damaged public and private properties in the capital.

Subsequently, an FIR was also registered against the PTI leadership at the Secretariat police station for inciting the protesters to damage public properties, interference in government affairs and other charges. After hearing arguments from both sides, the Islamabad bench reserved its verdict. Earlier today, Civil Judge Shahzad Khan announced the reserved verdict in the vandalism case.—RT/Agency

PPP and JUI-F Achieve '100% Consensus' On Game-Changing Constitutional Tweaks: Bilawal

ISLAMABAD: After holding back-to-back meetings with Maulana Fazlur Rehman, Pakistan Peoples Party (PPP) Chairman Bilawal Bhutto-Zardari on Saturday said that his party and the Jamiat Ulema-e-Islam Fazl (JUI-F) chief have reached a 100% consensus on the proposed constitutional amendment.

The statement comes as the PPP chief is making last ditch effort to evolve a consensus on the judicial package among all political parties including the PTI.

Addressing a public gathering in Hyderabad last night, the PPP chairman warned that he would be compelled to take a "controversial path" for the passage of the 26th constitutional amendment if the opposition parties refused to support his efforts to pass the judicial package with consensus.

Moreover, the special parliamentary committee — comprising government and opposition members — had "unanimously approved" the draft for the 26th constitutional amendment, said PPP lawmaker Syed Khurshid Shah on Friday.

Talking to journalists following his fresh meeting with JUI-F chief Maulana Fazlur Rehman, Bilawal said that he was in consistent contact with the latter on the matter related to constitutional amendment.

"We have reached consensus over legislation on judicial reforms."

The PPP chairman said that he wished Maulana Fazl to table the 26th constitution amendment bill in parliament as "the draft is the same as Maulana Fazlur Rehman wanted".

Responding to a question, the PPP leader expressed hope that the JUI-F could convince PTI to vote for the constitution amendment bill. "PTI can vote for the Maulana Fazlur Rehman's draft."

Hafiz Naeem Urges Deep-Dive Consultations On Controversial Constitutional Amendment

LAHORE: Jamaat-e-Islami (JI) Emir Hafiz Naeemur Rehman said on Saturday that the government should hold threadbare consultations on the matter of much-touted constitutional amendment.

Holding a press conference in Lahore, the JI emir said that sale and purchase of votes had become a common practice in the parliament.

"This practice resumes whenever a new amendment is forced to be passed by those who actually orchestrate these moves. The politicians are made figureheads, the Supreme Court must summon those who are behind this amendment," he mentioned.

Taking potshots at political parties, he said people didn't have any trust in whatever political parties said, adding that mere 3 to 4 judges won't be able to address issues when a whole parliament was unable to redress the grievances of people.

He said people didn't have access to justice in Pakistan as the judiciary lacked trust by the masses.

The JI emir also condemned the martyrdom of Hamas leader Yahya Sinwar.—RT/Agency

Speaking at a press conference at the Thatta Press Club, Shah criticized the move, stating that while efforts are being made to cultivate barren lands in Punjab, existing populated areas in Sindh are being neglected and risk becoming barren. He urged policymakers to reconsider their decisions, which he said are unacceptable to the people of Sindh. Authorities Recover Jaw-Dropping Rs122 Billion In Nationwide Electricity Theft Crackdown

ISLAMABAD: More than 86,000 individuals have been arrested across Pakistan in an ongoing nationwide crackdown on electricity theft, Express News reported.

The campaign has also recovered Rs122.35 billion since it launched in September 2023.

Operations were carried out in several cities, including Lahore, Gujranwala, Faisalabad, Islamabad, Multan, Peshawar, Hyderabad, Sukkur, and Quetta, resulting in the recovery of over Rs1.35 billion from offenders in October alone.

Authorities have vowed to continue these efforts until electricity theft is completely eliminated, with 224 individuals apprehended during this month's operations.

Previously, Ministry of Energy sources told The Express Tribune that the gross

addition to the circular debt had been estimated at Rs417 billion for fiscal year 2024-25 in spite of raising power tariffs from July.

The circular debt stood at Rs2.383 trillion by June this year, already higher than the commitment given to the International Monetary Fund (IMF) and more than the threshold approved by the federal cabinet last year under the Circular Debt Management Plan 2023-24. After adding an estimated Rs417 billion, the debt will jump to Rs2.8 trillion by taking into account the power sector losses and inefficiencies. Sources said that under an understanding reached with the IMF, the government would provide Rs381 billion in subsidies from the budget. This will restrict the debt to Rs2.42 trillion by June next year.—RT/Agency

Naive and delusional!

Former Prime Minister Nawaz Sharif's recent remarks about the possibility of improved ties with India reflect a simplistic and overly optimistic approach that overlooks core issues. While normalization of relations is undoubtedly desirable, it cannot be achieved by ignoring the fundamental disagreements that continue to divide the two nations. Mr. Sharif's assertion that the Indo-Pak "ice is melting" based solely on India's participation in a multilateral summit seems more like wishful thinking than a realistic assessment.

During his meeting with Indian journalists, Mr. Sharif highlighted areas where both

countries could benefit from cooperation, such as trade, cricket, and climate change. However, he failed to address the more con-

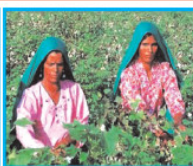

tentious topics, such as the unresolved status of Jammu and Kashmir, cross-border tensions, and India's recent policy shifts that have strained relations even further. By glossing over these "elephants in the room," Mr. Sharif's statements risk appearing out of touch with the real complexities of Indo-Pak relations.

Peace cannot be achieved without acknowledging and addressing these critical issues. True normalization requires a dialogue that is rooted in dignity, equality, and a willingness from both sides to engage on the matters that have long been a source of conflict. Mr. Sharif's diplomatic optimism, while commendable, needs to be backed by a more strategic and realistic approach that respects Pakistan's stance and addresses the actions of the Indian government, which have, in recent years, only escalated hostilities. Without confronting these challenges head-on, hopes for lasting peace will remain just that—hopes.

By Qaimuddin Memon

SEHWAN SHARIF: The Government Girls High School in Arazi, Sehwan Taluka, is in a deteriorating and hazardous condition, posing a significant threat to the lives of students and teachers. Mushtaq Ahmed Returns To Bangladesh Cricket, Takes Spin Bowling Reins

DHAKA: Former Pakistani leg-spinner Mushtaq Ahmed has officially rejoined the Bangladesh cricket team as the spin bowling coach, following his recent commitments.

He was part of the coaching staff during the ICC T20 World Cup 2024 and the Bangladesh tour of Pakistan but missed the tour to India due to prior obligations. Mushtaq was actively involved in the team's training at the Sher-e-Bangla National Stadium on October 19, where he provided guidance to players and collaborated with the newly appointed head coach, Phil Simmons, who replaced Chandika Hathurusinghe.

A senior official from the Bangladesh Cricket Board (BCB) mentioned that Mushtaq will be available for the upcoming Test series against South Africa and will continue to work with the team on a series-by-series basis. The board is reportedly keen to secure a long-term contract with him by the end of the year, contingent on his availability. His return comes at a crucial time as Bangladesh prepares for the two-match Test series against South Africa, with the first match starting on 21 October in Chattogram.

Mushtaq's previous influence was evident during the T20 World Cup, particularly in the development of young leg-spinner Rishad Hossain. After missing the recent series against India, Mushtaq's presence is expected to bolster the squad's performance against South Africa. Reports indicate that he arrived in Bangladesh late on Friday night and was seen during the team's training session on Saturday. Ronaldo's Last-Minute Heroics: Penalty Secures Dramatic Al-Nassr Victory

Ten Hag Blasts 'Baseless Rumors,' Calls Them 'Fairy Tales'

LONDON: Erik ten Hag defiantly slammed "fairy tales and lies" about his Manchester United future as the under-fire boss insisted he is not in danger of the sack. Ten Hag is widely believed to be in a fight to save his job after presiding over United's worst start to a top-flight season since 1989-90. United are languishing in 14th place in the Premier League ahead of Saturday's visit from Brentford, whose manager Thomas Frank has been linked with replacing the Dutchman at Old Trafford.

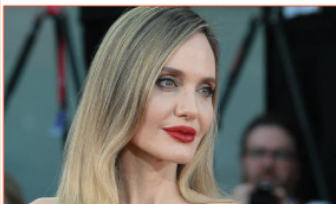

Without a victory in their last five games in all competitions, Ten Hag's side have won just twice in seven league matches this term. "Another flop against Brentford will pile further pressure on Ten Hag ahead of a tricky week featuring away games at Jose Mourinho's Fenerbahce in the Europa League and West Ham in the Premier League. But the former Ajax boss is convinced he retains the support of United co-owner Jim Ratcliffe and his coterie of advisors. "Noise is only coming from some of you in the media, creating stories and fairy tales, and bringing lies," Ten Hag told reporters on Friday. "I told this before the break. Several journalists probably didn't believe me because I see the reports. "But internal in the club it's quiet. Of course, we are discussing, that we are unhappy with the position where we are and how we have to turn the corner, what has to happen, so what should be strategy to turn this corner. "But ultimately we are quiet, where we are, we stick to the plan, and we are very convinced we will make it a success." United finished a dismal eighth in the Premier League last season, their lowest final position since 1990, triggering a Ratcliffe-led internal review into Ten Hag's position.

But the 54-year-old eventually signed a new contract in a move seen as a show of faith during the close season. Ten Hag won the League Cup in his first season to end United's six-year trophy drought, then lifted the FA Cup last term in a shock final triumph against Manchester City that is credited with saving his job. However, the embattled Ten Hag is once again engaged in a struggle to stave off the axe. United's inconsistent form during his reign shows no signs of improving and he acknowledged the climb back to respectability would not be easy. "We have to climb a mountain. That is top football and sometimes you have to face challenges. I am sure we will make a success, as we did the last two seasons," he said. "Underneath I see good things and good stats that confirm we are in a good direction. But of course the ranking is not lying. We are where we are and that is not good enough." —Agency

Breast Cancer Mortality Rate Soars To Alarming 48%, Sharmila Farooqui Demands Urgent Action

KARACHI: Pakistan Peoples Party MNA Dr. Sharmila Farooqui has raised alarm over the rising death rate among breast cancer patients in Pakistan, which has reached 48%. Speaking on the eve of the International Day Against Breast Cancer, she called for immediate nationwide efforts to combat this deadly disease through awareness and early detection.

Dr. Sharmila emphasized the importance of a door-to-door awareness campaign to destigmatize discussions

around breast cancer, noting that timely diagnosis is crucial. Globally, the early diagnosis rate is 98%, but in Pakistan, most cases are detected at late stages, where the risk of death is significantly higher.

She highlighted that over 80% of breast cancer cases in Pakistan occur without any family history, and approximately 70% of women receive a diagnosis at advanced

stages. Women aged 40 to 70 are particularly vulnerable, she said.

Dr. Sharmila urged health authorities to enhance access to screening and early detection services while prioritizing better treatment and patient care. She noted that technological advancements in imaging are opening new possibilities for improving breast cancer screening. She also called on the federal government to increase the health budget from the current 1% of GDP to at least 4%, with provinces following suit. With nearly 100,000 new breast cancer cases reported each year in Pakistan, Dr. Sharmila stressed the need for hospitals to hold free screening camps to improve early detection. She also encouraged women to practice regular self-examination to help reduce the mortality rate. "Awareness is key," she said, "and every woman should make self-checking a habit to ensure early diagnosis and timely treatment."—RT/Agency

SHC Delivers Temporary Blow To FBR's Affidavit Rule For Sales Tax Returns

KARACHI: The Sindh High Court (SHC) has temporarily suspended the Federal Board of Revenue's (FBR) mandate requiring taxpayers to submit an affidavit alongside their sales tax returns, following a petition filed by the business community. The petitioners, including Asad Ashfaq Tola, argued that the requirement contradicts the Sales Tax Act of 1990, as it forces businesses to verify the actions of their suppliers.

In response, the court has asked the FBR and other involved parties to submit their replies by November 1, while also summoning relevant commissioners to the next hearing. In the interim, the SHC directed the FBR to allow the filing of September 2024 sales tax returns without the affidavit.

Business leaders, including President of the Karachi Chamber of Commerce and Industry (KCCI) Muhammad Jawed Bilwani, have urged

the FBR to defer the affidavit requirement, stating that taxpayers are being unfairly held responsible for potential errors by vendors. They argued that while businesses can verify suppliers' status on the FBR system, they have no access to the full supply chain and may face penalties for vendors' mistakes.

In a separate statement, Khuram Mukhtar, Patron-in-Chief of the Pakistan Textile Exporters Association (PTEA), called for the deferral of the affidavit requirement for Chief Financial Officers (CFOs), emphasizing that buyers should not be held accountable for the entire supply chain. Both leaders stressed the need for a business-friendly environment that supports compliance without placing undue burdens on taxpayers.—RT/Agency

Shocking Arrest: Man And Two Sons Nabbed In Brutal Murder Of Four Women In Lyari

KARACHI: Police have arrested a man and his two sons following the discovery of four women's bodies with their throats slit in a residential flat in Lyari's Lea Market area on Saturday. The victims, identified as a mother, her daughter, granddaughter, and daughter-in-law, were found in separate rooms of the seventh-floor apartment, all showing signs of severe torture.

The gruesome murders shocked the neighborhood, and police promptly shifted the bodies to Civil Hospital Karachi for post-mortem examinations. A Crime Scene Unit collected evidence from the flat as part of an ongoing investigation.

Muhammad Farooq, the head of the household, along with his two sons, was taken into custody for questioning. Authorities are currently investigating multiple leads and reviewing surveillance footage from around the building to determine the motive and identify the perpetrators behind the brutal slayings.—RT/Agency

Former First Lady Rallies For Nationwide Grassroots Movement To Battle Breast Cancer Crisis

KARACHI: Former First Lady Begum Samina Alvi has called for a nationwide grassroots campaign to raise breast cancer awareness, emphasizing self-examination for early detection. Speaking at a seminar on "Breast Cancer Prevention and Wellness," organized by the National Forum for Environment and Health (NFEH) on the International Day against Breast Cancer, Begum Alvi highlighted Pakistan's high breast cancer incidence rate—the highest in Asia.

She stressed that mammograms, while crucial for early detection, are often too expensive for women in low- and middle-income households, and public healthcare facilities offering mammography are limited. Self-examination, she argued, should be promoted as a key preventive measure and awareness efforts should continue year-round, not just in October, which is globally recognized as

Breast Cancer Awareness Month. Begum Alvi also urged society to remove the stigma surrounding breast cancer, recognizing it as a medical issue that requires early detection to protect women's health. She emphasized the importance of psychological support for cancer patients and urged men to be informed about the disease to help in early diagnosis for women in their families.

With up to 100,000 new cases of breast cancer detected annually in Pakistan, Begum Alvi called for collective action and reaffirmed her commitment to improving healthcare and rehabilitation services for cancer patients and those with mental health challenges. Dr. Bushra Maham of Shaikat Khanum Cancer Hospital highlighted that 22% of patients treated there suffer from breast cancer. She urged women over 40 to undergo annual mammograms. Other experts stressed the importance of a healthy lifestyle and genetic testing for those with a family history of cancer.—RT/Agency

KARACHI: Students of Karachi University (KU) have called off their eight-day protest against fee hikes and inadequate campus facilities following successful negotiations with Vice Chancellor Dr. Khalid Mahmood Ibraqui. The protest was concluded on Friday after the VC approved several of the students' key demands. Among these were the reversal of the 50% late fee to 10%, adjustments to the re-admission fee, and improvements in campus security and bus services. Additionally,

the re-admission policy, now applicable after four semesters, and the semester fee will see only a 10% increase. ISLAMABAD: Interior Minister Mohsin Naqvi has commended Pakistan's security forces for their successful counter-terrorism operations against the notorious group "Fitna al Khawarij" in the regions of Pishin and Zhob.

He referred to these soldiers as the "nation's heroes," underscoring the admiration and respect they have earned from the public and government alike.

Naqvi further stressed the solidarity between the Pakistani people and their armed

The Interior Minister also highlighted the collective determination to completely eradicate terrorist groups like "Fitna al Khawarij" from the country.

7 PTI Lawmakers Abducted Ahead Of Critical Vote

ISLAMABAD: Omar Ayub Khan, the Leader of the Opposition in the National Assembly, has claimed that seven members of his party have been abducted.

Speaking to the media upon his arrival at the Parliament House on Saturday, Ayub stated, "I was in communication with Barrister Gohar on the phone when the connection was lost, and we have not been able to reconnect since. We are currently consulting with our colleagues on this matter."

When asked about casting a vote in favour of the constitutional amendment, Ayub responded, "I have just come straight from the village to parliament. I met Sher Afzal Marwat here and didn't recognise him at first because his health has significantly deteriorated."

He added, "We are in consultations with our colleagues. The decision is to engage with JUL-F. We are trying to trace our parliamentary party members to continue discussions with JUL-

F." Ayub expressed concern over the government's actions, stating, "We are observing what the government will do here because seven of our members have been abducted, and cases have been filed against all of us."

Meanwhile, Sher Afzal Marwat, while speaking to the media, remarked, "This is a constitutional amendment of such historical significance that no one is aware of it, while half of the National Assembly members are

fake."

"The Supreme Court has paved the way for something that should not happen in any civilised society," he added. Marwat noted that due to party directives, only a limited number of members will attend the meetings. "If they proceed with this constitutional amendment, they will push the country towards complete lawlessness. We must come out with all our strength to dismantle this system."—RT/Agency

Petroleum Minister Rallies For Collective Action To Combat Tobacco Epidemic

ISLAMABAD: Minister for Petroleum Musadik Masood Malik has underscored the need for collective action against tobacco use.

He expressed these words in his address at a seminar titled 'Sustainable Tobacco Control Policies: A Way to Healthier Pakistan' organized by the Society for the Protection of the Rights of the Child (SPARC) at a local hotel the other day.

The event aimed at bringing together government officials, public health advocates, civil society members, anti-tobacco activists, and youth leaders to address the growing tobacco epidemic in Pakistan and advocate for comprehensive policy reforms.

Musadik Malik stated, "Smoking is causing overall harm rather than any benefit. The fight against smoking will not be easy, but it is crucial. The real fight against smoking is a fight against the mafia."

Highlighting the severe health implications, he added, "Smoking has the deepest connection with cancer, and there is hardly any disease that isn't linked to it. Every year, 150,000 to

200,000 people die from smoking. Why can't we see the faces of our people in those numbers?"

Former caretaker minister of information and broadcasting Murtaza Solangi also spoke on the occasion.

He emphasized the need to take tobacco as a national issue.

"First of all, we have to see it as an issue, this is not even seen as an issue," he remarked.

He called for a unified approach, stating, "We have to create an ecosystem where media and everything around us reflects an anti-tobacco stance."

Dr. Khalil Ahmad, Program Manager at SPARC, while addressing a seminar,

emphasized the deadly toll of tobacco use in Pakistan, explaining, "Tobacco use is costing 166,000 lives each year, which equates to almost 450 deaths per day."

He urged the government to take critical steps to curb tobacco consumption, particularly among the youth.

Dr. Mati ur Rehman from the Health Services Academy, Muhammad Sabir, an economist from the Social Policy and Development Centre (SPDC), Khalida Ahmad, a board member of SPARC, Senator Sana Jammali, Nisar Ahmad Cheema, a parliamentarian, and prominent anti-tobacco activists, among others, were also in attendance and spoke on the occasion.—RT/Agency

'Our Senators Were Abducted,' Akhtar Mengal Declares, Rejecting Support For Constitutional Amendments

ISLAMABAD: Akhtar Mengal, leader of the Balochistan National Party (BNP), has alleged that two of his party's senators have been abducted along with their families, adding that he will not support constitutional amendments currently being discussed in Pakistan.

Speaking to the media outside Maulana Fazlur Rehman's residence in Islamabad, Mengal expressed outrage over the government's handling of the situation, questioning why the constitutional changes were being rushed without public transparency. Mengal further claimed that the family of a female senator had been held hostage to force her attendance at a luncheon with the Prime Minister.

"Is this what respect for the vote looks like?" he asked, adding that it is unacceptable for members of parliament and their families to be subjected to threats and intimidation.

The BNP leader vowed not to participate in any talks on the amendments until his missing senators are safely returned.

He criticised the secrecy surrounding the proposed changes, calling it an attack on democracy and questioning the role of external forces in the matter. Mengal has stated that his party will consult with the opposition alliance regarding the amendments, maintaining that no constitutional change should be forced under duress.—RT/Agency

Govt Aims For Sweeping Constitutional Amendment With Broad-Based Consensus

ISLAMABAD: Federal Minister for Defence Khawaja Asif said on Saturday that the government desired to pass the 26th Constitutional Amendment with broad-based consensus.

Speaking to the media outside the Parliament, he said, "We have the required numbers for the passage of the 26th Constitutional Amendment, but we seek to develop a broader consensus in the National Assembly and the Senate."

The minister said that the primary objective of the amendment is to establish the supremacy of Parliament, which guarantees the Constitution of the country. "We want to put an end to the encroachment on Parliament and ensure that the supremacy of this forum, as promised by the Constitution of Pakistan, is upheld," he added.

Khawaja Asif further said that all political parties unanimously agreed that the su-

premise of Parliament must not be compromised.

He said that elected representatives have the authority to legislate for the welfare of the public, and the minority should not impose its decisions on the majority.

Addressing the issue of misinformation, the minister criticized the creation of a false narrative suggesting that members of the Senate and National Assembly had been kidnapped. "They should reveal the names of those allegedly kidnapped, imprisoned, or held hostage," he said.

He cited a fabricated incident in Lahore as an example of how such falsehoods are being circulated. Without naming any specific party, the minister remarked that a particular political party consistently developed fake narratives to advance its agenda. In response to a question, Khawaja Asif dismissed claims that some parties were blackmailing the government and said that constitutional amendments always require time to reach an agreement.—RT/Agency

Despite Majority, Efforts Underway To Forge Broader Consensus On Constitutional Package

ISLAMABAD: Federal Minister for Information, Broadcasting, National Heritage and Culture Attaullah Tarar said on Saturday that despite having numbers, the coalition government was making all-out efforts for the creation of a broader consensus on the proposed constitutional package.

Talking to the media outside Parliament House along with the senior leader of Pakistan Muslim League-Nawaz Haneef Abbasi, he said the process of consultations for the constitutional package was ongoing and Pakistan People's Party Chairman Bilawal Bhutto held meetings with Jamiat Ulama-e-Pakistan Amir Fazlur Rahman and Prime Minister Shehbaz Sharif.

"We are democratic people, we try to create a consensus among all political stakeholders," he said adding that in democratic societies, efforts were made for consensus building through consultations.

He said that by changing the rules within Khyber Pakhtunkhwa (KP), the powers of posting and transfer of police officers have been taken over by the Chief Minister from the IG. The minister said that the PTI aimed to obtain political objectives from the police.

He alleged that the KP Government wanted to con-

trol the people of the province politically.

Tarar said that the people from Punjab were also kept in KP and blame was shifted on the institutions for what they called their disappearance. The KP chief minister invaded the capital and used government resources against the Federation, he said.

The minister said the PTI has the habit of blaming others but they did not look into their behaviour.

Attaullah Tarar said that the PTI leadership threatened that the homes and businesses of those members would be set ablaze who would cheat the founder chairman of the PTI. He said the PTI had no problem with those working against the interest of the country, but they want to punish those who ditch Imran Khan.

Foremost was the interest of the country, political leaders and political parties come

second, he opined.

He said if any legislator was attacked, the state would take action and culprits would be given exemplary punishment.

The minister remarked that the PTI was crying hoarse for political face-saving, otherwise, they knew the ruling alliance had secured the numbers needed for the amendment.

Replying to media person questions, he said there are other options within the constitution and law but the PML-N leadership and party thought that a consensus should be created on the amendments.

The information minister said the government had an open mind in moving ahead with constitutional amendments.
