Race Against Time! Special Committee Scrambles For CJP Appointment Before Deadline

ISLAMABAD: As incumbent Chief Justice of Pakistan (CJP) Qazi Faez Isa is set to retire on October 25, the coalition government has kicked off the process of appointing a new top court judge following the enactment of the 26th Constitutional Amendment, which mandates the top judicial slot be filled three days before the incumbent's retirement.

In a notification issued on late Monday, the National Assembly Secretariat said that a 12-member Special Parliamentary Committee has been constituted for the appointment of next Chief Justice of Pakistan (CJP).

The 26th Constitutional Amendment sets the CJP's term at three years or until they reach the retirement age of 65. Additionally, the selection of the chief justice will

no longer be based solely on seniority, and instead, the choice will be made among the three most senior judges of the Supreme Court.

President Asif Ali Zardari signed the bill into law on the advice of Prime Minister Shehbaz Sharif in the wee hours of Monday.

After tweaks to the Constitution's Article 175A, a 12-member Special Parliamentary Committee will

nominate the new chief justice out of three senior-most judges of the Supreme Court. The recommendation would be considered final after the committee agrees on a name for the coveted judiciary post with a two-thirds majority.

Constitutional Shake-Up: New Amendments Officially Enforced After Presidential Green Light

ISLAMABAD: President Asif Ali Zardari on Monday signed the 26th Constitutional Amendment Bill into law upon the advice of Prime Minister Shehbaz Sharif today following the approval of the said legislation by the parliament.

A gazette notification has been issued following the president's assent to the contentious legislation.

The development comes after the ruling coalition succeeded in pushing the highly contentious judicial reforms through the Parliament via a two-thirds majority with 225 and 65 votes in the lower and upper house, respectively.

Under the judicial reforms — opposed by the Pakistan Tehreek-e-Insaf (PTI) which boycotted the voting process — the chief justice of Pakistan will now

be selected by a parliamentary committee and have a fixed term of three years. Also, a new constitutional bench will also be formed under the constitutional package.

Following the late-night marathon session in the Parliament, PM Shehbaz sent an advice to President Zardari in the wee hours of Monday to give his assent and sign the legislation into law.

Earlier in the day, the

including Zahoor Qureshi, Aurangzeb Khichi, Usman Ali, and Mubarak Zeb voted in favour of the motion along with the Pakistan Muslim League-Quaid's (PML-Q) Chaudhry Ilyas.

With the president's assent today, the Constitutional Amendment Bill 2024 has now become an Act of the parliament which will be followed by the formation of a special parliamentary committee — responsible for the appointment of the new CJP under clause 3 of Article 175A of the Constitution.

Incumbent CJP Qazi Faez Isa, who is set to retire on October 25, will send the names of three senior judges to the committee under sub-clause 3 of Article 175A.

The committee will appoint the next CJP and will send the name to the PM who will then forward it to

the president.

Jamaat-e-Islami Prepares To Battle 26th Amendment In Court

ISLAMABAD: Jamaat-e-Islami (JI) chief Hafiz Naemur Rehman has indicated that his party is considering challenging the recently enacted 26th constitutional amendment.

Speaking at a press conference on Monday, Rehman claimed that efforts to influence the judiciary had been ongoing for a long time. He said, "Yesterday, PDM 3 was active. We are reviewing the legal process to challenge the 26th amendment."

Rehman expressed disappointment with members of the opposition who voted in favour of the amendment, urging them not to participate in the process. "Some people are bought, while others succumb to pressure. Half of those in the assembly didn't even win," he added.

Reflecting on the country's legislative history, he remarked that the 1973 Constitution was created under difficult circumstances. He also criticised the Punjab government, stating that it only provided relief to the public for two months.

Earlier, President Asif Ali Zardari officially approved the 26th constitutional amendment, which has now become law following its publication in the official gazette. The amendment passed with a two-thirds majority in both the National Assembly and Senate.

Prime Minister Shehbaz Sharif lauded the amendment's unanimous passage, calling it a "shining example of national consensus." He highlighted the amendment as fulfilling the unfinished vision of the Charter of

Senator Irfan Siddiqui Demands End To Pakistan's Institutional Tug-of-War

ISLAMABAD: Parliamentary Leader of Pakistan Muslim League (Nawaz) in the Senate and Chairman of the Foreign Affairs Committee, Senator Irfan Siddiqui has strongly commended Parliament for taking a decisive step to restore balance and protect the Constitution with full force.

"The time has come for Parliament to halt the path of disruption, restore the balance of constitutional institutions, and uphold the Constitution in accordance with its oath. The 26th Amendment is a determined step by Parliament in this noble direction," he said.

In a statement posted on X on Monday, the senior PML-N leader criticized the long-standing unchecked judicial activism, which, under the guise of judicial independence, has paralyzed the

other two pillars of the state, Legislature and Executive. He stated that this activism is now threatening the supremacy and sanctity of the Constitution itself. "Some parts of the Constitution have fallen victim to the doctrine of necessity or convenience, some deemed unworthy of attention, and others being taken over under the pretext of interpretation."

Senator Siddiqui expressed concern that now the trend of rewriting the Constitution to achieve desired outcomes is becoming a routine. "It was imperative for Parliament to step in with full force, restore the balance of constitutional institutions, and protect the Constitution as per its oath," he reiterated, emphasizing that the 26th Amendment reflects Parliament's resolute action in this regard.—RT/Agency

Gandapur Claims PTI Will Wipe Out 26th Amendment When We Take Back Power

PESHAWAR: Blasting the coalition government for passing the "contentious" 26th Constitutional Amendment, Khyber Pakhtunkhwa Chief Minister Ali Amin Gandapur on Monday termed the fresh legislation an attack on the "independence" of judiciary, saying that the Pakistan Tehreek-e-Insaf (PTI) will revoke the newly enacted legislation whenever it returned to power in the Centre.

Speaking on the floor of the KP assembly, the Pakistan Tehreek-e-Insaf's (PTI) firebrand chief minister took a dig at the Prime Minister Shehbaz Sharif-led government, saying "A government who does not have a legal mandate attacked the judiciary."

"Independent Judiciary has been subjugated."

The Imran Khan-founded party calls the incumbent government "unconstitutional" and "Form-47 government" — a reference to the alleged manipulation in the results of February 8 general elections.

The PTI also issued a white paper on alleged rigging in the February 8 general elections, demanding the formation of the judicial commission to probe the "snatching of the 180 seats."

Earlier today, President Asif Ali Zardari signed the "26th Amendment Bill" into law on the advice of PM Shehbaz following the approval of the said legislation by the parliament.

In the lower house of parliament, the government

clinched 225 votes of the required 224 with the crucial support of a handful of independent MNAs, including those backed by the PTI.

The KP chief minister was of the view that the "unconstitutional amendment" was aimed at facilitating the elite class.

"Independent Judiciary has been subjugated."

The chief minister announced that the "contentious" constitutional amendment would be revoked whenever PTI would come into power. He further said that they would make amendments to the Constitution that would benefit the people.

Strongly criticising the PTI-backed dissident lawmakers, CM Gandapur said that they should have resigned instead of casting votes in favour of the "unconstitutional amendment."

"The nation will make them accountable who changed their loyalties," threatened the firebrand leader.

Justice Mansoor Sounds The Alarm: Judiciary Under Siege After New Law

ISLAMABAD: Justice Mansoor Ali Shah Monday expressed concerns over the dilemma that the judiciary could face after the new legislation — the 26th Constitutional Amendment — approved by the Parliament.

Justice Mansoor's remarks come hours after Prime Minister Shehbaz Sharif-led coalition government passed the contentious constitutional package in the Senate and National Assembly — the process of which began Sunday evening and ended during the pre-dawn hours on Monday.

The judiciary-oriented constitutional package proposed a set of constitutional amendments, including providing a fixed three-year term for three Chief Justices of Pakistan (CJP).

According to the tweaks, the constitutional benches will be established in both the SC and high courts, with the commission determining the number of judges required for these benches.

Detailing the bill on Sunday, Law Minister Azam Nazeer Tarar said that a constitutional bench would be established within the SC.

He added that the judges would be appointed by the

Supreme Court that whether a case will be heard by a general bench or a constitutional bench."

Responding to the judge's remark, Barrister Farogh Naseem said that political cases have now become constitutional cases.

Justice Mansoor adjourned the hearing of the case for three weeks, stating that the situation around the jurisdiction matter would be clear by that time.

Justice Ayesha Malik, on the other hand, remarked: "Read the new amendment, Article 199 case cannot be heard here."

Meanwhile, Justice Mansoor maintained that it will also take some time for the judiciary to understand the tweaks themselves.—RT/Agency

Fireworks In Court CJP Isa And PTI's Hamid Khan Clash In Fiery Exchange

ISLAMABAD: A heated exchange occurred between Pakistan Tehreek-e-Insaf (PTI) lawyer Hamid Khan and Chief Justice Qazi Faez Isa during the Supreme Court's hearing on the review petition regarding PTI's intra-party elections.

The three-member bench, led by Chief Justice Isa and including Justices Muhammad Ali Mazhar and Musarrat Hilali, heard the case.

Tensions flared during Hamid Khan's arguments when he stated that a three-member bench could not hear the case, citing a previous 13-member bench ruling.

Chief Justice Isa questioned why this point was not raised earlier, prompting Khan to assert that the court should refer to the Election Commission and Sanni Ittehad Council case decisions.

The situation escalated when Hamid Khan accused the Chief Justice of being biased.

Chief Justice Isa responded, "I prefer people who speak to my face, not on TV." Khan replied that he could not argue before a judge he believed to be biased.

The exchange continued with the Chief Justice questioning whether the court was being treated as a platform for casual conversation.

Hamid Khan then remarked that while it was an honour to appear before the court, he would refrain from making further arguments.—RT/Agency

Ozempic Fawad Chaudhry Rips Into Government: Amendment Won't Deliver The Goods

ISLAMABAD: Former federal minister Fawad Chaudhry has said that the 26th Constitutional Amendment won't benefit the government as it was intended to.

"It is their misunderstanding that they will control the judiciary," Chaudhry, a former minister in PTI government said.

He said the PML-N and the PPP have no political role to play. "They are puppets of martial law regimes," he said. "A new movement will begin from today and this government's days will further decrease." Fawad Chaudhry said, "Citizens, lawyers and judges will stand against the government's established this system."

He said he raised the policy of the JUI and the PTI adding that a bad draft of the consti-

tutional amendment has been passed after becoming lesser damaging. The government managed to secure two-third majority for the passage of the 26th constitutional amendment in the National Assembly in the wee hours of Monday, shortly after it sailed through Senate. The constitutional amendment envisages introduction of reforms to the appointment process and tenure of the

Chief Justice of the Supreme Court and establishment of constitutional benches at the Supreme Court, with equal representation from all provinces.

Acting on the advice of Prime Minister Shehbaz Sharif, President Asif Ali Zardari on Monday signed 26th constitutional amendment bill into law after its passage by both houses of the parliament.—RT/Agency

Stability at Last: The Path Forward for Pakistan

The recent passing of the 26th Constitutional Amendment marks a critical turning point for Pakistan. For over two years, the country has been marred by relentless political unrest, distracting from pressing economic and social issues. However, as the dust begins to settle, a much-needed respite is now on the horizon. The swift and decisive action of Parliament has signaled a new chapter, one that promises stability—a crucial factor for Pakistan's economic revival.

The bullish momentum observed at the Pakistan Stock Exchange (PSX) this week is a clear indication of renewed investor

confidence. Gaining over 800 points, the market's rally reflects optimism for political calm and economic growth. Mohammed

Sohail, chief executive of Topline Securities, aptly noted that the reduction in political noise has rejuvenated the market. With the economy now on a more stable footing, there is an opportunity for the country to focus on long-overdue structural reforms.

But this newfound stability must not be taken for granted. It is imperative that all

political actors exercise restraint and avoid the temptation to revert to divisive tactics. The 26th Amendment should serve as a foundation, not a flashpoint for future confrontations. Pakistan's economy, still reeling from past turmoil, needs time and stability to recover. Continued political bickering would only derail the progress made so far.

The nation stands at a crossroads. With stability within reach, the onus is on leaders from all sides to uphold this peace. Let this be a moment where Pakistan finally turns the page, embracing unity and collective progress over discord.

Former Pakistan Star Tears Into Sufiyan Muqem Over Abhishek Sharma Taunt

LAHORE: Former Pakistan cricketer Basit Ali has openly criticized Shaheens young bowler Sufiyan Muqem for his behavior during a heated exchange with India A's Abhishek Sharma in the ACC Men's T20 Emerging Teams Asia Cup 2024.

The incident took place during a tense match at Al Amerat, where Muqem's sledging of Sharma sparked controversy on the field.

Basit Ali, speaking on his YouTube channel, expressed disappointment with Muqem's actions and stressed the importance of sportsmanship among cricketers.

He reprimanded the 18-year-old for his conduct, reminding him that his career was still in its early stages.

"The cricket was top-class, but one thing that really upset me was the incident involving Sufiyan Muqem and Abhishek Sharma. If I were sitting in the dugout or the team manager, I would have told Sufiyan, 'Son, pick up your things and go back.' You haven't even played proper cricket for Pakistan yet, and you're already using abusive language. What kind of behaviour is this?" Basit said.

The on-field spat occurred after Muqem dismissed Abhishek Sharma, who had scored 35 runs off 22 balls.

Muqem celebrated the wicket by making a "silence gesture" towards the Indian opener, triggering a verbal confrontation between the two players.

Umpires Chamara de Zoysa and Rahul Asher intervened to defuse the situation.

India A eventually secured a narrow 7-run victory, posting 183/8 in 20 overs and holding Pakistan A to 176/7.—Agency

Robert Lewandowski and Pablo Torre struck twice each as Barcelona hammered Sevilla 5-1 on Sunday to stay three points clear of Real Madrid at the top of La Liga ahead of next weekend's clash.

Los Blancos beat Celta Vigo on Saturday to pull level with Hansi Flick's side but Barca swiftly restored their advantage with a dominant display of attacking football.

Veteran striker Lewandowski reached 12 goals in 10 La Liga matches, his strikes sandwiching Pedro Gonzalez's effort from the edge of the box before substitute Torre added the fourth.

Stanis Dumbo grabbed a consolation for Sevilla in the final stages but Francisco Garcia Pimentia's side were roundly beaten on his return to the club he spent nearly three decades in various roles.

Torre finished the rout with a crossed free-kick which flew beyond Nyland and in at the far post.

"(It was) very important, given the games ahead, but this was an important game (too) and we got the three points," Pedro told Movistar.

"Just before the game, the coach said the space was just outside the area and I had the luck (to score)."

Despite upcoming clashes against Bayern Munich in the Champions League and Saturday's visit to the Santiago Bernabeu, Flick started arguably his strongest fit and available side.

The coach was able to name Dani Olmo, Ferrn Lopez and Gavi on the bench after injury, the latter sidelined since November 2023 following a knee operation.

Ansu Fati started for the first time this season after Eric Garcia felt discomfort in the warm-up, with Raphinha shifting into a central attacking midfield position.

Lamine Yamal, starting after recovering from a minor hamstring strain which saw Spain release him from international duty early, curled off target early on after a sprightly burst past two Sevilla players.

The Catalans took the lead when Raphinha went down in the box under light contact from Peque, a former Barca youth player, and the referee pointed to the spot.

Robert Lewandowski, stuttering in his run-up, sent Sevilla goalkeeper Orjan Nyland the wrong way to fire Barca ahead.

The 36-year-old striker is enjoying a second wind under Flick and leads Spain's scoring charts with 12 strikes in 10 matches, twice as many as any other player.—Agency

Neymar Fights Back Tears, Readies For Dramatic Al Hilal Comeback

Brazilian footballer Neymar recently said that he "suffered every day" that he was away from the football field as he prepares to make his long-awaited return to Saudi Arabia's leading football club, Al Hilal, after his injury.

The 32-year-old footballer broke down in tears as he discussed being stuck on the sidelines as he witnessed his team thrive at the top of the Saudi Pro League leaderboard during his 12-month injury nightmare, Goal reported.

The former Paris Saint-Germain star was forced to step back soon after joining the Riyadh-based club in 2023 as part of a two-year deal, after suffering a knee injury while on 2026 World Cup qualifying duty in October 2023.

Discussing his epic journey back to full fitness with the NR Sports YouTube channel, a tearful Neymar said: "I felt a huge pain. In that moment I already knew it was serious. What I want most in life is to play football."

"I have suffered every day I've been away from the pitch. This is what hurts me the most. I am focused on the most important people in my life, my family and friends, and football. I have given every time I have been injured. But I don't return halfway."

Neymar's remarks shut down questions that were raised about his future while he was on the treatment table, suggesting that his time in the Middle East could be cut short. After stepping back into full training, Neymar has been included in Al Hilal's squad for an AFC Champions League trip to Al Ain.

While Neymar's contract is only due to run until the summer of 2025, there is an extension option within those terms that could keep him in Riyadh for another year.—Agency

Lockdown at Adiala: Prison Visits Banned Indefinitely Over Mysterious 'Security Threats'

RAWALPINDI: The Punjab government has once more extended the ban on meetings with prisoners at the Adiala jail, and this time indefinitely, citing security concerns, sources told media on Monday.

The sources said the ban will remain intact till further order. The jail authorities have extended the ban, on directive of the Punjab government, they said.

Earlier, the provincial government had prohibited prisoners from meeting visitors from October 4 to 18 and then the ban was extended by two more days.

Though the ban has apparently been extended due to security concerns for high-profile political prisoners — Pakistan Tehreek-e-Insaf (PTI) founder Imran Khan, his spouse Bushra Bibi, senior PTI leader Shah Mahmood Qureshi — but it equally applies to all the prisoners.

Last week, the Adiala jail authorities had rubbished the claims made by the PTI that ill-treatment meted out to the former prime minister, while revealing an exquisite menu of meals provided to Imran in the prison.

The menu was revealed after PTI Chairman Gohar Ali Khan mentioned about alleged mistreatment to Imran Khan, his spouse Bushra Bibi, senior PTI leader Shah Mahmood Qureshi — but it equally applies to all the prisoners.

all facilities, including uninterrupted electricity, proper meals and the opportunity to exercise regularly.

They said that a professional cook prepared his meals, which included a wide range of dishes to his taste.

"Khan's breakfast consists of coffee, chia seeds, beetroot juice, yoghurt, chapati, biscuits and dates. For lunch, he is served traditional curry, local chicken, chappati, salad, green tea, and mutton. Dinner includes porridge, coconut, coconut juice and grapes, all prepared under the supervision of an assistant superintendent."

"His food is prepared according to his choices and under strict supervision," the statement read, dismissing claims made during the press conference by the PTI leaders.

Commenting on his health, the authorities said

that the former prime minister, who has been imprisoned since last year, was examined thrice a day by an in-house doctor and the fresh medical tests confirmed he was in healthy and active. Doctors of the Pakistan Institute of Medical Sciences (PIMS) hospital too conducted a medical examination and confirmed his well-being two days ago.

Imran is also provided with daily newspapers and exercises for two hours each day, the officials said. They refuted the claims of isolation, stressing that security arrangements in B-Class are thorough and complete.

The authorities termed the news doing rounds on social media and within political circles about Imran's alleged mistreatment as "baseless". They said that the PTI founder's conditions complied with all legal requirements —RT/Agency

PTI's Legal Gamble Fizzles Out: SC Shuts Down Internal Polls Plea

ISLAMABAD: Supreme Court dismissed Pakistan Tehreek-e-Insaf's (PTI) plea on the matter of its internal polls after the party refused to proceed with the case in the light of the 26th Constitutional Amendment on Monday.

The coalition government passed the contentious constitutional package in the National Assembly during the predawn hours on Monday, after successfully steering the 26th Amendment Bill, 2024, through the Senate.

The judicial reforms came into force later today after President Asif Ali Zardari signed the bill into law on the advice of Prime Minister Shehbaz Sharif.

A three-member bench, headed by CJP Qazi Faez Isa, and comprising Justice Muhammad Ali Mazhar and Justice Musarrat Hsani, was hearing the PTI's plea to review its judgement on its intra-party election.

On January 13, the bench unanimously nullified the judgement of the Peshawar High Court (PHC), while upholding the Election Commission of Pakistan (ECP) decision declaring PTI's intra-party polls "unconstitutional".

During today's hearing,

PTI's lawyer Hamid Khan filed a petition for the formation of a larger bench to hear the review petition.

Upon being asked about the reason for this request, the lawyer suggested the court see a past verdict by a 13-member bench in a Sunni Ittehad Council (SIC) vs Election Commission of Pakistan (ECP) case.

At this, CJP Isa objected that it was a different case. He asked why didn't PTI want to give the arguments.

"Say what you want of saying it on the television behind my back," the top judge remarked.

Responding to the remark, the PTI lawyer said that he cannot present the arguments against "an extremely biased person".

CJP Isa remarked that the petition being heard did not mention this aspect.

In a statement issued on Monday, the ICJ Secretary General Santiago Canton said, "These changes bring an extraordinary level of political influence over the process of judicial appointments and the judiciary's administration."

"They erode the judiciary's capacity to independently and effectively function as a check against excesses by other branches of the State and protect human rights."

"It is alarming a Constitutional Amendment of great significance and public interest was passed in such a secretive manner and in less than 24 hours."

Pakistan's \$2 Billion Plea To IMF: More Climate Cash Needed

ISLAMABAD: The government of Pakistan is seeking an additional \$2 billion from the International Monetary Fund (IMF) to address the impacts of climate change, media reported citing sources.

According to sources, Finance Minister Muhammad Aurangzeb will make the request during the annual IMF meetings, scheduled to take place later this month.

This development came after Pakistan's initial request for climate financing was not immediately approved by the IMF, sources said.

Sources revealed that Pakistan has taken steps to address fiscal sustainability and mobilize revenue, including passing the FY24 budget, which advances a primary surplus of around 0.4 per cent of GDP. The government has also committed to ensuring a market-determined exchange rate and reducing inflation.

Furthermore, the Finance Minister will at-

tend the IMF meetings alongside the Secretary of Finance and State Bank officials. The meetings are scheduled to conclude by October 26.

Earlier on September 27, Pakistan requested an additional \$1.5 billion loan from IMF to combat the impacts of climate change in the country.

During a meeting with IMF Managing Director Kristalina Georgieva, Prime Minister Shehbaz Sharif discussed the need for urgent action to control climate change in Pakistan.

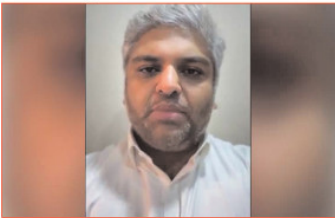

The loan will support Pakistan's Climate Resilience and Sustainability

Facility, which aims alongside the Secretary of Finance and State Bank officials. The meetings are scheduled to conclude by October 26.

It is important to mention here that the International Monetary Fund (IMF) Executive Board on September 25 approved Pakistan's 37-month Extended Fund Facility (EFF) arrangement of about US\$7 billion. The 37-month Extended Fund Facility arrangement aims to support Pakistan's economic stability and growth, with key policy goals including sustainable public finances, reduced inflation, and strengthened external buffers —RT/Agency
